Want to deliver a pitch or presentation that grabs your audience's ever-shrinking attention span? Ditch the

colorful slides and catchy language. And follow one simple rule: Convey only what needs to be said, clearly and concisely, in three minutes or less. That's the 3-Minute Rule. Hollywood producer and pitch master Brant Pinvidic has sold more than three hundred TV shows and movies, run a TV network, and helmed one of the largest production companies in the world with smash hits like *The Biggest Loser* and *Bar Rescue*. In his nearly twenty years of experience, he's developed a simple, straightforward system that's helped hundreds—from Fortune 100 CEOs to PTA presidents—use top-level Hollywood storytelling techniques to simplify their

messages and say less to get more. Pinvidic proves that anyone can deliver a great pitch, for any idea, in any situation, so your audience not only remembers your message but can pass it on to their friends and colleagues. You'll see how his methods work in a wide range of situations—from presenting investment opportunities in a biotech startup to pitching sponsorship deals for major sports stadiums, and more. Now it's your turn. The 3-Minute Rule will equip you with an easy, foolproof method to boil down any idea to its essential elements and structure it for maximum impact. Simplify. Say less. Get More.

The Rule of All Penguin

'A fun, interesting, and useful read!'

David Allen, bestselling author of Getting

Things Done Nearly all of us want to be more productive, but finding the method that works for you among the hundreds and hundreds of different tips, tricks and hacks can be a daunting prospect. After graduating college, Chris Bailey decided to dedicate a whole year to doing just that - experimenting with as many of the techniques as he could, and finding the things that work. Among the experiments that he undertook are: going several weeks on little to no sleep; cutting out caffeine and sugar; taking a daily siesta; living in total isolation for 10 days; stretching his workweek to 90 hours; and getting up at 5:30 every morning, all the while monitoring the impact of his experiments on the quality and quantity of his work. The results were often surprising! This book is the

result of Chris's year-long journey, distilling the lessons he learned into a few core truths about how we get things done (or, indeed, don't). Among the many counterintuitive insights Chris discovered that had the biggest impact on his productivity were striving for imperfection; scheduling less time for important tasks; the 20 second rule to distract yourself from distractions; and the concept of productive procrastination. In this accessible and fun guide, Chris Bailey offers over 30 tried-and-tested best practices that will help everyone to accomplish more - and become more awesome.

[Conscious Dating](#) Chronicle Books  
"This country's leading hell-raiser" (The Nation) shares his impassioned counsel to young radicals on how to effect

constructive social change and know "the difference between being a realistic radical and being a rhetorical one." First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

**Fight for Power** Penguin

Download the first five chapters of *The Rule of Three*, the first book in a thrilling adventure series by Eric Walters! One shocking afternoon, computers around the globe shut down in a viral catastrophe. At sixteen-year-old Adam Daley's high school, the problem first seems to be a typical electrical outage, until students discover that cell phones are down, municipal utilities are failing, and a few computer-free cars like Adam's are the only vehicles that function. Driving home, Adam encounters a storm tide of anger and fear as the region becomes paralyzed. Soon—as resources dwindle, crises mount, and chaos descends—he will see his suburban neighborhood band together for protection. And Adam will understand that having a police captain

for a mother and a retired government spy living next door are not just the facts of his life but the keys to his survival.

**Words of Radiance** PublicAffairs

6 has a problem. Everyone knows that 7 is always after him. Word on the street is that 7 ate 9. If that's true, 6's days are numbered. Lucky for him, Private I is on the case. But the facts just don't add up. It's odd. Will Private I put two and two together and solve the problem . . . or is 6 next in line to be subtracted?

**The Rule of Three** Skyscape

Bark! Meow!

**The Rule of Threes** Hachette UK  
OVER TEN MILLION COPIES SOLD #1  
INTERNATIONAL BESTSELLER What are  
the most valuable things that everyone  
should know? Acclaimed clinical  
psychologist Jordan B Peterson has  
influenced the modern understanding of  
personality, and now he has become one  
of the world's most popular public  
thinkers, with his lectures on topics from  
the Bible to romantic relationships to  
mythology drawing tens of millions of  
viewers. In an era of unprecedented  
change and polarizing politics, his frank  
and refreshing message about the value  
of individual responsibility and ancient  
wisdom has resonated around the world.  
In this book, he provides twelve

profound and practical principles for how  
to live a meaningful life, from setting  
your house in order before criticising  
others to comparing yourself to who you  
were yesterday, not someone else today.  
Happiness is a pointless goal, he shows  
us. Instead we must search for meaning,  
not for its own sake, but as a defence  
against the suffering that is intrinsic to  
our existence. Drawing on vivid  
examples from the author's clinical  
practice and personal life, cutting-edge  
psychology and philosophy, and lessons  
from humanity's oldest myths and  
stories, *12 Rules for Life* offers a deeply  
rewarding antidote to the chaos in our  
lives: eternal truths applied to our  
modern problems.

 We want to be happy in relationships, but don't know how. The old way of dating and mating simply doesn't work anymore. The rules have changed and most of us don't know what the new rules are. In searching for love, most singles are using trial and error, flying by the seat of their pants, or following bad advice. Conscious Dating does not offer manipulative or deceptive practices that compromise who you are, in fact it helps singles celebrate who they are and see being single as an opportunity and not a disease. This is not just another dating book filled with tired ideas about how to get a man or woman. Conscious Dating provides relationship information and

strategies proven and tested with thousands of singles worldwide from a pioneering leader in the field of relationships.

