 "Liquid and elegantly stylized." -- Alan Moore □Chester 5000 is everything I wish I could be in a robot boyfriend and Jess Fink is everything I wish I could be as an artist. This is the most sexcellent book you will ever read.□ -- Rich Stevens, author of Diesel Sweeties □Is there any finer thing than a gorgeously drawn and visually engaging sexy-Victorian steam-punk robo-love story? Chester 5000 is absolutely wonderful, custom-built for your (reading) pleasure.□ -- Lucy Knisley, author of French Milk "A naughty tale of true romance."-- io9 "Like the works produced during the high point of the adult film industry, Chester 5000 has both a narrative and a heart... fluid and cute."-- Paste "Both sexy and charming. This is pornography with a heart."-- The AV Club "[Chester 5000] spins male vibrator anxiety (I've been replaced by a machine!) into a fantasia about women asserting control over their own orgasms."-- Burnaway "A woman-friendly, couple-friendly book destined to become a perennial in sex-positive toy and book stores."-- The Comics Journal "Delightfully playful... a genuinely beautiful piece of erotica so evidently drawn with love by a comicbook creator unafraid

to concoct something that would arouse women like herself every bit as much as men."-- Page 45
 "This is the kind of book that makes me ecstatic to read comics."-- Johanna Draper Carlson, Comics Worth Reading 1885: an age of industrial revolution and sexual frustration. Pricilla is a woman with needs, and her inventor husband Robert is a little too busy with his experiments to keep her fully satisfied. Science to the rescue! With a few gears and springs, the proper appendages, a little lubrication, and a lot of love, Chester 5000 is born! He's the perfect tool for the job... but what if Chester is more than just a machine? What are the consequences of trying to engineer love? A vintage delight for adult readers of all stripes, Jess Fink's Top Shelf debut reads like a whimsical love-child of steampunk, silent film and erotic comics. CHESTER 5000: Because sometimes love comes with detachable body parts.

"A nervy, soulful, genuinely surprising it-could-happen-to-you thriller — a book to make you peer over your shoulder for days afterwards."—A.J. Finn, New York Times bestselling author of *The Woman in the Window* Winner of the Victorian Premier's Literary Award, *The Nowhere Child* is screenwriter Christian White's internationally bestselling debut thriller of psychological suspense about a woman uncovering devastating secrets about her family—and her very identity... Kimberly

Leamy is a photography teacher in Melbourne, Australia. Twenty-six years earlier, Sammy Went, a two-year old girl vanished from her home in Manson, Kentucky. An American accountant who contacts Kim is convinced she was that child, kidnapped just after her birthday. She cannot believe the woman who raised her, a loving social worker who died of cancer four years ago, crossed international lines to steal a toddler. On April 3rd, 1990, Jack and Molly Went's daughter Sammy disappeared from the inside their Kentucky home. Already estranged since the girl's birth, the couple drifted further apart as time passed. Jack did his best to raise and protect his other daughter and son while Molly found solace in her faith. The Church of the Light Within, a Pentecostal fundamentalist group who handle poisonous snakes as part of their worship, provided that faith. Without Sammy, the Wents eventually fell apart. Now, with proof that she and Sammy are in fact the same person, Kim travels to America to reunite with a family she never knew she had. And to solve the mystery of her abduction—a mystery that will take her deep into the dark heart of religious fanaticism where she must fight for her life against those determined to save her soul...

Through delightful drawings, photographs, and musings, twenty-three-year-old Lucy Knisley

documents a six-week trip she and her mother took to Paris when each was facing a milestone birthday. With a quirky flat in the fifth arrondissement as their home base, they set out to explore all the city has to offer, watching fireworks over the Eiffel Tower on New Year's Eve, visiting Oscar Wilde's grave, loafing at cafés, and, of course, drinking delicious French milk. What results is not only a sweet and savory journey through the City of Light but a moving, personal look at a mother-daughter relationship.

An in-depth look at academically selective public high schools in America What is the best education for exceptionally able and high-achieving youngsters? Can the United States strengthen its future intellectual leadership, economic vitality, and scientific prowess without sacrificing equal opportunity? There are no easy answers but, as Chester Finn and Jessica Hockett show, for more than 100,000 students each year, the solution is to enroll in an academically selective public high school. Exam Schools is the first-ever close-up look at this small, sometimes controversial, yet crucial segment of American public education. This groundbreaking book discusses how these schools work--and their critical role in nurturing the country's brightest students. The 165 schools identified by Finn and Hockett are located in thirty states, plus the District of Columbia. While some are world renowned, such as Boston Latin and Bronx Science, others are known only in their own communities. The authors survey the schools on issues ranging from admissions and student diversity to teacher selection. They probe sources of political support, curriculum, instructional styles, educational effectiveness, and institutional autonomy. Some of their findings are surprising: Los Angeles, for example, has no "exam schools" while New York City has dozens. Asian-American students are overrepresented—but so are African-American pupils. Culminating with in-depth profiles of eleven exam schools and thoughtful reflection on policy implications, Finn and Hockett ultimately consider whether the country would be better off with more such schools. At a time of keen attention to the faltering education system, Exam Schools sheds positive light on a group of schools that could well provide a transformative roadmap for many of America's children.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Other Side of Friendship Chester 5000

