The Hospice General Inpatient Level of Care Criteria ... Hospice Charting Guidelines Hospice Documentation . Hospice providers must establish and maintain a clinical record for every individual receiving care and services. The record must be complete, promptly and accurately documented, readily accessible and systematically organized to facilitate retrieval. Hospice Documentation The Hospice Nurse needs to document a baseline ADL at the time of admission and then with each nursing visit. Point out any changes in ability of the patient to manage ADL's. This is also a very good indicator of decline. When a nurse is admitting any hospice patient, it is also good to document what HOSPICE DOCUMENTATION: PAINTING THE PICTURE OF THE ... Hospice Center. For a one-stop resource web page focused on

the informational needs and interests of Medicare Fee-for-Service (FFS) hospices, go to the Hospice Center (see "Related Links Inside CMS" below). Hospice | CMS2. Once the patient is admitted to GIP the hospice team must document each day the continued need for the GIP level of care that identifies the specific symptoms being managed. The documentation should always reflect working towards a lower level of care with discharge planning evident from the first day of the GIP admission. Required Hospice GIP Documentation - Home Care & Hospice ... I am still a relatively new hospice nurse. I was wondering if any of you know where I could find pocket-sized charting guidelines. You know, the cheat sheet cards that I can carry with me daily that would remind me to chart about the necessary items for different diagnoses. Preferably not too heavy...
