vegetables and fruits by sun drying

2.3.1 Vegetables

- Chop or slice your green leafy vegetables and place them in hot water for 2 to 5 minutes – this helps them to keep their green colour when dried.
- Remove and drain.

Preserving green leafy vegetables and fruits

7 Ways to Preserve Your Summer Fruits and Veggies for Winter Drying.

Drying fruits and vegetables requires removing the water content. As bacteria needs water to survive, the drying... Canning. The term “canning” is a little misleading. If you’re canning at home, you’re probably using mason jars ...

7 Ways to Preserve Your Summer Fruits and Veggies for ...

Freezing Fruits & Vegetables.

Freezing is a simple and fast method of home food preservation that maintains the natural color, flesh flavor and nutrient value of most fruits and vegetables. However, the quality of each frozen product is affected by the following: the freshness of the product used; the methods of preparation; the packaging

Freezing Fruits & Vegetables

High-acid foods include most fruits and fruit products. In addition, low acid vegetables can be canned using tested recipes for pickles, relish, and tomato products, which contain added acid, usually vinegar. Pressure canning low-acid foods such as plain vegetables requires a pressure canner. A pressure canner reaches 240°F, which destroys heat-resistant organisms that can cause food poisoning, primarily botulism.

Best food preservation methods for fresh vegetables - The ...

Some fruits and vegetables suitable for drying include apples, pears, peaches, plums, apricots, bananas, cantaloupe, strawberries, blueberries, carrots, celery, corn, green beans, potatoes, and tomatoes. Fruits can also be dried as fruit leathers and rolls. Meat can be dried as jerky (see “ Let's Preserve: Meat and Poultry ”).

Let's Preserve: Drying Fruits and Vegetables (Dehydration)

Fruits and vegetables are an important supplement to the human diet as they provide the essential minerals, vitamins and fiber required for maintaining health. Fruits and vegetables account for nearly 90% of the total horticulture production in the country.
