NOELLE JIMENEZ

Elizabeth's Women HarperCollins

Elizabeth I is perhaps England's most popular monarch. Respected by her subjects and idolized by future generations, her fierce devotion to her country and its people truly make her England's fairest queen.

"The Book of Buried Treasure" by Ralph Delahaye Paine. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

War Made New Canada Law Book

The general perception of Katherine Parr is that she was a provincial nobody with intellectual pretensions who became queen of England because the king needed a nurse as his health declined. Yet the real Katherine Parr was attractive, passionate, ambitious, and highly intelligent. Thirty-years-old (younger than Anne Boleyn had been) when she married the king, she was twice widowed and held hostage by the northern rebels during the great uprising of 1536-37 known as the Pilgrimage of Grace. Her life had been dramatic even before she became queen and it would remain so after Henry's death. She hastily and secretly married her old flame, the rakish Sir Thomas Seymour, and died shortly after giving birth to her only child in September 1548. Her brief happiness was undermined by the very public flirtation of her husband and step-daughter, Princess Elizabeth. She was one of the most influential and active queen consorts in English history, and this is her story.

White Cargo London, E. Stock

Examines Queen Elizabeth I through the eyes of the women who shaped her life—from her bewitching mother, Anne Boleyn, to her dangerously obsessive sister, Mary Tudor, and from the rivals to her throne such as Mary, Queen of Scots to her rivals in love, like Lettice Knollys, who stole her closest male favorite.

Trial of Mary, Queen of Scots Macmillan + ORM

Elizabeth I was born into a world of women. As a child, she was served by a predominantly female household of servants and governesses, with occasional visits from her mother, Anne Bolyen, and the wives who later took her place. As Queen, Elizabeth was cons

The Spanish Armada Random House

The New York Times bestselling author of *Mistress Shakespeare* delivers the epic tale of Elizabeth I's most trusted companion—a commoner who lived among royals.... Katherine Ashley, the clever, beguiling daughter of a poor country beekeeper, catches the attention of powerful, ambitious Thomas Cromwell—henchman for King Henry VIII. Cromwell secures for Kat a place in the royal court, but as a reluctant spy. Plunged into a treacherous game of shifting alliances, Kat is entrusted by Anne Boleyn to protect her daughter, Elizabeth. In the face of exile, assassination attempts, imprisonment, and a romantic flirtation that could cost the young princess dearly, Kat will risk everything—even her own secret love—for her bright, clever Elizabeth.

On This Day in Tudor History Oxford University Press, USA

One of the greatest loves of all time-between Elizabeth I and Robert Dudley-comes to life in this vivid novel. They were playmates as children, impetuous lovers as adults-and for thirty years were

the center of each others' lives. Astute to the dangers of choosing any one man, the Virgin Queen could never give her "Sweet Robin" what he wanted most-marriage- yet she insisted he stay close by her side. Possessive and jealous, their love survived quarrels, his two disastrous marriages to other women, her constant flirtations, and political machinations with foreign princes. His Last Letter tells the story of this great love... and especially of the last three years Elizabeth and Dudley spent together, the most dangerous of her rule, when their passion was tempered by a bittersweet recognition of all that they shared-and all that would remain unfulfilled.

A Little History of the World Madeglobal Publishing

"On This Day in Tudor History" gives a day-by-day look at events from the Tudor era, including births, deaths, baptisms, marriages, battles, arrests, executions and more. This must-have book for Tudor history lovers is perfect for: - Dipping into daily over your morning coffee - Using in the classroom - Trivia nights and quizzes - Finding out what happened on your birthday or special day - Wowing friends and family with your Tudor history knowledge - Researching the Tudor period Written by best-selling Tudor history author Claire Ridgway, "On This Day in Tudor History" contains a wealth of information about your favourite Tudor monarchs, their subjects and the times they lived in. Did you know: on 17th January 1569 Agnes Bowker gave birth to a cat?

Books Condemned to be Burnt Hachette UK

Listing of 100 people from around the world and from many different fields of endeavor, whose actions--the author has determined--have had, or will have, the greatest influence on the course of history.

The King's Deception Createspace Independent Publishing Platform

Travel back to the 77 years of Boleyn ownership. Tour each room as it was when Anne Boleyn retreated from court to escape the advances of Henry VIII. See Hever Castle come to life with room reconstructions and read the story of the Boleyns.

Elizabeth I Oxford University Press, USA

The book includes six chapters that cover Virginia history from initial settlement through the 20th century plus one that deals with the important role of underwater archaeology. Written by prominent archaeologists with research experience in their respective topic areas, the chapters consider important issues of Virginia history and consider how the discipline of historic archaeology has addressed them and needs to address them . Changes in research strategy over time are discussed , and recommendations are made concerning the need to recognize the diverse and often differing roles and impacts that characterized the different regions of Virginia over the course of its historic past. Significant issues in Virginia history needing greater study are identified.

The Historical Archaeology of Virginia from Initial Settlement to the Present Bantam Dell Publishing Group

A monumental, groundbreaking work, now in paperback, that shows how technological and strategic revolutions have transformed the battlefield Combining gripping narrative history with wide-ranging analysis, *War Made New* focuses on four "revolutions" in military affairs and describes how inventions ranging from gunpowder to GPS-guided air strikes have remade the field of battle—and shaped the rise and fall of empires. *War Made New* begins with the Gunpowder Revolution and explains warfare's evolution from ritualistic, drawn-out engagements to much deadlier events, precipitating the rise of the modern nation-state. He next explores the triumph of steel and steam during the Industrial Revolution, showing how it powered the spread of European colonial empires. Moving into the twentieth century and the Second Industrial Revolution, *Boot* examines three critical clashes of World War II to illustrate how new technology such as the tank, radio, and airplane ushered in terrifying new forms of warfare and the rise of centralized, and even totalitarian, world powers. Finally, *Boot* focuses on the Gulf War, the invasion of Afghanistan, and the Iraq War—arguing that even as cutting-edge technologies have made America the greatest military power in world history, advanced communications systems have allowed decentralized, "irregular"

forces to become an increasingly significant threat.

