One Company's Audacious Plan to Organize Everything We Know Lexington Books
 FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

About The Book: The Engineering Chemistry course for undergraduate students is designed to strengthen the fundamentals of chemistry and then build an interface of theoretical concepts with their industrial/engineering applications. This book is structured keeping in view the objective of the course and is intended as a textbook for first year B.Tech/B.E. students of all engineering disciplines. The book aims to impart in-depth knowledge of the subject and highlight the role of chemistry in the field of engineering. The lucid explanation of the topics will

help students understand the fundamental concepts and apply them to design engineering materials and solve problems related to them. An attempt has been made to logically correlate the topic with its application. The extension of fundamentals of electrochemistry to energy storage devices such as commercial batteries and fuel cells is one such example. The layout for a topic is designed after detailed study and analysis of the syllabi of various technical universities. The chapter for each topic begins with clearly defined learning objectives, followed by introduction of subtopics, their precise and adequate explanation supported with ample illustrations and diagrams. Solved examples are given at the end of relevant subtopics to strengthen the concepts. The chapters conclude with a set of review and practice questions.

The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated.The Islamic InvasionAs Mosques appear across the country people are asking-"What do I need to Know about Islam?"Islam-once an obscure Middle Eastern religion-has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States!What attraction does Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people?Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam- explores the pre-Islamic history of Allah, and the doctrines and customs of Islam reveals Islam's teaching about current issues such as religious freedom and the role of womenThe Islamic Invasion will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith.Special thanks to Professor Colin Akridge-who is a Vietnam Veteran and black scholar in the field of comparative religions-for his valuable and insightful contributions and working with him for researching and writing the section entitled The Black Muslim Movement in America. "The fullest account yet of the rise of one of the most profitable, most powerful, and oddest businesses the world has ever seen." -San Francisco Chronicle Just eleven years old, Google has profoundly transformed the way we live and work-we've all been Googled. Esteemed media writer Ken Auletta uses the story of Google's rise to explore the future of media at large. This book is based on the most extensive cooperation ever granted a journalist, including access to closed-door meetings and interviews with industry legends, including Google founders Larry Page and Sergey Brin, Marc Andreessen, and media guru "Coach" Bill Campbell. Auletta's unmatched analysis, vivid details, and rich anecdotes illuminate how the Google wave grew, how it threatens to drown media institutions, and where it's taking us next.

In this student-friendly text, Jones and Singh explore the phenomenon of language change, with a particular focus on the social contexts of its occurrence and possible motivations, including speakers' intentions and attitudes. Presenting new or little-known data, the authors draw a distinction between "unconscious" and "deliberate" change. The discussion on "unconscious" change considers phenomena such as the emergence and obsolescence of individual languages, whilst the sections on "deliberate" change focus on issues of language planning, including the strategies of language revival and revitalization movements. There is also a detailed exploration of what is arguably the most extreme instance of "deliberate" change; language invention for real-world use. Examining an extensive range of language situations, Exploring Language Change makes a clear, but often ignored distinction between concepts such as language policy and planning, and language revival and revitalization. Also featured are a number of case studies which demonstrate that real-life language use is often much more complex than theoretical abstractions might suggest. This is a key text for students on a variety of courses, including sociolinguistics, historical linguistics and language policy and planning.

The Ecology of Papua provides a comprehensive review of current scientific knowledge on all aspects of the natural history of western (Indonesian) New Guinea. Designed for students of conservation, environmental workers, and academic researchers, it is a richly detailed text, dense with biogeographical data, historical reference, and fresh insight on this complicated and marvelous region. We hope it will serve to raise awareness of Papua on a global as well as local scale, and to catalyze effective conservation of its most precious natural assets. New Guinea is the largest and highest tropical island, and one of the last great wilderness areas remaining on Earth. Papua, the western half of New Guinea, is noteworthy for its equatorial glaciers, its vast forested floodplains, its imposing central mountain range, its Raja Ampat Archipelago, and its several hundred traditional forest-dwelling societies. One of the wildest places left in the world, Papua possesses extraordinary biological and cultural diversity. Today, Papua's environment is under threat from growing outside pressures to exploit its expansive forests and to develop large plantations of oil palm and biofuels. It is important that Papua's leadership balance economic development with good resource management, to ensure the long-term well-being of its culturally diverse populace.

Buku ini merupakan kumpulan 160 esai pendek Goenawan Mohamad yang pernah dimuat majalah Tempo dari Januari 1986 sampai Februari 1990. Diawali dengan esai berjudul "Ding" (4 Januari 1986) sampai yang terakhir "Asongan" (24 Februari 1990). Esai-esai yang dikenal sebagai Catatan Pinggir itu berbicara beragam hal, bahkan hampir semua hal yang dekat dengan peristiwa di masyarakat dalam kurun waktu empat tahun itu: tentang kecemasan, kebebasan, kekuasaan, kemerdekaan, keserakahan, kebahagiaan, demokrasi. Mengenai topik yang disebut terakhir, William Liddle, dalam Kata Pengantar untuk buku ini, mengatakan kiranya jelas bahwa Goenawan sangat menyakini demokrasi sebagai jenis pemerintahan yang terbaik bagi negara kebangsaan Dunia Ketiga seperti Indonesia. Tetapi dia tidak berpretensi seolah-olah demokrasi dengan sendirinya mampu menyelesaikan segala persoalan.... Goenawan Mohamad, kata Liddle, adalah burung langka dalam sangkar intelektual modern Indonesia. Dia menolak tegas pengkotakan Timur-Barat. Dalam sejumlah Catatan Pinggir ini, kata Liddle, dikotomi Timur-Barat beberapa kali ditampilkan Goenawan.

Non-literal language is ubiquitous in everyday life, and while hyperbole is a major part of this, it has so far remained relatively unexplored. This volume provides the first investigation of hyperbole in English, drawing on data from genres such as spoken conversation, TV, newspapers, and literary works from Chaucer to Monty Python. Combining quantitative and qualitative analyses, it uses approaches from semantics, pragmatics, discourse analysis and classical rhetoric to investigate in detail both speaker-centered and emotive aspects of hyperbole, and also addressee-related aspects, such as interpretation and interactional uptake. Illustrated with a range of diachronic case studies, hyperbole is also shown to be a main means of linguistic creativity, and an important contributor to language change. The book concludes with an exploration of the role of hyperbole in political speaking, humour, and literature. Original and in-depth, it will be invaluable to all those working on meaning, discourse, and historical linguistics.

In this fascinating study the lives and mores of women in one of the least understood but most densely populated areas of the world are unveiled through the eyes of generations of court poets. For more than a millennium, the poets of the Indic courts of Java and Bali composed epic kakawin poems in which they recreated the court environment where they and their royal patrons lived. Major themes in this poetry form include war, love, and marriage. It is a rich source for the cultural and social history of Indonesia. Still being produced in Bali today, kakawin remain of interest and relevance to Balinese cultural and religious identities. This book draws on the epic kakawin poetry tradition to examine the institutions of courtship and marriage in the Indic courts. Its primary purpose is to explore the experiences of women belonging to the kakawin world, although the texts by nature reveal more about the discourses concerning women, sexuality, and gender than of the historical experiences of individual women. For over a thousand years these royal courts were major patrons of the arts. The court-sponsored epic works that have survived provide an ongoing literary testimony to the cultural and social concerns of court society from its earliest recorded history until its demise at the end of the nineteenth century. This study examines the idealized images of women and sexuality that have pervaded Javanese and Balinese culture and provides insights into a number of cultural practices such as sati or bela (self-immolation of widows).

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A.
