New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for

builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “virtually indispensable” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

Features of California Real Estate License Express (CA-RELE): General Principles & Law Key Point Review (60 pages) California-Specific Principles and Laws (56 pages) Real Estate Math Key Formula Review & Practice (17 pages) General Real Estate Practice Tests (500 questions) California State-Level Practice Tests (90 questions) California Practice Exam (150 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That’s why we created the California Real Estate License Express (CA-RELE) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work. CA-RELE is comprehensive in that it contains both key content review and testing practice. And the text review is California-specific – not just simplistic generic content, but terse, relevant and accurate state laws and regulations presented in a well-organized set of ‘key point reviews’ which are ideal for pre-test memorization. Finally, our real estate principles and practices content, as well as our question selection, is further tailored to the state testing outline promulgated by the California Department of Real Estate (DRE).

Therefore, the selected legal points and test questions reflect the topic emphasis of your California license exam. A word about the test questions... CA-RELE’s testing practice section consists of ten general practice tests, three California state law tests, and one state exam simulation test. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. To enhance your learning and preparations, each question’s answer is accompanied by a brief explanation, or “rationale” underlying the correct answer. In the end, as you know, it’s all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your California real estate exam. So good luck!!

with rationales to help schools and students improve pass rates. A new CD-ROM has been packaged with this edition, containing 50 new salesperson and 50 new broker practice questions. [B003971](#), [Respondent Brief Currency](#) Designed to simplify material while maximizing student interest, California Property Law for Paralegals is a well-organized, clearly written, practical text. This concise yet comprehensive book will provide students the tools they need but will not overwhelm them because it is geared specifically to the needs of paralegal students. Written so that class lectures can be prepared with ease, this text features: Practical problem solving exercises and hypotheticals presented in an interesting and attention-grabbing style with an eye to engaging the reader Ethical issues discussed throughout the text that challenge the students and prepare them for practice An option for instructors to encourage students to draft assignments in IRAC form to better prepare students for the workplace and to make grading easier for instructors Chapters ending with a review of important terms, concepts, definitions, and chapter review questions. The author engages both students and instructors with four special features intended to facilitate mastering the law through practical application: Judge for a Day uses a paraphrased judicial opinion or fact pattern that does not reveal the holding of the case. Students are asked to predict the judge's ruling. These can be used to trigger classroom discussion or used in a mock trial. The Client Comes Calling presents a challenge or task that a paralegal may encounter in the course of an ordinary day in a law firm. This feature spotlights ethical considerations and also introduces students to the business side of the practice of law.

Sharpening the Saw: An Exercise in Issue Spotting trains paralegals to think like legal professionals. Students are asked to read a set of facts and then to identify and effectively convey the issue in writing. This feature is presented in such a way that an instructor can determine how much emphasis to place on legal writing. Out of the Ivory Tower reminds students that clients use law firms to solve problems. This feature encourages creative thinking and a focus on the "big picture." Without a doubt, California Property Law for Paralegals is your best alternative for an easy to teach, focused, California-specific property text aimed specifically at paralegals.

#1 NEW YORK TIMES BESTSELLER If you want to build a better future, you must believe in secrets. The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we're too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't

make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.