Memoirs of the Court of Elizabeth, Queen of England Yale University Press

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Katherine the Queen Penguin

Few leadership titles have been written on the lives of women. Alan Axelrod, noted historian and business management expert, reveals how Elizabeth I overcame daunting obstacles to win intense loyalty and lead England to greatness. The queen's long reign offers lessons on: developing a leadership attitude and image enhanced by personal dynamism; becoming an effective coach and mentor skilled at nurturing creativity; manipulating others—subtly and ethically—and knowing and anticipating the "enemy." How did Elizabeth meet the challenges that faced her, managing not only to stay alive and keep her imperiled nation afloat, but also to win the intense loyalty of her people and lead England to greatness? Historians and biographers have offered many explanations. Elizabeth I, CEO takes a fresh view, exploring issues that are relevant to leaders—especially business leaders—of today.

The Age of Elizabeth University of Chicago Press

"FASCINATING . . . Dramatic and timely." —New York Times Book Review, Editors' Choice In this grand and thrilling narrative, the acclaimed biographer of Magellan and Columbus reveals the singular adventures of Sir Francis Drake, whose mastery of the seas during the reign of Queen Elizabeth I changed the course of history. "Entrancing . . . Very good indeed." —Wall Street Journal Before he was secretly dispatched by Queen Elizabeth to circumnavigate the globe, or was called upon to save England from the Spanish Armada, Francis Drake was perhaps the most wanted—and successful—pirate ever to sail. Nicknamed "El Draque" by the Spaniards who placed a bounty on his head, the notorious red-haired, hot-tempered Drake pillaged galleons laden with New World gold and silver, stealing a vast fortune for his queen—and himself. For Elizabeth, Drake made the impossible real, serving as a crucial and brilliantly adaptable instrument of her ambitions to transform England from a third-rate island kingdom into a global imperial power. In 1580, sailing on Elizabeth's covert orders, Drake became the first captain to circumnavigate the earth successfully. (Ferdinand Magellan had died in his attempt.) Part exploring expedition, part raiding mission, Drake's audacious around-the-world journey in the *Golden Hind* reached Patagonia, the Pacific Coast

of present-day California and Oregon, the Spice Islands, Java, and Africa. Almost a decade later, Elizabeth called upon Drake again. As the devil-may-care vice admiral of the English fleet, Drake dramatically defeated the once-invincible Spanish Armada, spurring the British Empire's ascent and permanently wounding its greatest rival. The relationship between Drake and Elizabeth is the missing link in our understanding of the rise of the British Empire, and its importance has not been fully described or appreciated. Framed around Drake's key voyages as a window into this crucial moment in British history, *In Search of a Kingdom* is a rousing adventure narrative entwining epic historical themes with intimate passions.

The Private Lives of the Tudors Ballantine Books

History buffs love to immerse themselves in the details of past eras. But sometimes, one can get bogged down in the minutia of times gone by and fail to grasp the significance of the bigger picture. This volume from historian James Johonnot is the antidote to overly compartmentalized history texts, offering a broad perspective on the major events that coalesced to shape the world we live in.

The World Book Encyclopedia Bantam

Elizabeth I acceded to the throne in 1558, restoring the Protestant faith to England. At the heart of the new queen's court lay Elizabeth's bedchamber, closely guarded by the favoured women who helped her dress, looked after her jewels and shared her bed. Elizabeth's private life was of public, political concern. Her bedfellows were witnesses to the face and body beneath the make-up and elaborate clothes, as well as to rumoured illicit dalliances with such figures as Robert Dudley. Their presence was for security as well as propriety, as the kingdom was haunted by fears of assassination plots and other Catholic subterfuge. For such was the significance of the queen's body: it represented the very state itself. This riveting, revealing history of the politics of intimacy uncovers the feminized world of the Elizabethan court. Between the scandal and intrigue the women who attended the queen were the guardians of the truth about her health, chastity and fertility. Their stories offer extraordinary insight into the daily life of the Elizabethans, the fragility of royal favour and the price of disloyalty.

Ulysses Madeglobal Publishing

In a Europe aflame with wars of religion and dynastic conflicts, Elizabeth I came to the throne of a realm encircled by menace. To the great Catholic powers of France and Spain, England was a heretic pariah state, a canker to be cut away for the health of the greater body of Christendom. Elizabeth's government, defending God's true Church of England and its leader, the queen, could stop at nothing to defend itself. Headed by the brilliant, enigmatic, and widely feared Sir Francis Walsingham, the Elizabethan state deployed every dark art: spies, double agents, cryptography, and torture. Delving deeply into sixteenth-century archives, Stephen Alford offers a groundbreaking, chillingly vivid depiction of Elizabethan espionage, literally recovering it from the shadows. In his company we follow Her Majesty's agents through the streets of London and Rome, and into the dank cells of the Tower. We see the world as they saw it—ever unsure who could be trusted or when the fatal knock on their own door might come. *The Watchers* is a riveting exploration of loyalty, faith, betrayal, and deception with the highest possible stakes, in a world poised between the Middle Ages and modernity.
