Doce relatos
extraordinarios originales
de Juan B. Bergua.
Detalles de Libro Doce

narraciones fantásticas
componen esta obra del
escritor español Juan B.
Bergua. Nueve relatos
extraordinarios inspirados
por diferentes colores,
siete que encuentran su
correspondencia en
alguno de los colores del
arco iris, más dos relatos
que tienen su
correspondencia en los
colores más antagónicos y
básicos: el Blanco y el
Negro, la luz y la

oscuridad. "La Fortuna", "El Milagro", "Sor Demonio", y "La Casualidad", "Daniel" son algunos de los relatos que componen este ejemplar único donde se conjugan fantasía, realidad, aventura y misterio. Juan B. Bergua nació en España en marzo de 1892. Obtuvo el título de Abogado a los 18 años gracias a su notable memoria, que también le hizo prodigio en el aprendizaje de idiomas. Interesado en conocer los clásicos de la literatura en su lengua de origen,

aprendió varios idiomas, no sólo en su época de estudiante cuando aprendió Francés, Inglés, Alemán, Latín y Griego, sino cuando se enfrentó a la literatura oriental y diversos clásicos universales en otras lenguas poco comunes. Decía Juan B. Bergua que ya existían traducciones de los clásicos de la literatura universal al inglés, el francés o el alemán, que se usaban frecuentemente como referencia para hacer traducciones al español, pero ninguna traducción

podía ser fidedigna si no se conocían directamente del original el estilo, los modismos y las diversas variantes usadas por el autor. Cabe comentar a modo de anécdota que estudió por su cuenta el Finlandés durante 10 años para traducir el Kalevala, siendo el resultado la primera y una de las únicas versiones en español de este clásico. Escritor, traductor y ávido estudioso de la literatura clásica y universal, todas sus traducciones están acompañadas de extensas y exhaustivas

anotaciones referentes a la obra original, el contexto en que fue escrita y su influencia en su tiempo y a lo largo de la Historia. Su trabajo constituye un aporte sustancial al acervo cultural de sus compatriotas y de todos los hispanoparlantes que, gracias a su dedicado esfuerzo y su cuidado en los detalles, podemos acceder a las grandes obras de la literatura universal con prólogos y anotaciones fundamentales para su entendimiento y disfrute.

Arco Iris Literario, escrito por Juan B. Bergua cuando ya alcanzaba los 90 años, representa una serie de "... rayos de luz en medio de las tinieblas literarias..."

In *Musicians in Transit* Matthew B. Karush examines the transnational careers of seven of the most influential Argentine musicians of the twentieth century: Afro-Argentine swing guitarist Oscar Alemán, jazz saxophonist

Gato Barbieri, composer Lalo Schifrin, tango innovator Astor Piazzolla, balada singer Sandro, folksinger Mercedes Sosa, and rock musician Gustavo Santaolalla. As active participants in the globalized music business, these artists interacted with musicians and audiences in the United States, Europe, and Latin America and contended with genre distinctions, marketing conventions, and ethnic stereotypes. By responding creatively to these constraints, they

made innovative music that provided Argentines with new ways of understanding their nation's place in the world. Eventually, these musicians produced expressions of Latin identity that reverberated beyond Argentina, including a novel form of pop ballad; an anti-imperialist, revolutionary folk genre; and a style of rock built on a pastiche of Latin American and global genres. A website with links to recordings by each musician accompanies the book.

ARCO IRIS coleccion de cuentos Benchmark Education Company "The Rainbow-El Arco Iris" is a story taken from Book 1 of the "Laura and Grandpa--Discovering Science Together" series. The series consists of Children's Picture Story books written for youngsters ages 5-8. Every story in this series has a scientific theme. This book, "El Arco Iris", is his first attempt at authoring a book in both English and Spanish. SMA-Major Vera McClaughert, MATL & CI is Department

Chair of World Languages at the Sarasota Military Academy in Florida. She and her senior class of 2015 collaborated in writing the Spanish text for this book. Scholastic's the Magic School Bus Makes a Rainbow Educamundis Arco Iris diferentes es un libro excepcional y de enorme valor del que se tenía necesidad desde hace mucho tiempo. Sus ensayos cubren un amplio espectro geográfico y han sido hábilmente engarzados por el coordinador del volumen.

Con abundante información sobre las homosexualidades del tercer mundo, es imposible exagerar la importancia de esta obra.

Babies Love Colors NYU Press

When they were kids, Rosie Dunne and Alex Stewart were inseparable, and exchanged notes throughout their classtime hours together. As they grew older their connection continued, though instead of folded notes they graduated to e-mails expressing their unconditional devotion.

Through their correspondence, this novel tracks a friendship strong enough to continue from adolescence into their adulthoods in Boston and Dublin, with an ocean between them.

We have all seen a rainbow in the sky. But what makes a rainbow? Learn how light and water make a rainbow! With easy-to-read text and detailed, vivid images, this science reader teaches students important scientific

subjects and vocabulary terms like prism, energy, and light waves. Aligned to state and national standards, the book contains nonfiction text features like an index, a glossary, captions, and bold font to keep students connected to the text. A hands-on science experiment helps students apply what they have learned and develops critical thinking skills.

