*Character Animation Fundamentals* Taylor & Francis

Ray Lilly is living on borrowed time. He's the driver for Annalise Powliss, a high-ranking member of the Twenty Palace Society, a group of sorcerers devoted to hunting down and executing rogue magicians. But because Ray betrayed her once, Annalise is looking for an excuse to kill him—or let someone else do the job. Unfortunately for both of them, Annalise's next mission goes wrong, leaving her critically injured. With the little magic he controls, Ray must complete her assignment alone. Not only does he have to stop a sorcerer who's sacrificing dozens of innocent lives in exchange for supernatural power, he must find—and destroy—the source of that inhuman magic.

BONUS: This edition contains excerpts from Harry Connolly's Game of Cages and Twenty Palaces.

**An Introduction to Chemical Engineering Design** CRC Press

This book provides readers with the most current, accurate, and practical fluid mechanics related

applications that the practicing BS level engineer needs today in the chemical and related industries, in addition to a fundamental understanding of these applications based upon sound fundamental basic scientific principles. The emphasis remains on problem solving, and the new edition includes many more examples.

**Chemical Engineering** Elsevier

An introduction to the art and practice of design as applied to chemical processes and equipment. It is intended primarily as a text for chemical engineering students undertaking the design projects that are set as part of undergraduate courses in chemical engineering in the UK and USA. It has been written to complement the treatment of chemical engineering fundamentals given in Chemical Engineering volumes 1, 2 and 3. Examples are given in each chapter to illustrate the design methods presented.
