## STONE DAISY

---

### Prophetic City IAP

How does space illuminate educational inequity? Where and how can spatial analysis be used to disrupt educational inequity? Which tools are most appropriate for the spatial analysis of educational equity? This book addresses these questions and explores the use of critical spatial analysis to uncover the dimensions of entrenched and systemic racial inequities in educational settings and identify ways to redress them. The contributors to this book – some of whom are pioneering scholars of critical race spatial analysis theory and methodology – demonstrate the application of the theory and tools applied to specific locales, and in doing so illustrate how this spatial and temporal lens enriches traditional approaches to research. The opening macro-theoretical chapter lays the foundation for the book, rooting spatial analyses in critical commitments to studying injustice. Among the innovative methodological chapters included in this book is the re-conceptualization of mapping and space beyond the simple exploration of external spaces to considering internal geographies, highlighting how the privileged may differ in socio-spatial thinking from oppressed communities and what may be learned from both perspectives; data representations that allow the construction of varied narratives based on differences in positionality and historicity of perspectives; the application of redlining to the analysis of classroom interactions; the use of historical archives to uncover the process of marginalization; and the application of techniques such as the fotonovela and GIS to identify how spaces are defined and can be reimagined. The book demonstrates the analytical and communicative power of mapping and its potential for identifying and dismantling racial injustice in education. The editors conclude by drawing connections across sections, and elucidating the tensions and possibilities for future research. Contributors Benjamin Blaisdell, Graham S. Garlick, Leigh Anna Hidalgo, Mark C. Hogrebe, Joshua Radinsky, Daniel G. Solórzano, William F. Tate, Verónica N. Vélez, Federico R. Waitoller

### The Case Study Anthology Emerald Group Publishing

Winner of the 2000 Outstanding Book Award presented by the American Educational Research Association, Winner of the 2001 American Educational Studies Association Critics' Choice Award, Honorable Mention, 2000 Gustavus Myers Outstanding Book Awards. Subtractive Schooling provides a framework for understanding the patterns of immigrant achievement and U.S.-born underachievement frequently noted in the literature and observed by the author in her ethnographic account of regular-track youth attending a comprehensive, virtually all-Mexican, inner-city high school in Houston. Valenzuela argues that schools subtract resources from youth in two major ways: firstly by dismissing their definition of education and secondly, through assimilationist policies and practices that minimize their culture and language. A key consequence is the erosion of students' social capital evident in the absence of academically oriented networks among acculturated, U.S.-born youth.

### Let's Stop Calling it an Achievement Gap Oxford University Press

Part prose, part album, and part photographic essay, *Western Skies* is a stunning homage to the mythologies of Texas. Amid a series of road trips across West Texas, Austin-based singer-songwriter Darden Smith found himself writing songs at the wheel and taking Polaroid photographs of the stark and ghostly terrain. Inspired by the spirit of the landscape, Smith scribbled his observations in a notebook and found new life in old lyrics—and between the prose, the music, and the images he captured with his camera, *Western Skies* came vividly to life. This beautifully designed and collectible book features everything Smith captured and created during his travels. The perfect companion piece to his latest album, also titled *Western Skies*, the book collects the sights and sounds of West Texas in a truly immersive and transportive way.