Premio Ignatz 2017 a la Mejor Serie. "Líquido y elegantemente estilizado". —Alan Moore. Es el año 1885, una época de revolución industrial y frustración sexual. Priscilla es una joven esposa muy enamorada de Robert, su marido científico, que vive insatisfecha porque él está volcado en su trabajo y no le presta la suficiente atención ni en la casa ni en la cama. Robert, consciente de la situación, pone su ingenio a trabajar: Con unos pocos engranajes y resortes, los apéndices adecuados, un poco de lubricación y mucho amor nace ¡Chester 5000! Es la herramienta perfecta para llevar a cabo el trabajo y proporcionar la atención que demanda Priscilla, pero... ¿Qué pasa si Chester es más que una máquina? ¿Cuáles son las consecuencias de fabricar un amante robótico? Pronto, en ausencia de Robert, Priscilla descubre las inmensas dotes amorosas de Chester y ambos sacarán provecho, de las maneras más creativas, de cada minuto que pasan juntos. Los gestos y las miradas se hacen evidentes en el día a día. ¿Puede una persona amar a un robot? ¿Y

un robot, se puede enamorar? Robert sospecha que sí y urde un plan para boicotear al monstruo que ha creado. Chester 5000 es una delicia visual y narrativa para los lectores adultos. El debut de Jess Fink en Distinta Tinta es el extravagante hijo natural del steampunk, el cine mudo y los cómics eróticos.

"Jess Fink has the ability to let you into her life through these comics while hitting those nerves you know all too well yourself. This is her story; the joys, awkwardness, beauty, and undeniable humor. But in moments, we've been there too. It's funny, brave and moving, and overall, in a medium where many selfish, navel-gazing memoirs are to be found, We Can Fix It is the opposite. It's a gift." -- Kate Beaton At long last -- the wacky, charming, and deceptively deep time-travel memoir from the author of CHESTER 5000: Jess Fink's WE CAN FIX IT! What would you do if you had a time machine? Bet on sporting events? Assassinate all the evildoers of history? Or maybe try to fix all the mistakes and regrets that have haunted you all these years? Join Jess as she travels back in time to share her wisdom with her naive younger self, stand up to bullies who terrorized her child self, and teach her horny teenage self a thing or two. What begins as a raunchy adventure in teen wish fulfillment grows into a thoughtful story about memory, regret, and growing up. One time machine, one frustrated girl, one sexy futuristic jumpsuit...infinite possibilities.

Japan. March 11, 2011. 2:46 P.M. The biggest earthquake in Japan's history—and one of the world's five most powerful since 1900—devastated the Tohoku region, 320 kilometers (200 miles) northeast of Tokyo. It triggered a huge tsunami that left crippling damage in its wake. More than 13,000 people drowned, and thousands of buildings and homes were reduced to rubble. As people assessed the damage, they made the most frightening discovery of all: the Fukushima #1 nuclear power plant was seriously damaged and three of its six reactors were heading for meltdowns. Workers tried desperately—but unsuccessfully—to save them. Explosions and fires released radioactivity into the air. Within days the Japanese government declared a 20-kilometer (12-mile) evacuation zone. The future of the plant, the long-term health of those exposed to radiation, and the effects on the environment remained uncertain. Learn more about this massive catastrophe as Dr. Fred Bortz examines both the human tragedy and the scientific implications of the nuclear meltdown. Compare this disaster to similar nuclear events in the United States and in Ukraine, and move ahead with Dr. Bortz as he explores the global debate about the future of nuclear power and alternative sources of energy.

Meals have always been important across societies and cultures, a time for friends and families to come together. An important part of relationships, meals are vital to our social health. Author Tim Chester sums it up: "Food connects." Chester argues that meals are also deeply theological—an important part of Christian fellowship and mission. He observes that the book of Luke is full of stories of Jesus at meals. These accounts lay out biblical principles. Chester notes, "The meals of Jesus represent something bigger." Six chapters in *A Meal with Jesus* show how they enact grace, community, hope, mission, salvation, and promise. Moving from biblical times to the modern world, Chester applies biblical truth to challenge our contemporary understandings of hospitality. He urges sacrificial giving and loving around the table, helping readers consider how meals can be about serving others and sharing the grace of Christ.

It's about heart change, not behavior change. That's the conviction of Tim Chester as he seeks to help everyday Christians "connect the truth about God with our Monday-morning struggles." This interactive book, laid out in workbook fashion, is for newer Christians struggling with sin and for more mature Christians who have plateaued in their faith as they seek to find victory over sin in their lives. With a conviction that sanctification is God's work and the journey to holiness is joyful, Chester guides readers through a "change project"-beginning with the selection of one area of life they would like to modify. Each chapter includes a question (e.g., Why would you like to change? What truths do you need to turn to?) to guide readers as they deal with a specific sin or struggle, truths from God's word, and a reflection guide to help readers through their change project.
