An integrated national identification (ID) system offers a means to fast-track the development process by providing the most efficient way to identify people in developing countries. This report seeks to help governments assess the maturity of a country's ID system and integrate it with development activities. A maturity

model for a country's ID management is developed and applied to seven countries in Asia to assess the maturity of their ID systems. This report also provides a way forward for multilateral institutions---including ADB---to make the best use of ID systems in their operations.

[Towards a Social Definition of the Family in Muslim Jurisdictions](#) World Bank Publications

A fascinating account of the invention of fingerprinting in colonial India and the

story of how the technique was exported back to Victorian England. Opening with the first case in a British criminal court to use the radical new technique of fingerprinting to identify the perpetrators of crime in 1902 this riveting book takes us back to the origins of fingerprinting in India. Despite many books on the subject of fingerprints in general, none have looked closely at the fact that this standard tool of forensic science was born in India during the Raj. As the author points out, with the exception of curry there is not one other instance of something so fundamental to British life being imported fully-formed from the Empire and then being tailored to fit conditions at home. Based on original and hitherto unpublished research imprint of the Raj gives a

unique insight into our colonial past and offers a vivid account of this extraordinary and largely ignored story. The Asian Yearbook of Human Rights and Humanitarian Law United Nations Publications

This book provides the most comprehensive and authoritative book yet published on the subject of criminal investigation, a rapidly developing area within the police and other law enforcement agencies, and an important sub discipline within police studies. The subject is rarely out of the headlines, and there is widespread media interest in criminal investigation. Within the police rapid strides are being made in the direction of professionalizing the criminal investigation process, and it has been a particular focus as a means of

improving police performance. A number of important reports have been published in the last few years, highlighting the importance of the criminal investigation process not only to the work of the police but to public confidence in this. Each of these reports has identified shortcomings in the way criminal investigations have been conducted, and has made recommendations for improvement . The Handbook of Criminal Investigation provides a rigorous and critical approach to not only the process of criminal investigation, but also the context in which this takes place, the theory underlying it, and the variety of factors which influence approaches to it. It will be an indispensable source of reference for anybody with an interest in, and

needing to know about, criminal investigation. Contributors to the book are drawn from both practitioners in the field and academics.

Children in a Digital World World Bank Publications

This book contains selected contributions presented during the workshop “Establishing Filiation: Towards a Social Definition of the Family in Islamic and Middle Eastern Law?”, which was convened in Beirut, Lebanon in November 2017. Filiation is a multifaceted concept in Muslim jurisdictions. Beyond its legal aspect, it encompasses the notion of inclusion and belonging, thereby holding significant social implications. Being the child of someone, carrying one’s father’s name, and inheriting from both parents form

important pillars of personal identity. This volume explores filiation (nasab) and alternative forms of a full parent-child relationship in Muslim jurisdictions. Eleven country reports ranging from Morocco to Malaysia examine how maternal and paternal filiation is established – be it by operation of the law, by the parties’ exercise of autonomy, such as acknowledgement, or by scientific means, DNA testing in particular – and how lawmakers, courts, and society at large view and treat children who fall outside those legal structures, especially children born out of wedlock or under dubious circumstances. In a second step, alternative care schemes in place for the protection of parentless children are examined and their potential to recreate

a legal parent-child relationship is discussed. In addition to the country-specific analyses included in this book, three further contributions explore the subject matter from perspectives of premodern Sunni legal doctrine, premodern Shiite legal doctrine and the private international law regimes of contemporary Arab countries. Finally, a comparative analysis of the themes explored is presented in the synopsis at the end of this volume. The book is aimed at scholars in the fields of Muslim family law and comparative family law and is of high practical relevance to legal practitioners working in the area of international child law. Nadjma Yassari is Leader of the Research Group “Changes in God’s Law: An Inner-Islamic Comparison of Family and Succession

Law” at the Max Planck Institute for Comparative and International Private Law while Lena-Maria Möller is a Senior Research Fellow at the Max Planck Institute and a member of the same Research Group. Marie-Claude Najm is a Professor in the Faculty of Law and Political Science at Saint Joseph University of Beirut in Lebanon and Director of the Centre of Legal Studies and Research for the Arab World (CEDROMA).

