The Classic Fairy Tales W. W. Norton
 Perrault's fairy tales in a scintillating new translation, including the less familiar verse tales and with illustrations by Gustave Doré. The introduction explores the imaginative power of the stories and the many interpretations to which they have been subject.

Fairy Tales Bloomsbury Publishing USA
 Today's parents are increasingly replacing nursery rhymes with the latest pop songs, and fairy tales - now thought too scary for little ones - with cute stories about farmyard animals and talking trains. Until recently, weird tales of fairy curses and flesh-eating ogres were considered suitable bedtime reading. And the strange-

sounding and sometimes violent rhymes we learned by rote were often taught to us in school. But have you ever asked yourself what on earth they were about? And what exactly were the morals and lessons we were meant to learn from them? Here Comes a Chopper to Chop Off Your Head delves into the origins of the best-known rhymes and tales to uncover a legacy of folk superstition, rotten royal families, execution, child marriage, cannibalism, and the multitude of other random acts of cruelty that make up any classic treasury. You'll learn about the bloody history of Mary, Mary, Quite Contrary; why Margery Daw, the subject of an innocent-seeming seesaw game, was accused of being a 'dirty slut'; and how pretending to decapitate your little friends to the tune of Oranges and Lemons became an acceptable pastime. You'll also find out about the terrifying events that

befell the first Sleeping Beauty when she finally woke up; how Snow White's stepmother really died; and just who the wolf was in Little Red Riding Hood. **Once Upon an If** Penguin Classics From a lost city in the desert to a cave alight with thousands of glowworms, learn about some of the most unusual places on earth and the myths, legends, and history behind each of them! Looking at places like The Skeleton Coast in Namibia, Wizard Island in the United States, and The Fairy Tale Route in Germany, The Dark Hedges and Other Magical Places that Really Exist takes young readers on a journey around the world to real places that sound straight out of fantasy. Featuring both natural and man-made wonders, this travel book combines history and storytelling to explore the far reaches of the earth.

Gris Grimly's Tales from the Brothers

Grimm W. W. Norton & Company
Cinderella's transformation from a lowly, overlooked servant into a princess who attracts everyone's gaze has become a powerful trope within many cultures. Inspired by the Cinderella archive of books and collectables at the University of Bedfordshire, the essays in this collection demonstrate how the story remains active in various different societies where social and family relationships are adapting to modern culture. The volume explores the social arenas of dating apps and prom nights, as well as contemporary issues about women's roles in the home, and gender identity. Cinderella's cultural translation is seen through the contributors' international perspectives: from Irish folklore to the Colombian *Cenicienta costeña* (Cinderella of the coast) and Spanish literary history. Its transdisciplinarity ranges from fashion in Charles Perrault and the Brothers Grimm's publications to a comparison of Cinderella and Galatea on film, and essays on British authors Nancy Spain, Anne Thackeray Ritchie and Frances Hodgson Burnett.

Turtleback Books
While most scholars who study children's books are pre-occupied with the child characters and adult mediators, Vanessa Joosen re-positions the lens to focus on the under-explored construction of adulthood in children's literature. Adulthood in Children's Literature demonstrates how books for young readers evoke adulthood as a stage in life, enacted by adult characters, and in relationship with the construction of childhood. Employing age studies as a framework for analysis, this book covers a range of English and Dutch children's books published from 1970 to the present. Calling upon critical voices like Elisabeth Young-Bruehl, Margaret Morganroth Gullette, Peter Hollindale, Maria Nikolajeva and Lorraine Green, and the works of such authors as Babette Cole, Philip Pullman, Ted van Lieshout, Jacqueline Wilson, Salman Rushdie and Guus Kuijer, Joosen offers a fresh perspective on children's literature by focusing not on the child but the adult.
[The Fairy Tale World](#) Penguin
When Jacob and Wilhelm Grimm published their Children's and Household Tales in 1812, followed by a second volume in 1815, they had no idea that such stories as "Rapunzel," "Hansel and Gretel," and "Cinderella" would become the most celebrated in the world. Yet few people today are familiar with the majority of tales from the two early volumes, since in the next four decades the Grimms would publish six other editions, each extensively revised in content and style. For the very first time, *The Original Folk and Fairy Tales of the Brothers Grimm* makes available in English all 156 stories from the 1812 and 1815 editions. These narrative gems, newly translated and brought together in one beautiful book, are accompanied by sumptuous new illustrations from award-winning artist Andrea Dezsö. From "The Frog King" to "The Golden Key," wondrous worlds unfold—heroes and heroines are rewarded, weaker animals triumph over the strong, and simple bumpkins prove themselves not so simple after all. Esteemed fairy tale scholar Jack Zipes offers accessible translations that retain the spare description and engaging storytelling style of the originals. Indeed, this is what makes the tales from the 1812 and 1815 editions unique—they reflect

diverse voices, rooted in oral traditions, that are absent from the Grimms' later, more embellished collections of tales. Zipes's introduction gives important historical context, and the book includes the Grimms' prefaces and notes. A delight to read, *The Original Folk and Fairy Tales of the Brothers Grimm* presents these peerless stories to a whole new generation of readers.

