This is the chapter slice "Background and Causes Gr. 5-8" from the full lesson plan "Vietnam War". Experience the longest military conflict in U.S. history, where more than 58,000 Americans lost their lives. From 1955 to 1975, our resource highlights the events that surround this controversial war. Travel to Southeast Asia and become familiar with the climate and terrain of Vietnam. Discover how events after World War II and the United States' attempt to stop Communism from spreading led to this conflict. Learn about the different tactics Presidents

John F. Kennedy, Lyndon B. Johnson and Richard M. Nixon used during the war. Find out what role the introduction of the helicopter took during some of the major battles. Get introduced to the SEAL teams and U.S. Navy. Step into the shoes of those who fought in the war at home by organizing a protest. Find out how the veterans who fought in Vietnam were treated differently than those who fought in wars before them. Aligned to your State Standards and written to Bloom's Taxonomy, additional hands-on activities, crossword, word search, comprehension quiz and answer key are also included.

A People's History of the United States Random House Books for Young Readers

A "fascinating" look at what students in Russia, France, Iran, and other nations are taught about America (The New York Times Book Review). This "timely and important" book (History News

Network) gives us a glimpse into classrooms across the globe, where opinions about the United States are first formed. History Lessons includes selections from textbooks and teaching materials used in Russia, France, Iran, Saudi Arabia, Cuba, Canada, and others, covering such events as the American Revolution, the Cuban Missile Crisis, the Iran hostage crisis, and the Korean War—providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post-Cold War era. By juxtaposing starkly contrasting versions of the historical events we take for granted, History Lessons affords us a sometimes hilarious, often sobering look at what the world thinks about America's past. "A brilliant idea."

All the Broken Pieces Brookings Institution Press

An award-winning debut novel from a stellar new voice in middle grade fiction. Matt Pin would like to forget: war torn Vietnam, bombs that fell like dead crows, and the terrible secret he left behind. But now that he is living with a caring adoptive family in the United States, he finds himself forced to confront his past. And that means choosing between silence and candor, blame and forgiveness, fear and freedom. By turns harrowing, dreamlike, sad, and triumphant, this searing debut novel, written in lucid verse, reveals an unforgettable perspective on the lasting impact of war and the healing power of love.

The Girl in the Picture Harvard University Press

Moving to America turns H&A's life inside out. For all the 10 years of her life, H&A has only known Saigon: the thrills of its markets, the joy of its traditions, the warmth of her friends close by, and the beauty of her very own papaya tree. But now the Vietnam

War has reached her home. H&A and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. In America, H&A discovers the foreign world of Alabama: the coldness of its strangers, the dullness of its food, the strange shape of its landscape, and the strength of her very own family. This is the moving story of one girl's year of change, dreams, grief, and healing as she journeys from one country to another, one life to the next.

Failing schools have become the latest academic cottage industry, and they serve as lightning rods for the controversy that continues to surround the No Child Left Behind Act of 2001. Surprisingly, there are only a handful of books that address the topic of turning around failing schools and even fewer that provide a meaningful discussion on how individual schools should avoid failure from the outset. This book will help public school educators understand that turnaround efforts are based on sound leadership principles - nothing more, nothing less. It also provides school leaders with the critical skills to turn around failing schools and, more importantly, prevent their schools from failing in the first place. Individual chapters address topics such as setting institutional priorities, establishing a positive school culture, improving communications, developing classroom leadership, putting the school on a sound financial footing, and using data to guide the school turnaround. In essence, this book serves as a practical guide for instructional and institutional leaders on how to make a "real" difference in the success of our nation's schools.