**Hundreds of Ways to Say I Do and Here's to You!** United Nations Publications

This book constitutes the refereed proceedings of the 13th International Conference on Mobile Web and Intelligent Information Systems, MobiWIS 2016, held in Vienna, Austria, in August

2016. The 36 papers presented in this volume were carefully reviewed and selected from 98 submissions. They were organization in topical sections named: mobile Web - practice and experience; advanced Web and mobile systems; security of mobile applications; mobile and wireless networking; mobile applications and wearable devices; mobile Web and applications; personalization and social networks.

**Adaptive Social Protection** Conran Octopus

As the debate about whether the internet is safe for children rages, The State of the World's Children 2017: Children in a Digital World discusses how digital access can be a game changer for children or yet another dividing line. The report represents the first comprehensive look from UNICEF at the different ways digital technology is affecting children, identifying dangers as well as opportunities. It makes a clear call to governments, the digital technology sector and telecom industries to level the digital playing field for children by creating policies, practices and products that can help children harness digital opportunities and protect them from harm.

Vows and Toasts Asian Yearbook of Human Rights

Ending poverty and stabilizing climate change will be two unprecedented global achievements and two major steps toward sustainable development. But the two objectives cannot be considered in isolation: they need to be jointly tackled through an integrated strategy. This report brings together those two objectives and explores how they can more easily be achieved if considered together. It examines the potential impact of climate change and climate policies on poverty reduction. It also provides guidance on how to create a “win-win” situation so that climate change policies contribute to poverty reduction and poverty-reduction policies contribute to climate change mitigation and resilience building. The key finding of the report is that climate change

represents a significant obstacle to the sustained eradication of poverty, but future impacts on poverty are determined by policy choices: rapid, inclusive, and climate-informed development can prevent most short-term impacts whereas immediate pro-poor, emissions-reduction policies can drastically limit long-term ones.

*Agile Information Business* Springer Sudan has been undergoing profound changes characterized by an uncertain transition from conflict to post-conflict society and the separation of the country in the midst of ongoing human rights concerns. This book examines the nature, policy aspects and interrelationship of Sudanese criminal law and law reform in this context, situating developments in the broader

debate of international human rights, rule of law and transitional justice. For the first time, Sudanese, national, regional and international experts and practitioners are brought together to share experiences, combining a range of legal and policy perspectives. The book provides valuable lessons on how relevant standards and experiences can be used to inform criminal law reform in Sudan. It also considers what broader lessons can be drawn for reform initiatives in other societies facing similar challenges. This includes the type of violations that need to be addressed in reforms as a prerequisite for enhanced human rights protection, challenges experienced in this regard, and the contribution of civil society in this process.

*'Honour'* World Bank Publications

Over the past two decades, Singapore has advanced rapidly towards becoming a both a global city-state and a key nodal point in the international economic sphere. These developments have caused us to reassess how we understand this changing nation, including its history, population, and geography, as well as its transregional and transnational experiences with the external world. This collection spans several disciplines in the humanities and social sciences and draws on various theoretical approaches and methodologies in order to produce a more refined understanding of Singapore and to reconceptualize the challenges faced by the country and its peoples.

The publication is an international standard on the design and operation of an efficient and accurate vital statistics system at national level. It provides guidelines on collection, compiling and disseminating vital statistics. More specifically it contains (a) basic principles for a vital statistics system; (b) uses of vital statistics and civil registration records; (c) topics to be covered in a vital statistics system; (d) sources of vital statistics and how they function; (e) quality assurance in the vital statistics system and (f) strategies in improving civil registration and vital statistics systems in countries. It also informs policy makers and the general public on the importance of vital statistics and hence further improving

the vital statistics system.

