ARTHUR BALDWIN

National Geographic Readers: Plants
(Level 1 Co-reader) ABDO

Featuring maps, graphs, photographs, and questions used in previous National Geographic Bees, this guide presents geographic facts and helps young readers understand themes and relationships, and how geographers view their world.

National Geographic Readers: Planes
HarperCollins UK

Buzz around with Bees! This title covers

everything from what bees look like to what they like to eat. Complete with a More Facts section, bolded glossary terms, and diagrams pointing out specific body parts. Young readers will gather basic information about bees through easy-to-read, simple text alongside stunning full-bleed photographs. Aligned to Common Core Standards and correlated to state standards.

Plants Lerner Publishing Group
Introduces coral reefs, including how they are made, where they are in the world, and why the world's coral reefs are in danger.

The Book of Bees Holiday House
Hundreds of buzzing worker honeybees build a yellow structure called a comb inside a tree trunk. The comb is made up of many small, six-sided rooms that the bees make out of wax. These rooms, called cells, will be used to hold baby bees and sweet, gooey honey. Welcome to the bees' hive! Clear text and colorful photos and diagrams will engage young readers as they explore the habitat, physical characteristics, diet, and behavior of these curious creatures. Age-appropriate activities and critical-thinking questions give readers an opportunity to make observations and gain valuable insights.

Day and Night Turtleback

Butterflies are all around us. It's hard to believe these majestic insects with

impressive wingspans and beautifully colored and patterned wings were once creepy crawly caterpillars. How in the world does this transformation happen? This Level 1 Reader gives kids an up-close look at exactly how a caterpillar becomes a butterfly. With bonus information including different types of butterflies and poisonous caterpillars, this reader is one of a kind. This high-interest, educationally vetted series of beginning readers features the magnificent images of National Geographic, accompanied by texts written by experienced, skilled children's book authors. The inside back cover of the paperback edition is an interactive feature based upon the book. Level 1 books reinforce the content of the book with a kinesthetic learning activity. In

Level 2 books readers complete a Cloze letter, or fun fill-in, with vocabulary words. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Honey Bees Capstone

Talks about each habitat and shows what would happen if the food chain was broken.

Buzz about Bees Millbrook Press™

What's that buzzing around? It's a busy bee! With beautiful, engaging, and authentic photos, and accessible text, kids will learn all about these incredible insects in this level 2 reader.

Life Cycle of a Bee, The National Geographic Books

How cool is a supersonic jet that can zip,

dip, and zoom through the air? Or a helicopter that hovers as still as a hummingbird? In this 32-page beginning reader, a real-life pilot introduces kids to the greatest planes that ever flew. Enticing photographs and fascinating facts ensure that a child's natural curiosity is both inspired AND satisfied. Like each book in this successful series, *Planes* offers a high-excitement topic from a trusted content provider. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Are You a Bee? National Geographic Books

What can we learn about the health of an ecosystem through bees? This title takes readers through our warming

world where bee habitats are dwindling. Learn why humans are the cause of dropping bee populations and what we can do to help them bounce back.

Bees Matter Black Dog & Leventhal Backyard Books: *Are You a Bee?* by Judy Allen with illustrations by Tudor Humphries shows that--from the perspective of a honeybee--the backyard is a busy place. A young bee faces many challenges as it takes its place in the hive and joins in the work of the bee community.

National Geographic Readers: Bees National Geographic Books
Honeybees are in the honey-making business. These insects turn nectar collected from plants into honey and then store it in honeycombs. In this book, young kids will job-shadow

honeybees working hard in their hives. Readers will see how busy bees make productivity look fascinating.

National Geographic Kids Readers: Buzz, Bee! (National Geographic Kids Readers: Level Pre-Reader) National Geographic Books

Get to know scales, shells, and other kinds of amazing animal armor in this engaging Level 1 Reader from National Geographic Kids, now with more than 125 books from Pre-reader to Level 3 in the series. Packed with beautiful and engaging photos, kids will learn all about these fantastic creatures. Learn about animals with shells, scales, and spikes! This Reader is carefully leveled for an early independent reading or read aloud experience, perfect to encourage the scientists and explorers of tomorrow!

