* Analyzes the art of Frida Kahlo and incorporates the most up-to-date research available on the work of the artist* Published to accompany an exhibition at the MUDEC in Milan, from February to June 2018Frida Kahlo, a truly extraordinary woman who captured the public's imagination with her iconic look, troubled life and exotic air, is first and foremost a great painter. This exhibition and accompanying catalogue aim to free her work from the haze of myth and the frustrating limits of private life in order to grant her the position she deserves within the history of art. Oil paintings, drawings, watercolors, letters and photographs explore the complex historical and cultural context of Kahlo's work, examining its explicit realism as well as its disturbing ambiguity, its dramatic content as well as its irony, and not least, the exuberant sensuality of her still lifes. Organized by theme in several large chapters, the catalogue analyses the art of Frida Kahlo, revealing its uncompromising political nature, audacious use of the body, macabre, violent aesthetic, and symbolic and symbiotic interaction with the natural environment of Mexico in the early 1900s. The catalogue represents the most up-to-date text available on the work of one of the most celebrated and beloved artists of all time.

Cross the Streets is a multimedia exhibition that celebrates 40 years of the evolution of street art in Rome. No other city has such an untouched history and so it is fitting that Rome begins its cultural regeneration from its streets and its past. Creative inspiration has always been driven by instinct and these fleeting moments are preserved as etchings on everything from caves to catacombs, from Pasquino to propaganda murals. Rome remains one of the most important cities driving this movement and therefore it is right to celebrate it at the Museum of Contemporary Art of Rome (MACRO).

How socialist architects and planners worked collectively to urbanize and develop the global South during the Soviet era In the course of the Cold War, architects, planners, and contractors from socialist Eastern Europe engaged in a vibrant collaboration with those in West Africa and the Middle East in order to bring modernization to the developing world. Architecture in Global Socialism shows how their collaboration reshaped five cities in the global South: Accra, Lagos, Baghdad, Abu Dhabi, and Kuwait City. Łukasz Stanek describes how local authorities and professionals in these cities drew on Soviet prefabrication systems, Hungarian and Polish planning methods, Yugoslav and Bulgarian construction materials, Romanian and East German standard designs, and manual laborers from across Eastern Europe. He explores how the socialist development path was adapted to tropical conditions in Ghana in the 1960s, and how East European architectural traditions were given new life in 1970s Nigeria. He looks at how the differences between socialist foreign trade and the emerging global construction market were exploited in the Middle East in the closing decades of the Cold War. Stanek demonstrates how these and other practices of global cooperation by socialist countries—what he calls socialist worldmaking—left their enduring mark on urban landscapes in the postcolonial world. Featuring an extensive collection of previously unpublished images, Architecture in Global Socialism draws on original archival research in sixteen countries and a wealth of in-depth interviews. This incisive book presents a new understanding of global urbanization and its architecture through the lens of socialist internationalism, challenging long-held notions about modernization and development in the global South.

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

With his acclaimed bestsellers, Hostage and Demolition Angel, Robert Crais drew raves for his unstoppable pacing, edgy characterizations, and cinematic prose. Now, Crais returns to his signature character, Los Angeles private investigator Elvis Cole, in a masterful page-turner that probes the meaning of family and the burdens of the past. Elvis Cole is back... Elvis Cole's relationship with attorney Lucy Chenier is strained. When she moved from Louisiana to join Elvis in Los Angeles, she never dreamed that violence would so easily touch her life—but then the unthinkable happens. While

Lucy is away on business and her ten-year-old son, Ben, is staying with Elvis, Ben disappears without a trace. Desperate to believe that the boy has run away, evidence soon mounts to suggest a much darker scenario. Joining forces with his enigmatic partner, Joe Pike, Elvis frantically searches for Ben with the help of LAPD Detective Carol Starkey, as Lucy's wealthy, oil-industry ex-husband attempts to wrest control of the investigation. Amid the maelstrom of personal conflicts, Elvis and Joe are forced to consider a more troubling lead—one indicating that Ben's disappearance is connected to a terrible, long-held secret from Elvis Cole's past. Venturing deep inside a complex psyche, Crais explores Elvis's need for family—the military that embraced him during a troubled adolescence, his rock-solid partnership with Pike, and his floundering relationship with Lucy—as they race the clock in their search for Ben. The Last Detective is Robert Crais' richest, most intense tale of suspense yet.