*Leveling the Global Economic Playing Field* United Nations Publications

This publication takes a holistic approach to addressing land issues from the immediate aftermath of a natural disaster through early recovery and reconstruction phases. It is targeted at humanitarians and land professionals, as well as government officials, and brings together emergency relief and early recovery perspectives. The information provided could be useful to anyone directly working to support rapid yet sustainable recovery of human settlements following a natural disaster. The Guidelines were produced through a partnership between UN-HABITAT, the Global Land Tool Network (GLTN), FAO and the Early Recovery Cluster.--

Publisher description.

*Being Pakistani* ANU E Press

Allegations that widespread voter fraud is threatening to the integrity of American elections and American democracy itself have intensified since the disputed 2000 presidential election. The claim that elections are being stolen by illegal immigrants and unscrupulous voter registration activists and vote buyers has been used to persuade the public that voter malfeasance is of greater concern than structural inequities in the ways votes are gathered and tallied, justifying ever tighter restrictions on access to the polls. Yet, that claim is a myth. In *The Myth of Voter Fraud*, Lorraine C. Minnite presents the results of her meticulous search for evidence of voter fraud. She

concludes that while voting irregularities produced by the fragmented and complex nature of the electoral process in the United States are common, incidents of deliberate voter fraud are actually quite rare. Based on painstaking research aggregating and sifting through data from a variety of sources, including public records requests to all fifty state governments and the U.S. Justice Department, Minnite contends that voter fraud is in reality a politically constructed myth intended to further complicate the voting process and reduce voter turnout. She refutes several high-profile charges of alleged voter fraud, such as the assertion that eight of the 9/11 hijackers were registered to vote, and makes the question of voter fraud more precise by

distinguishing fraud from the manifold ways in which electoral democracy can be distorted. Effectively disentangling misunderstandings and deliberate distortions from reality, *The Myth of Voter Fraud* provides rigorous empirical evidence for those fighting to make the electoral process more efficient, more equitable, and more democratic.

*A Guide for New Immigrants* Asian Development Bank

This book constitutes selected papers from the 14th European, Mediterranean, and Middle Eastern Conference, EMCIS 2017, held in Coimbra, Portugal, in September 2017. EMCIS is focusing on approaches that facilitate the identification of innovative research of significant relevance to the IS discipline following sound research methodologies

that lead to results of measurable impact. The 37 full and 16 short papers presented in this volume were carefully reviewed and selected from a total of 106 submissions. They are organized in sections on big data and Semantic Web; digital services, social media and digital collaboration; e-government; healthcare information systems; information systems security and information privacy protection; IT governance; and management and organizational issues in information systems.

*Guidance for Practitioners* Cornell University Press

Couples spend an enormous amount of time and energy planning for the perfect wedding. But what about planning for the perfect marriage? In these times of rampant divorce and "relationship"

crises, it makes sense to think seriously about the many challenges of married life that loom so large today. The Book of Marriage offers a treasury of marital wisdom from across the ages. Intellectually engaging, morally rich, and ideologically balanced, this anthology gathers some of the deepest, wittiest, and most edifying perspectives on the big questions of married life: Why get married at all? Can love last a lifetime? How do we handle money? Who's the boss? What about children? Conflict? Growing old? Illness and death? There is even a chapter on divorce -- one calculated to save a few marriages. To date there has been no single comprehensive book of source readings on marriage and family life. Assembled with the aid of noted scholars from

various fields, this volume treats marriage as more than just a relationship -- as an institution, a vocation, and a source of great spiritual and emotional rewards. Each chapter introduces a different quandary of marriage and then culls the best from ancient and modern writings on the theme. The compendium of cultural wisdom on marriage ranges from the Bible and Eastern wisdom to Aristotle, St. Augustine, Maimonides, and Judith Wallerstein; from Homer, Shakespeare, Milton, and Jane Austen to Edward Albee, Gabriel Garcia Marquez, and Bill Cosby. An important resource for young adults, college students, engaged and married couples, educators, marriage counselors, therapists, pastors, and other family professionals, *The Book of Marriage*

celebrates the diversity and essential humanity of the marital experience in a way that is accessible, entertaining, and eminently useful.