CRACKER IS ONE OF THE UNITED STATES ARMY'S MOST VALUABLE WEAPONS: a German shepherd trained to sniff out bombs, traps, and the enemy. The fate of entire platoons rests on her keen sense of smell. She's a Big Deal, and she likes it that way. Sometimes Cracker remembers when she was younger, and her previous owner would feed her hot dogs and let her sleep in his bed. That was nice, too. Rick Hanski is headed to Vietnam. There, he's going to whip the world and prove to his family and his sergeant -- and everyone else who didn't think he was cut out for war -- wrong. But sometimes Rick can't help but wonder that maybe everyone else is right. Maybe he should have just stayed at home and worked in his dad's hardware store. When Cracker is paired with Rick, she isn't so sure about this new owner. He's going to have to prove himself to her before she's going to prove herself to him. They need to be friends before they can be a team, and they have to be a team if they want to get home alive. Told in part through the uncanny point of view of a German shepherd, *Cracker!* is an action-packed glimpse into the Vietnam War as seen through the eyes of a dog and her handler. It's an utterly unique powerhouse of a book by the Newbery Medal-winning author of *Kira-Kira*.

"If a historian were allowed but one book on the American involvement in Vietnam, this would be it." — Foreign Affairs
When first published in 1979, four years after the end of one of the most divisive conflicts in the United States, *The Irony of Vietnam* raised eyebrows. Most students of the war argued that the United States had "stumbled into a quagmire in Vietnam through hubris and miscalculation," as the *New York Times's* Fox Butterfield put it. But the perspective of time and the opening of documentary sources, including the Pentagon Papers, had allowed Gelb and Betts to probe deep into the decisionmaking leading to escalation of military action in Vietnam. The failure of Vietnam could be laid at the door of American foreign policy, they said, but the decisions that led to the failure were made by presidents aware of the risks, clear about their aims, knowledgeable about the weaknesses of their allies, and under no illusion about the outcome. The book offers a picture of a steely resolve in government circles that, while useful in creating consensus, did

not allow for alternative perspectives. In the years since its publication, *The Irony of Vietnam* has come to be considered the seminal work on the Vietnam War.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling.

The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

This edited volume showcases work from the emerging field of design-based research (DBR) within social studies education and explores the unique challenges and opportunities that arise when applying the approach in classrooms. Usually associated with STEM fields, DBR's unique ability to generate practical theories of learning and to engineer theory-driven improvements to practice holds meaningful potential for the social studies. Each chapter describes a different DBR study, exploring the affordances and dilemmas of the approach. Chapters cover such topics as iterative design, using and producing theory, collaborating with educators, and the ways that DBR attends to historical, political, and social context.

Pulitzer-prize winning author David Halberstam's eyewitness account provides a riveting narrative of how the United States created a major foreign policy disaster for itself in a faraway land it knew little about. In the introduction to this edition, historian Daniel J. Singal supplies crucial background information that was unavailable in the mid-1960s when the book was written. With its

numerous firsthand recollections of life in the war zone, *The Making of a Quagmire* penetrates to the essence of what went wrong in Vietnam. Although its focus is the Kennedy era, its analysis of the blunders and misconceptions of American military and political leaders holds true for the entire war.

Learn how the United States ended up fighting for twenty years in a remote country on the other side of the world. The Vietnam War was as much a part of the tumultuous Sixties as Flower Power and the Civil Rights Movement. Five US presidents were convinced that American troops could end a war in the small, divided country of Vietnam and stop Communism from spreading in Southeast Asia. But they were wrong, and the result was the death of 58,000 American troops. Presenting all sides of a complicated and tragic chapter in recent history, Jim O'Connor explains why the US got involved, what the human cost was, and how defeat in Vietnam left a lasting scar on America.

The first collection of King's essential writings for high school students and young people *A Time to Break Silence* presents Martin Luther King, Jr.'s most important writings and speeches—carefully selected by teachers across a variety of disciplines—in an accessible and user-friendly volume. Now, for the first time, teachers and students will be able to access Dr. King's writings not only electronically but in stand-alone book form. Arranged thematically in five parts, the collection includes nineteen selections and is introduced by award-winning author Walter Dean Myers. Included are some of Dr. King's most well-known and frequently taught classic works, including "Letter from Birmingham Jail" and "I Have a Dream," as well as lesser-known pieces such as "The Sword that Heals" and "What Is Your Life's Blueprint?" that speak to issues young people face today.
