History of Accounting, Management, Business and Economics, Volume I John Wiley & Sons

As a result of the global convergence of financial reporting standards, U.S. GAAP is changing profoundly. U.S. GAAP is also being abandoned by many public and private companies, and will eventually be replaced by a higher-quality set of global standards. The Convergence Guidebook for Corporate Financial Reporting provides the timely, practical guidance that CFOs, controllers, and other financial managers need in order to prepare for the impact of Convergence on their companies, departments, and careers. Guidebook readers will also learn why they must begin preparing for "the next big challenge in corporate financial reporting" now.

Tax Reporting on Effective Tax Rate (IAS 12) Stämpfli Verlag In 2008, the Emerg. Econ. Stabilization Act was signed into law. It mandates a study on mark-to-market accounting standards as provided by Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measure. (SFAS 157). SFAS 157 does not itself require mark-to-market or fair value (FV) accounting. Rather, other accounting standards require what is more broadly known as FV, of which mark-to-market accounting is a subset. SFAS 157 defines FV, estab. a framework for measuring FV in generally accepted accounting principles, and requires expanded disclosures about FV measurements. This report considered the issue of FV accounting, incl. both mark-to-market accounting and SFAS 157.

Under IFRS, U.S. GAAP, and the SEC rules and regulations, business enterprises must recognise measure and disclose information regarding equity items on the face of the statement of financial position, other specific statements, or in the notes to the financial statements. However, under both IFRS and U.S. GAAP there is no all-inclusive general standard on stockholders' equity. This book clarifies the process of reporting stockholders' equity in a manner which can be reconciled under all the relevant standards. "Not only has the author addressed the informational needs of the players in the accounting industry, he has also drawn, based on his vast experience, practical implications of reporting under both standards." —Noraini Mohd Nasir, Journal of Financial Reporting and Accounting