### The Inventor's Secret Random House

The Montgomery bus boycott, Student Nonviolent Coordinating Committee (SNCC), and *Brown v. Board of Education* reveal incentives to reform as a result of economic, political and legal threat. It is difficult to change a person's heart, or to change based on moral conviction alone. However, policies and laws can be established that will change a person's behavior. Historically, there was rarely a time where societal changes were the result of a desire to do what was morally right. Doing what is right was contingent upon economic advantages, political motivation or the threat of litigation. By the mid 1900s the NAACP had learned a valuable lesson in the South, that litigation or the threat of litigation was an effective tool in the quest for educational equality (Douglas, 1995). More recently, the #metoo movement and the Los Angeles teacher's strike exposed corrupt behavior and insufficient working environments that have existed for decades. What is different? They have been exposed through political, economic and legal means. As it pertains to educating African Americans, there was an ongoing role of servitude in the political economy of the South (Anderson, 1988). This was subsequently disrupted through political, economic, and legal measures during Reconstruction. Racist ideologies and economic advantages were seen through Jim Crow Laws (Roback, 1984) that were again disrupted through political, economic, and legal methods. Education has also been cited as what perpetuates our democracy. It is institutions that afford its citizens the skills and knowledge necessary for political participation (Rury, 2002). Even when legal cases are unsuccessful, such as *Puitt v. Commissioners of Gaston County* or *Plessy v. Ferguson*, they can forge the way to successful litigation dismantling racist ideologies that oppress African Americans. Although the *Puitt* decision did not remove the processes of discrimination against Black schools, it left intact the legal basis on segregated and unequal education (Douglas, 1995). As citizens, it is imperative that we participate in the political process and use our authority to mandate the changes we would like to see in urban education. When theorizing this book, the intent was to provide an interdisciplinary look at solutions to critical issues in urban education through political, economic, and legal avenues. This book seeks to provide an interdisciplinary approach to solving the issues in education while connecting it to the effects on teacher preparation. Using historical and recent examples, scholars can piece together solutions that will guide others to political, economic, and legal action necessary to dismantle systems that have bound Black and Brown children. It is our intent to offer innovative, yet grounded solutions that can purposefully move the conversation about solutions to critical issues in education

to political, economic, and legal actions.

*The Economic Vote* Dexterity

The presence of the refugee in the contemporary metropolis is marked by precarity, a quality that has become a characteristic feature of the neoliberal urban milieu. Bringing together essays from diverse disciplines, from architectural history to cultural anthropology and urban planning, this collection sheds light on both the specificities of the contemporary urban condition that affects the refugees and the multi-dimensional impact that the refugees have on the city. The authors propose investigating this connection through three interlinked themes: identity (informality, imagination and belonging); place (transnational homemaking practices); and site (the navigation of urban space). In recent years, there has been a significant growth in scholarship on forced migration, particularly on the relationship between displacement and the built environment. Scholars have focused on spatial practices and forms that arise under conditions of displacement, with much attention given to refugee camps and the social and political aspects of temporariness. While these issues are important, the essays in this volume aim to contribute to a less explored aspect of displacement, namely the interaction between refugees and the cities they inhabit. In this respect, the volume underlines the specificity of the urban refugee as well as their spatial agency and investigates the irreversible effect they have on the contemporary urban condition. The authors argue that viewing urban refugees solely as dislocated individuals outside the camp-like spaces of containment fails to understand the agency of the urban refugee and the blurred boundaries of identity that result. The term "refugee crisis" objectifies and denies active agency to refugees, homogenizing dislocated individuals and groups. The neoliberalization of the past four decades has led to the precarization of labour and the displacement of refugees, who frequently blend into the urban environment as hidden populations. Refugees are subjected to constant surveillance and the state's attempts to control them. However, these attempts are not uncontested, and the involvement of activist interventions further politicizes the urban refugee.

*Subtractive Schooling* University of Georgia Press

Both Thomas Edison and Henry Ford started off as insatiably curious tinkerers. That curiosity led them to become inventors—with very different results. As Edison invented hit after commercial hit, gaining fame and fortune, Henry struggled to make a single invention (an affordable car) work. Witnessing Thomas's glorious career from afar, a frustrated Henry wondered about the secret to his success. This little-known story is a fresh, kid-friendly way to show how Thomas Edison and Henry Ford grew up to be the most famous inventors in the world—and best friends, too.

