LESTER CAREY

The Cat in the Hat. Penguin
 The first of his peerless novels of Cold War espionage and international intrigue, Call for the Dead is also the debut of John le Carré's masterful creation George Smiley. "Go back to Whitehall and look for more spies on your drawing boards." George Smiley is no one's idea of a spy—which is perhaps why he's such a natural. But Smiley apparently made a mistake. After a routine security interview, he concluded that the affable Samuel Fennan had nothing to hide. Why, then, did the man from the Foreign Office shoot himself in the head only hours later? Or did he? The heart-stopping tale of intrigue that launched both novelist and spy, Call for the Dead is an essential introduction to le Carré's chillingly amoral universe.

The Catcher in the Rye Sterling Publishing Company, Inc.

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Nicholas Allen has plenty of ideas. Who can forget the time he turned the classroom into a tropical island, or the times he has fooled the teacher by chirping like a blackbird? But now it looks like his days as a troublemaker are over. Now Nick is in Mrs

Granger's class - she who has X-ray vision - and everyone knows that nobody gets away with anything in her classroom. To make matters worse, Mrs Granger is also fanatical about the dictionary - which Nick thinks is so boring. But then inspiration strikes and Nicholas invents his greatest plan yet: to create a new word. From now on, a pen is no longer a pen - it's a frindle. It doesn't take long to catch on and soon the excitement has spread well beyond the school and town . . . but frindle doesn't belong to Nick anymore, it has a life of it's own, and all Nick can do now, is sit back and watch what happens.
