**Chicka Chicka Boom Boom**  
Lerner  
Publishing Group  
Kids see plants,  
flowers, and trees  
around them every  
day. In this lively and  
educational reader,  
they'll learn how those

plants grow. Kids will  
take this magical  
journey from seed  
pollination to plant  
growth, learning about  
what plants need to  
thrive and grow with  
the same careful text,  
brilliant photographs,  
and the fun approach  
National Geographic  
Readers are known for.  
**Oh Say Can You  
Seed? All About  
Flowering Plants**

Academic Press  
This award-winning, exuberantly illustrated picture book is now available as an oversized classroom edition *Chicka chicka boom boom Will there be enough room?* There is always enough room for this rollicking alphabet chant that has been a children's favorite for over twenty years. Bill Martin, Jr., and John Archambault's rhythmic text keeps the beat with Caldecott Honor illustrator Lois Ehlert's bold, cheerful art. This winning combination has made the *Chicka Chicka* series a classic.

One Bean  
LernerClassroom  
Eric Carle's classic story of the life cycle of a flower is told through the adventures of a tiny seed. This mini-

book includes a piece of detachable seed-embedded paper housed on the inside front cover. Readers can plant the entire piece of paper and watch as their very own tiny seeds grow into beautiful wildflowers.

Tree Is a Plant John Wiley & Sons  
This book is set up as lessons for teachers to use in teaching information about plants. Lessons include relevant terms, materials necessary, a story to introduce the concept, and suggestions for children's work (activities).

The Balanced Scorecard Houghton Mifflin Harcourt  
This educational and enjoyable book helps children understand how to plant bulbs,

seeds, and seedlings, and nurture their growth. Lois Ehlert's bold collage illustrations include six pages of staggered width, presenting all the flowers of each color of the rainbow.

**Guided Math AMPED**

Houghton Mifflin  
Harcourt

From the smallest seeds to the tallest trees, this beautiful children's guide is a must-have for any budding botanist or plant lover. We can't live without plants. We need them for food, shelter, even the air we breathe, yet we know surprisingly little about them. Why do thistles bristle with spines? How do some plants trap and eat insects? Did you know there are trees more than 5,000 years old? *Trees, Leaves, Flowers*

*& Seeds* explores the mysterious world of plants to find the answers to these and many more questions. This picture-packed encyclopedia shows a wonderful variety of plants, from fantastic ferns to spiky cacti. It explores the diverse habitats of plants, herbs and spices that make our food tasty, and even how astronauts grow plants in space. It also takes a fun, more sideways look at some truly weird and wonderful plants, including leaves that are home to frogs, orchids that look like parrots, and seeds that spin like helicopters. So open this fascinating ebook and find out more about the amazing world of trees, leaves, flowers, and seeds.

*Canterbury Tales*

Houghton Mifflin  
Harcourt  
Read and find out  
about how a tiny acorn  
grows into an  
enormous oak tree in  
this colorfully  
illustrated nonfiction  
picture book. This is a  
clear and appealing  
environmental science  
book for early  
elementary age kids,  
both at home and in  
the classroom. Plus it  
includes a find out  
more activity section  
with a simple  
experiment  
encouraging kids to  
discover what a seed  
needs to grow. This is a  
Level 1 Let's-Read-and-  
Find-Out, which means  
the book explores  
introductory concepts  
perfect for children in  
the primary grades.  
The 100+ titles in this

Depicts the life cycle of an apple, emphasizing the physical changes that occur in each

season

Our World in Pictures: Trees, Leaves, Flowers & Seeds Penguin

WINNER OF A CORETTA SCOTT KING HONOR AND THE JANE ADDAMS PEACE

AWARD! Each kindness makes the world a little better This

unforgettable book is written and illustrated by the award-winning team that created *The Other Side* and the Caldecott Honor winner *Coming On Home*

Soon. With its powerful anti-bullying message and striking art, it will resonate with readers long after they've put it down. Chloe and her friends won't play with the new girl, Maya.

Every time Maya tries to join Chloe and her friends, they reject her. Eventually Maya stops coming to school.

When Chloe's teacher

gives a lesson about how even small acts of kindness can change the world, Chloe is stung by the lost opportunity for friendship, and thinks about how much better it could have been if she'd shown a little kindness toward Maya.

Abrams

How do you make a garden grow? In this playful companion to the popular *Tap the Magic Tree* and *Touch the Brightest Star*, you will see how tiny seeds bloom into beautiful flowers. And by tapping, clapping, waving, and more, young readers can join in the action! Christie Matheson masterfully combines the wonder of the natural world with the interactivity of reading. Beautiful

collage-and-watercolor art follows the seed through its entire life cycle, as it grows into a zinnia in a garden full of buzzing bees, curious hummingbirds, and colorful butterflies. Children engage with the book as they wiggle their fingers to water the seeds, clap to make the sun shine after rain, and shoo away a hungry snail. Appropriate for even the youngest child, *Plant the Tiny Seed* is never the same book twice—no matter how many times you read it! And for curious young nature lovers, a page of facts about seeds, flowers, and the insects and animals featured in the book is included at the end. Fans of *Press Here*, Eric Carle, and *Lois Ehlert* will find their next favorite book in *Plant*

the Tiny Seed.

Greenwillow Books

Fran and her dog Fred try many things to get a small bud to grow into a flower, but it isn't until Fran puts the flower outside that she gets a big surprise just for her.

National Geographic

Readers: Seed to Plant  
HarperCollins

Laugh and learn with fun facts about flowers, plants, fruit, and more—all told in Dr. Seuss's beloved rhyming style and

starring the Cat in the Hat! "I'm the Cat in the Hat, and I think that you need to come take a look at this thing called a seed." The Cat in the Hat's Learning Library series combines beloved characters, engaging rhymes, and Seussian illustrations to introduce children to non-fiction topics from the real world! Grow your brain with fun facts about flowering plants and learn: how they all start out as a seed how they make their own food inside their leaves how bees help spread the pollen flowers need to produce fruit and much more! Perfect for story time and for the youngest readers, Oh Say Can You Seed? All About Flowering Plants also includes an index, glossary, and

suggestions for further learning. Look for more books in the Cat in the Hat's Learning Library series! High? Low? Where Did It Go? All About Animal Camouflage Is a Camel a Mammal? How a Seed Grows

From Seed to Plant

This eleventh edition was developed during the encyclopaedia's transition from a British to an American publication. Some of its articles were written by the best-known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style.

**Molecular Biology of the Cell** Bloomsbury

Publishing USA

A collection of devotional readings comprised of Bible verses, thoughts to grow on, and amazing facts about the world, designed to promote spiritual growth.

*Encyclopaedia*

*Britannica* RH Childrens Books

Celebrate Earth Day

with Dr. Seuss and the Lorax in this classic picture book about protecting the environment! I am the Lorax. I speak for the trees. Dr. Seuss's beloved story teaches kids to speak up and stand up for those who can't. With a recycling-friendly "Go Green" message, The Lorax allows young readers to experience the beauty of the Truffula Trees and the danger of taking our earth for granted, all in a story that is timely, playful and hopeful. The book's final pages teach us that just one small seed, or one

small child, can make a difference. This book is the perfect gift for Earth Day and for any child—or child at heart—who is interested in recycling, advocacy and the environment, or just loves nature and playing outside. Unless someone like you cares a whole awful lot, nothing is going to get better. It's not.

### **Grow Flower, Grow!**