**The Way We Eat Now** Intellect Books

Focusing on a wide range of critical issues, this book provides a comprehensive analysis of the linkage of different educational ideas, policies, and practices to a commitment for democratic schooling. Informed by significant, interdisciplinary research, as well as by his own extensive professional experiences as a teacher, professor, department chair, and dean, Teitelbaum examines contemporary concerns related to three broad areas: 1) teaching and teacher education; 2) curriculum studies; and 3) multiculturalism and social justice. His approach is to integrate the current and the historical, the practical and the theoretical, the technical and the socio-political, and the personal and the structural. With this volume, Teitelbaum considers how schools should be

organized and funded, what they should teach and to whom, the role that teachers, students, and parents should play in school life, and the need and prospects for schools and teacher education programs that foster meaningful learning, critical reflection, and social justice.

*Get Out Now* Basic Books

The Searing Portrayal Of War That Has Stunned And Galvanized Generations Of Readers An immediate bestseller upon its original publication in 1939, Dalton Trumbo's stark, profoundly troubling masterpiece about the horrors of World War I brilliantly crystallized the uncompromising brutality of war and became the most influential protest novel of the Vietnam era. Johnny Got His Gun is an undisputed classic of antiwar literature that's as timely as ever. "A terrifying book, of an extraordinary emotional intensity."--The Washington Post "Powerful. . . an eye-opener." --Michael Moore "Mr. Trumbo sets this story down almost without pause or punctuation and with a fury amounting to eloquence."--The New York Times "A book that can never be forgotten by anyone who reads it."--Saturday Review

*The Urban Refugee* Simon and Schuster

An award-winning food writer takes us on a global tour of what the world eats--and shows us how we can change it for the better Food is one of life's great joys. So why has eating become such a source of anxiety and confusion? Bee Wilson shows that in two generations the world has undergone a massive shift from traditional, limited diets to more globalized ways of eating, from bubble tea to quinoa, from Soylent to meal kits. Paradoxically, our diets are getting healthier and less healthy at the same time. For some, there has never been a happier food era than today: a time of unusual herbs, farmers' markets, and internet recipe swaps. Yet modern food also kills--diabetes and heart disease are on the rise everywhere on earth. This is a book about the good, the terrible, and the avocado toast. A riveting exploration of the hidden forces behind what we eat, *The Way We Eat Now* explains how this food revolution has transformed our bodies, our social lives, and the world we live in.

*A People's War on Poverty* John Wiley & Sons

"If they do come here, they'll show us no mercy," thirteen-year-old Evangelina overhears her father say as she gathers eggs in the chicken pen. Back at the house, Mamá brushes away her fears of revolutionaries. There are even more chores than usual to be done at Rancho Encantado because her sister's quinceañera celebration is rapidly approaching! It's the summer of 1911 in northern Mexico, and soon the de León family learns that the rumors of soldiers in the region are true. Evangelina's father decides they must leave their home to avoid the violence. The trip north to a small town on the U.S. side of the border is filled with fear and anxiety as they worry about loved ones left behind and the uncertain future ahead. Life in Texas is confusing, though the signs in shop windows that say "No Mexicans" and some people's reactions to them are all-too clear. At school, she encounters the same puzzling resentment. The teacher wants to give the Mexican children lessons on basic hygiene! And one girl in particular delights in taunting the foreign-born students. Why can't people understand that—even though she's only starting to learn English—she's just like them? With the help and encouragement of the town's doctor and the attentions of a handsome boy, Evangelina begins to imagine a new future for herself. This moving historical novel introduces teens to the tumultuous times of the Mexican Revolution and the experiences of immigrants, especially

Mexican Americans, as they adjust to a new way of life.

**Make Haste Slowly** Routledge

Framed by her own personal struggle with bulimia and body dysmorphia, Maria Koutsogiannis' *Mindful Vegan Meals* traces the foods she ate to get her to the next stage of her recovery in a way that will inspire and help others with this large and growing problem as evidenced by her large social media following. Maria pairs stories of her recovery from bulimia and body dysmorphia with the recipes that kept her body nourished along the way, giving an intimate look at how she went from eating disorder to proclaiming her personal mantra: "Fear not. Food is your friend." Packed with vibrant and healthy recipes inspired by her journey, including milestone recipes like the first carbs she allowed herself to eat, *Mindful Vegan Meals* offers a hopeful look at life while overcoming an eating disorder. This book will have 75 recipes and 75 photos.