Bees Bellwether Media

"Information about how animals build their homes, for beginner readers"--
National Geographic Readers: Caterpillar to Butterfly National Geographic Books
Discover more about our fuzzy little insect friends with award-winning author and illustrator Charlotte Milner. The perfect introduction to bee conservation for little ones. Learn all about the beautiful world of bees and their adventure from flower to flower. You'll find out just how much they matter, why they are declining, and what we can do to help in this adorable kids' ebook. Bees are brilliant at building, super social creatures and along with other insects, are responsible for a third of every mouthful of food you eat! Children will be fascinated by the beautiful pictures

and learn plenty of buzz-worthy fun facts in every chapter, covering types of bees, beehives, beekeeping, how they pollinate plants and make honey. A beautiful kid's educational ebook about bees with a crucial message: not only does it inform and educate about an issue that is a real threat, but it also delivers it in a way that is gripping for all ages. A dazzling celebration of bees, packaged in a gorgeous ebook with spectacular illustrations. What's The Buzz About Honey Bees? Meet the humble honeybee face-to-face - an animal that is considered nature's hardest worker, in this engaging, educational kids' ebook that you can treasure forever. What do they do all day? Why are bees important? Find out why they need our help and what you

can do. Bees are responsible for so much more than making honey. This ebook is an essential tool in encouraging the protection of our precious buzzing friends for generations to come. Learn all about these valuable creatures: - What happens in the hive - What pollination is - Who the queen is - How honeybees talk to each other - How we can help them and much, much more! This adorable book is one of three children's books on conservation by award-winning author Charlotte Milner and includes *The Sea Book* and *The Bat Book* for your little ones to enjoy.

Honeybees Capstone Classroom

Bees begin their life cycle as eggs in honeycomb cells. Every day, a queen bee can lay as many as 2,000 eggs. Young readers will study a bee's growth

from egg to grub to pupa to adult

The Case of the Vanishing Honeybees Cherry Lake

Robert F. Sibert Medal Winner Take to the sky with Apis, one honeybee, as she embarks on her journey through life! An Orbis Pictus Honor Book Selected for the Texas Bluebonnet Master List Finalist for the AAAS/Subaru SB&F Prize for Excellence in Science Books A tiny honeybee emerges through the wax cap of her cell. Driven to protect and take care of her hive, she cleans the nursery and feeds the larvae and the queen. But is she strong enough to fly? Not yet! Apis builds wax comb to store honey, and transfers pollen from other bees into the storage. She defends the hive from invaders. And finally, she begins her new life as an adventurer. The confining walls

of the hive fall away as Apis takes to the air, finally free, in a brilliant double-gatefold illustration where the clear blue sky is full of promise-- and the wings of dozens of honeybees, heading out in search of nectar to bring back to the hive. Eric Rohmann's exquisitely detailed illustrations bring the great outdoors into your hands in this poetically written tribute to the hardworking honeybee. Award-winning author Candace Fleming describes the life cycle of the honeybee in accessible, beautiful language. Similar in form and concept to the Sibert and Orbis Pictus award book *Giant Squid*, *Honeybee* also features a stunning gatefold and an essay on the plight of honeybees. Cook Prize Honor Book A Kids' Book Choice Award Finalist An American Library Association Notable

A black and yellow insect flies past! Is it a wasp ready to attack, or friendly bee searching for flowers? Young readers will find out how to tell bees and wasps apart using easy-to-read text, photo labels, and side-by-side comparisons. From body shape to hives

and nests, beginning readers can match defining characteristics to each stinging insect in this colorful title.

Help the Honey Bees Penguin

Introduces honeybees, describing their physical features, different roles in the hive, and the importance of bee pollination for the world's food supply.

At the Beach National Geographic Books

This Level 1 guided reader examines the activities of bees in summer. Students will develop word recognition and reading skills while learning about

blossoming flowers, nectar, honey, and pollination.

Bees National Geographic Books

This title will teach readers about honey bees and where they live. It will also let readers know that some honey bee populations are in decline due to pesticide use, habitat loss, pollution, and more. Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jumbo is an imprint of Abdo Kids, a division of ABDO.