*Building Resilience to Shocks* Ashgate Publishing, Ltd.

It is increasingly acknowledged that migration issues need a co-ordinated approach, with discussions being undertaken at bilateral levels, as well as at regional and global levels. This publication seeks to establish a common understanding about the terms and concepts used in the field of migration, in order to establish a useful tool to help further international cooperation on this topic.

*Managing the Impacts of Climate Change on Poverty* Springer

This guide provides everything needed

for humanitarian agencies and practitioners who want to improve their accountability and quality systems and are aiming for HAP certification. It will also be useful to government departments and international bodies interested in accountability and good practice in the humanitarian sector.

**Volume 3, 2019, Law, Gender and Sexuality** Sellers Pub Incorporated

In this groundbreaking work, Kamal Sadiq reveals that most of the world's illegal immigrants are not migrating directly to the US, but to countries in the vast developing world, where they are able to obtain citizenship papers fairly easily. Sadiq introduces "documentary citizenship" to explain how paperwork--often falsely obtained--confers citizenship on illegal immigrants. Across

the globe, there are literally tens of millions of such illegal immigrants who have assumed the guise of "citizens." Who, then, is really a citizen? And what does citizenship mean for most of the world's peoples? Rendered in vivid detail, Paper Citizens not only shows how illegal immigrants acquire false papers, but also sheds light on the consequences this will have for global security in the post 9/11 world.

**Identity for Development in Asia and the Pacific** UPNE

Adaptive social protection (ASP) helps to build the resilience of poor and vulnerable households to the impacts of large, covariate shocks, such as natural disasters, economic crises, pandemics, conflict, and forced displacement. Through the provision of transfers and

services directly to these households, ASP supports their capacity to prepare for, cope with, and adapt to the shocks they face—before, during, and after these shocks occur. Over the long term, by supporting these three capacities, ASP can provide a pathway to a more resilient state for households that may otherwise lack the resources to move out of chronically vulnerable situations. Adaptive Social Protection: Building Resilience to Shocks outlines an organizing framework for the design and implementation of ASP, providing insights into the ways in which social protection systems can be made more capable of building household resilience. By way of its four building blocks—programs, information, finance, and institutional arrangements and

partnerships—the framework highlights both the elements of existing social protection systems that are the cornerstones for building household resilience, as well as the additional investments that are central to enhancing their ability to generate these outcomes. In this report, the ASP framework and its building blocks have been elaborated primarily in relation to natural disasters and associated climate change. Nevertheless, many of the priorities identified within each building block are also pertinent to the design and implementation of ASP across other types of shocks, providing a foundation for a structured approach to the advancement of this rapidly evolving and complex agenda. The Myth of Voter Fraud INTERNATIONAL

## MONETARY FUND

This study examines the emergence of new forms of Islamic spirituality in Indonesia identified as Majlis Dhikr. These Majlis Dhikr groups have proliferated on Java in the last two decades, both in urban and rural areas, and have attracted followers from a wide social background. The diverse aspects of these Majlis Dhikr groups - their rituals, teachings and strategies of dissemination as well as the popular understanding of these rituals and their

contestation by critics and opponents - are examined in detail and illustrated by reference to three particular groups - Salawat Wahidiyat, Istighathat Ihsaniyyat and Dhikr al-Ghafilin each of which has its own distinctive features and notable religious leadership. These Majlis Dhikr groups regard their activities as legitimate ritual practices that are in accordance with the legacy of Islamic Sufism based on the interpretation of the Qur'anic and Prophetic tradition.