Routledge

*Scholars in COVID Times* documents the new and innovative forms of scholarship, community collaboration, and teaching brought about by the COVID-19 pandemic. In this volume, Melissa Castillo Planas and Debra A. Castillo bring together a diverse range of texts, from research-based studies to self-reflective essays, to reexamine what it means to be a publicly engaged scholar in the era of COVID. Between social distancing, masking, and remote teaching—along with the devastating physical and emotional tolls on individuals and families—the disruption of COVID-19 in academia has given motivated scholars an opportunity (or necessitated them) to reconsider how they interact with and inspire students, conduct research, and continue collaborative projects. Addressing a broad range of factors, from anti-Asian racism to pedagogies of resilience and escapism, digital pen pals to international performance, the essays are connected by a flexible, creative approach to community engagement as a core aspect of research and teaching. Timely and urgent, but with long-term implications and applications, *Scholars in COVID Times* offers a heterogeneous vision of scholarly and pedagogical innovation in an era of contestation and crisis.

**World Yearbook of Education 2021** Cornell University Press

This handbook is currently in development, with individual articles publishing online in advance of print publication. At this time, we cannot add information about unpublished articles in this handbook, however the table of contents will continue to grow as additional articles pass through the review process and are added to the site. Please note that the online publication date for this handbook is the date that the first article in the title was published online.

Western Skies Critical Issues in Democratic Schooling

Winner of the 2019 Textbook Excellence Award ("Texty") from the Textbook & Academic Authors Association (TAA) "At the heart of policy analysis is giving advice about public issues, and the key to persuasive advice is clear and credible communication. In the CQ Press Writing Guide for Public Policy, Andrew Pennock draws on his years of experience as a professor, committee staffer, and policy consultant to impart useful, practical lessons on how to write more effective issue briefs, legislative testimony, memos, policy histories and op/ eds. Pennock provides potent insights into how to create first drafts, how to sharpen prose, how to communicate about complicated tables and figures, and how to write for nontraditional formats such as email and social media. This terrific book presents dozens of concrete tips and step-by-step instructions that should be required reading for all

student in public affairs undergraduate and graduate-level programs." —Eric M. Patashnik, Brown University The CQ Press Writing Guide for Public Policy is loaded with rich real world examples that help students master the process of translating insightful policy analysis into clear policy recommendations. Known for his conversational writing style, author Andrew Pennock offers step-by-step instructions on how to write for a variety of genres in a style that policy makers expect. Focusing on an audience-centered approach, students first learn how to create and organize an argument based on the unique needs and expectations of policy makers. The book then moves onto the nuts and bolts of how to write for a policy audience, with special consideration of ethics and working with visual and technical material. Finally, the book provides practical guidance on writing in specific policy genres: policy memos, briefs, Op-Eds, press releases, written testimony, social media, and emails. Key Features: Basic policy writing tasks help students write sentences, paragraphs and sections that make sense to readers (and to professors!). Students also learn how to create professional quality tables and figures that support their argument as well as how to package these components together effectively to communicate with policy makers. Six separate chapters for various public policy genres (issue briefs, legislative histories, decision memos, testimony, op-eds, and new media) provide students with an overview of the genre, several examples, and an analysis of each example. Current examples from across the field of public policy keep students engaged by connecting the concepts to current topics such as public health (the opioid epidemic, Native-American healthcare, lead poisoning), education (early childhood, school governance), criminal justice (sexting laws, ban-the-box), business regulation (AirBnB, renewable energy, drug pricing), security policy (cyber-security, foreign asset control), and social policy (physician assisted suicide). Bundle with a SAGE | CQ Press text for only \$5 more! Your students only pay \$5 A Guide to Writing for Public Policy when you bundle it with the print version of the following textbooks: Rinfret: Public Policy Peters: American Public Policy, 11e Kraft: Public Policy, 6e Bardach: A Practical Guide for Policy Analysis 5e

