Numbers,
cards, coins,
and shapes:
with these,

and a few mathematical principles, you'll turn into a magician! Just gather a few very ordinary, easy-to-find items (paper, pens, a calculator, dice, pennies, scissors), practice your patter a little, step in front of an audience-- friends, family, maybe even your teachers at school--and prepare to amaze them. Guess the number someone will choose; try some math telepathy; make Mobius

strips out of paper, and move "from one end to another"--a routine that uses a stack of cards for a very unique effect. Do an "incomplete prediction," a trick that seems as if it's going wrong.until you produce a surprise ending. Every one is easy to master-but no one else has to know that!

The Book of Magic J-Novel Club

Chemistry is the study of matter and its properties. That's a fancy way of saying that chemistry is the study of everything. Everything that takes up space is matter, and all matter is made of chemicals. This interactive book introduces

readers to the fascinating field of chemistry through hands-on experiments. Step-by-step instructions and full-color photographs guide readers through each project with ease. "What's Happening" sidebars explain the scientific principles demonstrated in each experiment. This epic volume is the perfect introduction to this important branch of science because it helps readers

grasp abstract concepts through concrete activities. *Art Show ABC-CLIO* Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-

tech lifestyle.

Penguin
Caroline Fairchild has never met a mystic, never known the Magic, never matched wits with a dark queen and never ever ridden bareback on a unicorn. All she knows is that her life has taken a turn for the worst since her step mother banished her

to the wood shed. But all that is about to change when she meets Ali, a mysterious girl of the garden who shares with her its secrets. Guided by a mystic and helped by the magic Caroline along with Uni, a mystical friend brought to life through the wonder of dreams, must struggle to find their way through the the forest of shadows. On the path they must confront their own fear and doubt; for it will be the

only way they will be able to find and rescue Ali, the tiny miss who in fact has a secret of her own...perhaps the best kept secret of all! Build a Neighborhood Library Cherry Lake Intended to support the national initiative to strengthen learning in areas of science, technology, engineering, and mathematics, this book helps librarians who work with youth in school and

public libraries to build better collections and more effectively use these collections through readers' advisory and programming. • Introduces more than 500 STEM resource suggestions for toddlers to young adults • Highlights more than 25 detailed library program or activity suggestions to be paired with STEM book titles • Provides resource suggestions for professional

Be ready to create magic anytime, anyplace with this entertaining book for magicians of all ages. *Backyard Chemistry Experiments* Workman Publishing From beloved author Diana López comes an exciting middle grade

story about three friends, a magic competition, and how far they'll go to succeed. Sixth graders Dominic, Loop, and Z stumble upon a new magic shop in town and can't wait to spend their summer mastering cool tricks to gain access to the Vault, a key holders-only back room bound to hold all kinds of secrets. And once they get in, they set their sights even higher: a huge competition at the end of the

summer. They work on their card tricks, sleights, and vanishing acts, trying to come up with the most awesome routines possible....Problem is, the trip is expensive, and it's money that each guy's family just doesn't have. To make things worse, the shop-owners' daughter, Ariel (who just so happens to be last year's competition winner), will do anything to make sure the boys don't come out on

top. Even pit them against one another. Will they make it to the competition? And if so, at what cost? Diana López, author of Confetti Girl and Ask My Mood Ring How I Feel, offers a story that's just the right mix of heart, high jinks, and a bit of magic. Amazing Magic Tricks! AuthorHouse This entertaining book is a complete guide to card tricks that will delight the amateur and professional

magician alike. A comprehensive collection of tricks, which are extensively illustrated with explanatory diagrams and drawings.
