**Ar'N't I A  
Woman? W.  
W. Norton &  
Company**

Over more  
than two  
centuries  
men, women,  
and children  
escaped from  
slavery to

make the Southern wilderness their home. They hid in the mountains of Virginia and the low swamps of South Carolina; they stayed in the neighborhood or paddled their way to secluded places; they buried themselves underground or built comfortable settlements. Known as maroons, they lived on their own or set up communities in swamps or other areas where they were not likely

to be discovered. Although well-known, feared, celebrated or demonized at the time, the maroons whose stories are the subject of this book have been forgotten, overlooked by academic research that has focused on the Caribbean and Latin America. Who the American maroons were, what led them to choose this way of life over alternatives, what forms of

marronage they created, what their individual and collective lives were like, how they organized themselves to survive, and how their particular story fits into the larger narrative of slave resistance are questions that this book seeks to answer. To survive, the American maroons reinvented themselves, defied slave society, enforced their own definition of freedom and dared

create their own alternative to what the country had delineated as being black men and women's proper place. Audacious, self-confident, autonomous, sometimes self-sufficient, always self-governing; their very existence was a repudiation of the basic tenets of slavery. *Hey Black Child* Univ of North Carolina Press Documenting the difficult class relations between women

slaveholders and slave women, this study shows how class and race as well as gender shaped women's experiences and determined their identities. Drawing upon massive research in diaries, letters, memoirs, and oral histories, the author argues that the lives of antebellum southern women, enslaved and free, differed fundamentally from those of northern

women and that it is not possible to understand antebellum southern women by applying models derived from New England sources. *True Stories of Girlhood and Accidental Fame* Penguin In childhood, bell hooks was taught that "talking back" meant speaking as an equal to an authority figure and daring to disagree and/or have an opinion. In this collection of personal and

theoretical essays, hooks reflects on her signature issues of racism and feminism, politics and pedagogy. Among her discoveries is that moving from silence into speech is for the oppressed, the colonized, the exploited, and those who stand and struggle side by side, a gesture of defiance that heals, making new life and new growth possible. *Slaveholding Widows from the American Revolution*

*through the Civil War W.* W. Norton & Company Six-time Coretta Scott King Award winner and four-time Caldecott Honor recipient Bryan Collier brings this classic, inspirational poem to life, written by poet Useni Eugene Perkins. Hey black child, Do you know who you are? Who really are? Do you know you can be What you want to be If you try to be What you can be? This lyrical,

empowering poem celebrates black children and seeks to inspire all young people to dream big and achieve their goals. **Ar'n't I a Woman?** W. W. Norton & Company Explores the contributions made by enslaved women to the family's economy and suggests they achieved a greater degree of equality with their men than white women Where Am I Now? Offers a portrait of Sojourner Truth, who was born into slavery, transformed herself into a pentecostal preacher, and spoke out against slavery and in support of oppressed people

An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal

feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's

relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and

modern,  
Beard argues,  
'it's time for  
change - and  
now!' From

Penguin  
I want to start  
very near the  
beginning of  
the tradition  
of Western  
literature, and  
its first  
recorded  
example of a  
man telling a  
woman to  
'shut up';  
telling her that  
her voice was  
not to be

heard in  
public. I'm  
thinking of a  
moment  
immortalised  
at the start of  
the Odyssey.  
We tend now  
to think of the  
Odyssey as  
the story of  
Odysseus and  
the  
adventures  
and scrapes  
he had  
returning  
home after  
the Trojan War  
- while for  
decades  
Penelope  
loyally waited  
for him,  
fending off the  
suitors who  
were pressing  
for her hand.  
But the  
Odyssey is  
just as much  
the story of

Telemachus,  
the son of  
Odysseus and  
Penelope; the  
story of his  
growing up;  
how over the  
course of the  
poem he  
matures from  
boy to man.  
The process  
starts in the  
first book with  
Penelope  
coming down  
from her  
private  
quarters into  
the great hall,  
to find a bard  
performing to  
throng of her  
suitors; he's  
singing about  
the difficulties  
the Greek  
heroes are  
having in  
reaching  
home. She  
isn't amused,

and in front of everyone she asks him to choose another, happier number. At which point young Telemachus intervenes: 'Mother,' he says, 'go back up into your quarters, and take up your own work, the loom and the distaff ... speech will be the business of men, all men, and of me most of all; for mine is the power in this household.' And off she goes, back upstairs. Mary Beard reflects

on the way women are heard – and have been heard – in public, from Homer's Odyssey through Margaret Thatcher to internet trolls. **The Public Voice of Women** Random House 'I am a woman's rights. I have plowed and reaped and husked and chopped and mowed, and can any man do more than that? I am as strong as any man that is now' A former slave and one

of the most powerful orators of her time, Sojourner Truth fought for the equal rights of Black women throughout her life. This selection of her impassioned speeches is accompanied by the words of other inspiring African-American female campaigners from the nineteenth century. One of twenty new books in the bestselling Penguin Great Ideas series. This new

selection showcases a diverse list of thinkers who have helped shape our world today, from anarchists to stoics, feminists to prophets, satirists to Zen Buddhists. *African Americans 1804-1860* Vintage  
The field of black women's history gained recognition as a legitimate field of study late in the twentieth century. Collecting stories that are both deeply

personal and powerfully political, *Telling Histories* compiles seventeen personal narratives **Black Feminist Thought** Columbia University Press  
From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis

is herself a woman of undeniable courage. She should be heard."—The New York Times  
Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were

aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the

murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work. [Ain't I a Woman](#) Vintage Female "circumcision" or, more precisely, female genital cutting (FGC), remains an

important cultural practice in many African countries, often serving as a coming-of-age ritual. It is also a practice that has generated international dispute and continues to be at the center of debates over women's rights, the limits of cultural pluralism, the balance of power between local cultures, international human rights, and feminist activism. In our increasingly

globalized world, these practices have also begun immigrating to other nations, where transnational complexities vex debates about how to resolve the issue. Bringing together thirteen essays, *Transcultural Bodies* provides an ethnographically rich exploration of FGC among African diasporas in the United Kingdom, Europe, and Australia. Contributors analyze changes in

ideologies of gender and sexuality in immigrant communities, the frequent marginalization of African women's voices in debates over FGC, and controversies over legislation restricting the practice in immigrant populations. **A London Review of Books Winter Lecture** Penguin UK In spite of the double burden of racial and gender discrimination, African-American

women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks,

Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought. The Man in the High Castle W. W. Norton  
Traces the history of emancipation and its impact on the Civil War, discussing how Lincoln and the Republicans fought primarily for freeing slaves throughout the war, not just as a

secondary objective in an effort to restore the union. 30,000 first printing. Woman's World in the Old South Routledge  
A classic work of feminist scholarship, Ain't I a Woman has become a must-read for all those interested in the nature of black womanhood. Examining the impact of sexism on black women during slavery, the devaluation of black womanhood, black male

sexism, racism among feminists, and the black woman's involvement with feminism, hooks attempts to move us beyond racist and sexist assumptions. The result is nothing short of groundbreaking, giving this book a critical place on every feminist scholar's bookshelf. **Ain't I a Beauty Queen?** Oxford University Press