Tor Books

After sixty-six days of a catastrophic global blackout, life in the suburbs is not what it used to be for Adam and his fortified neighborhood of Eden Mills. Although an explosive clash has minimized one threat from outside the walls, Adam's battle-hardened mentor, Herb, continues to make decisions in the name of security that are increasingly wrenching and questionable. Like his police chief mom and others, Adam will follow Herb's lead. But when the next threat comes from an unexpected direction, nobody is ready for it. And someone is going to pay the

price—because of Adam's mistakes and mistaken trust.

The Rule of Three: Fight for Power

Candlewick Press

From #1 New York Times bestselling author Brandon Sanderson, *Words of Radiance*, Book Two of the Stormlight Archive, continues the immersive fantasy epic that *The Way of Kings* began. Expected by his enemies to die the miserable death of a military slave, Kaladin survived to be given command of the royal bodyguards, a controversial first for a low-status "darkeyes." Now he must protect the king and Dalinar from every common peril as well as the distinctly uncommon threat of the Assassin, all while secretly struggling to master remarkable new powers that are somehow linked to his honorspren, Syl.

The Assassin, Szeth, is active again, murdering rulers all over the world of Roshar, using his baffling powers to thwart every bodyguard and elude all pursuers. Among his prime targets is Highprince Dalinar, widely considered the power behind the Alethi throne. His leading role in the war would seem reason enough, but the Assassin's master has much deeper motives. Brilliant but troubled Shallan strives along a parallel path. Despite being broken in ways she refuses to acknowledge, she bears a terrible burden: to somehow prevent the return of the legendary Voidbringers and the civilization-ending Desolation that will follow. The secrets she needs can be found at the Shattered Plains, but just arriving there proves more difficult than

she could have imagined. Meanwhile, at the heart of the Shattered Plains, the Parshendi are making an epochal decision. Hard pressed by years of Alethi attacks, their numbers ever shrinking, they are convinced by their war leader, Eshonai, to risk everything on a desperate gamble with the very supernatural forces they once fled. The possible consequences for Parshendi and humans alike, indeed, for Roshar itself, are as dangerous as they are incalculable. **The Rule of One** Samuel French, Incorporated

In our increasingly digital, mobile, and global world, the existing theories of business and economics have lost much of their appeal with the phenomenal rise of Chindia, the reality of Brexit, the turmoil caused by the Covid-19 pandemic, and the seismic shifting of the global center of gravity from west to east. In the area of innovation, the traditional thinking that a developed country, often the US, will come up with the next major innovation, launch at home first, and then take it to other

markets does not ring true anymore. Similarly, the world where conglomerates go bargain-hunting for acquisitions in emerging markets has been turned upside-down. This book reveals and illustrates the Global Rule of Three phenomenon, which stipulates that in competitive markets only three companies (which the authors call "generalists") can dominate the market. All other players in the market are specialists. Further, whereas the financial performance of generalists improves as market share increases, specialist companies see a decrease in financial performance as their market share increases, as the latter are margin-driven companies. This theory powerfully captures the evolution of global markets and what executives

must do to succeed. It is based on empirical analyses of hundreds of markets and industries in the US and globally. Competitive markets evolve in a predictable fashion across industries and geographies, where every industry goes through a similar lifecycle from beginning to end (or revitalization). From local to regional to national markets, the last stop in the evolution of markets is going global. The pattern is so consistent that it represents a distinct and natural market structure at every level. The authors offer strategies that generalists and specialist should follow to stay competitive as well as twelve expansion strategies for global companies from emerging markets. This book chronicles this global evolution and provides impactful managerial implications for

executives and students of marketing and corporate strategy alike.

The 3-Minute Rule Kelly Jamieison Rule of Three is a collection of the three short plays "Afternoon At The Seaside, The Rats, " and "The Patient."

*The Rats* Henry Holt and Company (BYR) Adulterous lovers, Sandra and David are called to the Torrances' flat for evening drinks. However, no one is home. What first appears to be a simple mix up of dates turns to something far more sinister when the pair are locked in and, all at once, framed for murder.

**The Rule of Three** Farrar, Straus and Giroux (BYR)

Can anything or anyone stop the evil? Lost. Trapped. Chased by monsters and sent on a crazy mission. Not exactly what Jack Gee had in mind when he used

to daydream about the apocalypse. Seven months after the Hemorrhage Virus swept across the world Jack, his wife Dee, friend Boss and the Renegades, a ragtag collection of civilian and military personnel, have been sent on two missions. Jack likes the first. Recon. The second is insane. Re-enter the laboratory they barely escaped from a few months back and retrieve a logbook, a logbook that could provide the cure to end the madness. Through the chaos, old friendships are tested and new alliances are formed, but new and dangerous enemies emerge in the fight for the future of New Zealand.

**Three Hearts** Penguin

From the #1 New York Times-best-selling author of *The 48 Laws of Power* comes the definitive new book on decoding the

behavior of the people around you Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and

master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defense.

*The Rule of Three* Penguin

Now in paperback, the final book in Eric Walters' explosive *Rule of Three* trilogy! After the shocking personal attack on Herb and Adam, the citizens of the fortified neighborhood of Eden Mills are

realizing their worst fears: while the power remains off, desperation will grow, leading to more violence. And now it's personal. The rogue militaristic group they had hoped to have vanquished is not only back, but has a new leader, one who is seeking revenge on the neighborhood--especially on Adam. In preparation for an attack they know is coming, the committee members make new alliances and grow in strength, but Adam knows it's up to him to dig deep within himself, to think like the enemy--to become the enemy--in order to save his family, his neighborhood, and himself.