Joe Arco Iris y Yo Siglo XXI

The first Nobel Prize in literature to be awarded

to a Latin American writer went to the Chilean poet Gabriela Mistral. Famous and beloved during her lifetime all over Latin America and in Europe, Mistral has never been known in North America as she deserves to be. The reputation of her more flamboyant and accessible friend and countryman Pablo Neruda has overshadowed hers, and she has been officially sentimentalized into a "poetess" of children and motherhood. Translations, and even selections of her work in Spanish, have

tended to underplay the darkness, the strangeness, and the raging intensity of her poems of grief and pain, the yearning power of her evocations of the Chilean landscape, the stark music of her Round Dances, the visionary splendor of her Hymns of America. During her lifetime Mistral published four books: *Desolation*, *Tenderness*, *Clearcut*, and *Winepress*. These are included in the "Complete" Nobel edition published in Madrid; the *Poem of Chile*, her last

book, was printed years after her death. Le Guin includes poems from all five books in this volume, with particular emphasis on the later work. The intelligence and passion of Le Guin's selection and translation will finally allow people in the North to hear the originality, power, purity, and intransigence of this great American voice. Le Guin has published five volumes of her own poetry, an English version of Lao Tzu's *Tao Te Ching*, and a volume of mutual translation with the

Argentine poet Diana Bellessi, *The Twins*, the *Dream/Las Gemelas*, *El Sueño*. Strongly drawn to Mistral's work as soon as she discovered it, Le Guin has been working on this translation for five years.

El diablo y el arco iris
 Houghton Mifflin Harcourt
 Written to provide hope, serious results, and life-long success to diabetes sufferers, this updated edition offers insight into anti-aging, holistic health, how to revitalize your diet, and more. Dr. Gabriel Cousens offers an innovative approach to the prevention and healing of what he calls chronic diabetes degenerative syndrome. A leading medical authority

in the world of live-food nutrition, Dr. Cousens exposes the dangers of excess glucose and fructose as the key causes of this seemingly unstoppable epidemic that affects more than 25 million Americans and 347 million people worldwide. Cousens, whose Diabetes Recovery Program is the most successful anti-diabetes program in the world, presents a 3-week plan that focuses on a moderate-low complex carbohydrate, live food, plant-source-only diet that reverses diabetes to a

physiology of health and well-being by resetting the genetic expression of a person's DNA. The program renders insulin and related medicines unnecessary within 4 days as the blood sugar drops to normal levels, and the diabetic shifts into a nondiabetic physiology within 2 weeks. Substantially revised throughout, this practical and encouraging guide reveals the risks of low cholesterol and low omega-3s in one's diet and includes more than 140 delicious and healthy

recipes. The book represents a major breakthrough in understanding the synergy that helps cure diabetes.

Selected Poems of Gabriela Mistral Pentian Francisco ha sido un niño inquieto desde muy pequeño. A pesar de ello, se caracterizó por ser reservado. Nació con un defecto físico pero eso no impidió que su inquietud lo llevara enfrentar grandes retos en su vida, la admiración de unos el desprecio de otros. Cierta día se encuentra en

medio de una serie de situaciones en las cuales se compromete incluso su vida, perseguido por la ira y el poder. Pierde su familia, sus amigos y su existencia y tendrá que luchar hasta el último instante de su vida para recuperarlos. Y para ello, tuvo que aceptar escoger entre el amor hacia su familia y el compromiso con seres diferentes que llegaron a ser amigos y compañeros cruciales para su existencia. En un relato en donde se desenvuelve el odio y el amor. Entre el pasado y el

futuro descubre lo importante que es el poder de un niño. *Light Makes a Rainbow* Editorial Bonum

How women-only communities provide spaces for new forms of culture, sociality, gender, and sexuality Women's lands are intentional, collective communities composed entirely of women. Rooted in 1970s

feminist politics, they continue to thrive in a range of ways, from urban households to isolated rural communes, providing spaces where ideas about gender, sexuality, and sociality are challenged in both deliberate and accidental ways. Herlands, a compelling ethnography of women's land networks in the United States, highlights the ongoing relevance of these communities as vibrant cultural enclaves that also have an impact on broader ideas about

gender, women's bodies, lesbian identity, and right ways of living. As a participant-observer, Keridwen N. Luis brings unique insights to the lives and stories of the women living in these communities. While documenting the experiences of specific spaces in Massachusetts, Tennessee, New Mexico, and Ohio, Herlands also explores the history of women's lands and breaks new ground exploring culture theory, gender theory, and how lesbian identity is

conceived and constructed in North America. Luis also discusses how issues of race and class are addressed, the ways in which nudity and public hygiene challenge dominant constructions of the healthy or aging body, and the pervasive influence of hegemonic thinking on debates about transgender women. Luis finds that although changing dominant thinking can be difficult and incremental, women's lands provide exciting possibilities for

revolutionary transformation in society. relatos Chunky Lift a Flap A bilingual collection presents a representative sampling of the poetry of the avant-garde Chilean writer, Vicente Huidobro *Arco iris diferentes* Palibrio

¿Alguna vez te has preguntado qué ocurre con nuestras mascotas cuando mueren? ¿Alguna vez los volverás a ver? Bueno, la buena noticia es que.. ¡si!. Las mascotas que realmente fueron

amadas por sus dueños, van al Cielo. Y Dios quiere que te reunas con ellos, sólo si confías en su hijo, Jesús, para salvarte. Nunca eres muy joven o muy viejo para asegurar tu eternidad en el Cielo.

Este libro, basado en las enseñanzas de la Biblia y en lo que se demostró a los cristianos sobre la existencia en el Cielo, fue escrito para consolar especialmente a los niños,

pero también a los adultos. Está dirigido para aquellos, cuyos perros o gatos ya no están junto a ellos, y que realmente los extrañan. ¡Ojalá este libro les traiga consuelo a sus corazones!
