Poetry. Literary Nonfiction. African American Studies. Harmony Holiday's tête-bêche book-length lyric essay collection GO FIND YOUR FATHER/A FAMOUS BLUES immerses itself and its readers in a deeply personal interrogation of perhaps the most difficult subjects of all: love and family legacy. Holiday addresses these topics in verse, prose, and, most affectingly, in letters to her father—the

late singer-songwriter Jimmy Holiday. Through these notes as well as her poems bearing long, ambitious, uncompromising lines, Holiday explores how we distill our own identities from memories and responsibilities bound up in tenderness and violence. "Do any black children grow up casual? Naw, we grow up shipped, knowing that we are loved but knowing more than that, that terror, that knowing is scrawled money for our bank. We're sure-shot and avoided, singing blue devil blues like a black and blue disciple, out from Sallis, Attala off delta, change-played, flowed to that subcommon up-river fate, our Waterloo and phonic quarry, step-sharp, sharp-squared, strait-shawled, boot-sharp visitor, made for walking, talking remnant of an extra- impossible accord, then Los Angeles. Resonances and renascence of everywhere we come from, Harmony, deepest Holiday since Jason, since Jimmy, having gone to find him, makes these missive runs, assured of her allure but running from and in that into open, unsure dream. She sees it's getting late. Her archive has a microtonal blush. Sightsound, as Russell Atkins says. Can you say what it is to sing a song of love I can show you, right here, ask me now."—Fred Moten

In 1933, John A. Lomax and his son Alan set out as emissaries for the Library of Congress to record the folksong of the "American Negro" in several southern African American prisons. Listening to the Lomax Archive: The Sonic Rhetorics of African American Folksong in the 1930s asks how the Lomaxes' field recordings—including their prison recordings and a long-form oral history of jazz musician Jelly Roll Morton—contributed to a new mythology of Americana for a nation in the midst of financial, social, and identity crises. Stone argues that folksongs communicate complex

historical experiences in a seemingly simple package, and can thus be a key element—a sonic rhetoric—for interpreting the ebb and flow of cultural ideals within contemporary historical moments. He contends that the Lomaxes, aware of the power of folk music, used the folksongs they collected to increase national understanding of and agency for the subjects of their recordings even as they used the recordings to advance their own careers. Listening to the Lomax Archive gives readers the opportunity to listen in on these seemingly contradictory dualities, demonstrating that they are crucial to the ways that we remember and write about the subjects of the Lomaxes' archive and other repositories of historicized sound. Throughout Listening to the Lomax Archive, there are a number of audio resources for readers to listen to, including songs, oral histories, and radio program excerpts. Each resource is marked with a ? in the text. Visit <https://doi.org/10.3998/mpub.9871097#resources> to access this audio content.

Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. The Spirit of Cities is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.

Alan Lomax is a legendary figure in American folk music circles. Although he published many books, hundreds of recordings and dozens of films, his contributions to popular and academic journals have never been collected. This collection of writings, introduced by Lomax's daughter Anna, reintroduces these essential writings. Drawing on the Lomax Archives in New York, this book brings together articles from the 30s onwards. It is divided into four sections, each capturing a distinct period in the development of Lomax's life and career: the original years as a collector and promoter; the period from 1950-58 when Lomax was recording throughout Europe; the folk music revival years; and finally his work in academia.

*The Hip-hop Studies Reader* Alfred Music Publishing

Hip: The History is the story of how American pop culture has evolved throughout the twentieth century to its current position as world cultural touchstone. How did hip become such an obsession? From sex and music to fashion and commerce, John Leland tracks the arc of ideas as they move from subterranean Bohemia to Madison Avenue and back again. Hip: The History examines how hip has helped shape -- and continues to influence -- America's view of itself, and provides an incisive account of hip's quest for authenticity. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

"Meticulously researched, detailed and documented, this long awaited overview justly establishes Konitz as one of the most consistently brilliant, adventurous and original improvisers in the jazz tradition—a genius as rare as Bird himself." —John Zorn "Hamilton's work may well mark the inception of a format new to writing on Western music, one which avoids both the self-aggrandizing of autobiography and the stylized subjectification of biography." —The Wire "An extraordinary approach to a biography, with the man himself speaking for extended sessions. The main vibration I felt from Lee's words was total honesty, almost to a fault. Konitz shows himself to be an acute observer of the scene, full of wisdom and deep musical insights, relevant to any historical period regardless of style. The asides by noted musicians are beautifully woven throughout the pages. I couldn't put the book down—it is the definition of a living history." —David Liebman The preeminent altoist associated with the "cool" school of jazz, Lee Konitz was one of the few saxophonists of his generation to forge a unique sound independent of the influence of Charlie Parker. In the late 1940s, Konitz began his career with the Claude Thornhill band, during which time he came into contact with Miles Davis, with whom he would later work on the legendary Birth of the Cool sessions. Konitz is perhaps best known through his association with Lennie Tristano, under whose influence much of his sound evolved, and for his work with Stan Kenton and Warne Marsh. His recordings have ranged from cool bop to experimental improvisation and have appeared on such labels as Prestige, Atlantic, Verve, and Polydor. Crafted out of numerous interviews between the author and his subject, the book offers a unique look at the story of Lee Konitz's life and music, detailing Konitz's own insights into his musical education and his experiences with such figures as Miles Davis, Stan Kenton, Warne Marsh, Lennie Tristano, Charles Mingus, Bud Powell, and Bill Evans. Andy Hamilton is a jazz pianist and contributor to major jazz and contemporary music magazines. He teaches philosophy, and the history and aesthetics of jazz, at Durham University in the United Kingdom. He is also the author of the book *Aesthetics and Music* (Continuum 2007). Joe Lovano is a Grammy Award-winning tenor saxophonist. His most recent album is *Streams of Expression*.