**Lone Star Tarnished** State University of New York Press

This book proposes a selection model for explaining cross-national variation in economic voting: Rational voters condition the economic vote on whether incumbents are responsible for economic outcomes, because this is the optimal way to identify and elect competent economic managers under conditions of uncertainty. This model explores how political and economic institutions alter the quality of the signal that the previous economy provides about the competence of candidates. The rational economic voter is also attentive to strategic cues regarding the responsibility of parties for economic outcomes and their electoral competitiveness. Theoretical propositions are derived, linking variation in economic and political institutions to variability in economic voting. The authors demonstrate that there is economic voting, and that it varies significantly across political contexts. The data consist of 165 election studies conducted in 19 different countries over a 20-year time period.

**Critical Issues in Democratic Schooling** IAP

Rather than descriptions of cases or short three paragraph samples, The Case Study Anthology provides readers with full cases drawn from a variety of disciplines that illustrate different case study techniques (descriptive, explanatory, cross-case, and methodological). Throughout the text,

Robert K Yin provides thoughtful insights and guidelines on the cases and the different approaches to doing case study research.

Scholars in COVID Times University of Chicago Press

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

*FCC Record* Kensington Publishing Corp.

Texas pride, like everything else in the state, is larger than life. So, too, perhaps, are the state's challenges. Lone Star Tarnished approaches public policy in the nation's most populous "red state" from historical, comparative, and critical perspectives. The historical perspective provides the scope for asking how various policy domains have developed in Texas history. In each chapter, Cal Jillson compares Texas public policy choices and results with those of other states and the United States in general. Finally, the critical perspective allows readers to question the balance of benefits and costs attendant to what is often referred to as "the Texas way" or "the Texas model" and to assess the many claims of Texas's exceptionalism. Through Jillson's lively and lucid prose, students are well equipped to analyse how Texas has done and is doing compared to selected states and the national average over time and today. This text is aimed at students and professors of Texas politics who

want to stress history, political culture, and public policy. New to the Fourth Edition Fully updated to include the most recent Texas elections and political events Covers the 2019 legislative session Highlights new population data, with projections forward to 2050, recently released by the U.S. Census and the Texas State Data Center. Explores the dramatic increases in Texas oil and gas production and their impact on global and U.S. prices and on the profitability and the viability of many Texas producers in light of the recent plunge in prices. All figures and tables include the most recent data available.

Cumulated Index Medicus Routledge

Phelps investigates the on-the-ground implementation of President Lyndon Johnson's War on Poverty during the 1960s and 1970s and argues that the fluid interaction between federal policies, urban politics, and grassroots activists created a significant site of conflict over the meaning of American democracy.

*Economic, Political and Legal Solutions to Critical Issues in Urban Education and Implications for Teacher Preparation* Gregory R. Miller

Between 1980 and 2005, 45 states were involved in lawsuits around equity of funding and adequacy of education provided to all students in the state. Indeed, this investigation could have included any cities in America, and the themes likely would have been the same: Lower funding and resources, disproportionate numbers of teachers and school leaders who do not look like the students they serve, debates over the public's responsibility to provide fair and equitable education for all students in the jurisdiction, implicit biases from the top to the bottom and a resegregation of schools in America. Integration for Black families was never about an idea that Black students were better off if they could be around White students, it was about the idea that Black students would be better off if they could have access to the same education that White students had — but residential segregation still enables de facto school segregation, when it isn't coded into policy. For the overwhelming majority of Black students, they're stuck in segregated, underperforming schools. Schools where the teachers are dedicated to the mission, but where the cities and districts and states have failed to uphold their basic responsibility to maintain the upkeep of the schools and provide enough desks for each child and current textbooks.