Contemporary Fairy-Tale Magic

Routledge

Part of a special set of 10 hardcover classics, designed by Coralie Bickford-Smith, that innovatively use foil and a special new binding material to create a highly collectible set. Stepmothers, dark forests, strange beasts, broken promises, sinister brides, castle turrets, princes on horseback, magic lamps, industrious dwarves and a frog king. Collected and adapted from German folk tales, these imperishable stories can be read over and over again.

[147 Traditional Stories for Primary School Children to Retell](#). Rowman & Littlefield
Stories from oral traditions from a variety of historical, cultural and geographical sources, arranged by year group, fully indexed with an introduction explaining how to use the Collection.

[The Fairy Tale and Folklore Roots of the Popular TV Show Jiahu](#) Books

The Brothers Grimm's fairy tales are brought to life for a new generation of readers in their original, uncut form by the modern master of gothic horror, Gris Grimly. Grimm. The name alone is enough to call to mind any number of the timeless fairy tales collected by brothers Jacob and Wilhelm in the early nineteenth century. These folktales have been told and retold in many forms for over two centuries, and while the particular mix of fantasy, adventure, and wonder that defined their seven-volume collection has endured, the terror, violence, and darkness of the original stories has often been lost in translation. Enter Gris Grimly, who has faithfully reproduced the original text of a selection of tales and adorned them with his own inimitable artwork. The result is a Grimm collection unlike any other, set in a world that is whimsically sinister, darkly vivid, and completely unforgettable.

They collected the oral folktales of their time, which are slightly dark in origin, different from the fairy tales you are used to hearing. In this book, there are timeless classics such as: Little Red-Cap (Little Red Riding Hood) Briar Rose (Sleeping Beauty) Beauty and the Beast Hansel and Gretel Rumpelstiltskin Snow White Tom Thumb Cinderella Rapunzel and 55

others...Collected here are 64 of the most popular stories by the Brothers Grimm with 55 black-and-white illustrations and photos, and a free online link to 62 audio files. The Fairy Tales of the Brothers Grimm Young fashionista Milly is excited to compete in a design contest, so when a strange custodian appears with an offer to help she accepts, but is wary of the catch: she must guess the mysterious person's favorite thing to wear or give up the first-place prize.

Grimms' Fairy Tales BRILL

The Fairy Tale World is a definitive volume on this ever-evolving field. The book draws on recent critical attention, contesting romantic ideas about timeless tales of good and evil, and arguing that fairy tales are culturally astute narratives that reflect the historical and material circumstances of the societies in which they are produced. The Fairy Tale World takes a uniquely global perspective and broadens the international, cultural, and critical scope of fairy-tale studies. Throughout the five parts, the volume challenges the previously Eurocentric focus of fairy-tale studies, with contributors looking at: • the contrast between traditional, canonical fairy tales and more modern reinterpretations; • responses to the fairy tale around the world, including works from every continent; • applications of the fairy tale in diverse media, from oral tradition to the commercialized films of Hollywood and Bollywood; • debates concerning the global and local ownership of fairy tales, and the impact the digital age and an exponentially globalized world have on traditional narratives; • the fairy tale as told through art, dance, theatre, fan fiction, and film. This volume brings together a selection of the most respected voices in the field, offering ground-breaking analysis of the fairy tale in relation to ethnicity, colonialism, feminism, disability, sexuality, the environment, and class. An indispensable resource for students and scholars alike, The Fairy Tale World seeks to discover how such a traditional area of literature

has remained so enduringly relevant in the modern world.

[Adulthood in Children's Literature](#) Running Press Kids

A Jungian psychologist explains how careful analyses of fairy tales like "Beauty and the Beast" can lead to a better understanding of human psychology Of the various types of mythological literature, fairy tales are the simplest and purest expressions of the collective unconscious and thus offer the clearest understanding of the basic patterns of the human psyche. Every people or nation has its own way of experiencing this psychic reality, and so a study of the world's fairy tales yields a wealth of insights into the archetypal experiences of humankind. Perhaps the foremost authority on the psychological interpretation of fairy tales is Marie-Louise von Franz. In this book—originally published as *An Introduction to the Interpretation of Fairy Tales*—she describes the steps involved in analyzing and illustrates them with a variety of European tales, from "Beauty and the Beast" to "The Robber Bridegroom." Dr. von Franz begins with a history of the study of fairy tales and the various theories of interpretation. By way of illustration she presents a detailed examination of a simple Grimm's tale, "The Three Feathers," followed by a comprehensive discussion of motifs related to Jung's concept of the shadow, the anima, and the animus. This revised edition has been corrected and updated by the author.
