 A successful Wall Street trader turned neuroscientist reveals how risk taking and stress transform our body chemistry  
 Before he became a world-class scientist, John Coates ran a derivatives trading desk in New York City. He used the expression "the hour between dog and wolf" to refer to the moment of Jekyll-and-Hyde transformation traders passed through when under pressure. They became cocky and irrationally risk-seeking when on a winning streak, tentative and risk-averse when cowering from losses. In a series of groundbreaking experiments, Coates identified a feedback loop between testosterone and success—one that can cloud men's judgment in high-pressure decision-making. Coates demonstrates how our bodies produce the fabled gut feelings we so often rely on, how stress in the workplace can impair our judgment and even damage our health, and how sports science can help us toughen our bodies against the ravages of stress. Revealing the biology behind bubbles and crashes, *The Hour Between Dog and Wolf* sheds new and surprising light on issues that affect us all.

Ever since Martin Banks and his fellow computer geeks discovered that reality is just a computer program to be happily hacked, they've been jaunting back and forth through time, posing as medieval wizards and having the epic adventures that other nerds can only dream of having. But even in their wildest fantasies, they never expected to end up at the mercy of the former apprentice whom they sent to prison for gross misuse of magic and all-around evil behavior. Who knew that the vengeful Todd would escape, then conjure a computer game packed with wolves, wenches, wastelands, and assorted harrowing hazards--and trap his hapless former friends inside it? Stripped of their magic powers, the would-be wizards must brave terrifying dangers, technical glitches, and one another's company if they want to see Medieval England--and their favorite sci-fi movies on VHS--ever again. Can our heroes survive this magical mystery torture? Or will it only lead them and their pointy hats into more peril?

The Hour Between Dog and Wolf Penguin  
 " 'A camera in the hand and ideas in the head' was the primary axiom of the young originators of Brazil's Cinema Novo. This movement of the 1960s and early 1970s overcame technical constraints and produced films on minimal budgets. In Allegories of Underdevelopment, Ismail Xavier examines a number of these films, arguing that they served to represent a nation undergoing a political and social transformation into modernity. Its best-known voice, filmmaker Glauber Rocha claimed that Cinema Novo was driven by an "aesthetics of hunger." This scarcity of means demanded new cinematic approaches that eventually gave rise to a legitimate and unique Third World cinema. Xavier stands in the vanguard of scholars presenting and interpreting these

revolutionary films - from the masterworks of Rocha to the groundbreaking experiments of Julio Bressane, Rogério Sganzerla, Andrea Tonacci and Arthur Omar - to an English-speaking audience. Focusing on each filmmaker's use of narrative allegories for the "conservative modernization" Brazil and other nations underwent in the 1960s and 1970s, Xavier asks questions relating to the connection between film and history. He examines the way Cinema Novo transformed Brazil's cultural memory and charts the controversial roles that Marginal Cinema and Tropicalism played in this process. Among the films he discusses are Black God, White Devil, Land in Anguish, Red Light Bandit, Macunaíma, Antônio das Mortes, The Angel Is Born, and Killed the Family and Went to the Movies." -- Book cover.

The Brighton to London line. The 7:44 am train. Cars packed with commuters. One woman occupies her time observing the people around her. Opposite, a girl puts on her make-up. Across the aisle, a husband strokes his wife's hand. Further along, another woman flicks through a glossy magazine. Then, abruptly, everything changes: a man collapses, the train is stopped, and an ambulance is called. For at least three passengers on the 7:44 on that particular morning, life will never be the same again. There's Lou, in an adjacent seat, who witnesses events first hand. Anna, who's sitting further up the train, impatient to get to work. And Karen, the man's wife. Telling the story of the week following that fateful train journey, One Moment, One Morning is a stunning novel about love and loss, about family and - above all- friendship. A stark reminder that, sometimes, one moment is all it takes to shatter everything. Yet it also reminds us that somehow, despite it all, life can and does go on.
