The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports

students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified.

An introduction to data and telecommunications in business, this text stresses management, design and technology. Most texts are purely managerial and fail to cover the critical technical topics, and others are extremely technical and appeal only to

engineers and computer scientists. This book, on the other hand, is for managers, yet provides the technical information that is critical to an understanding of the breakthroughs in this rapidly changing field. This edition has been substantially updated and reorganized to reflect the needs of the student and includes a new chapter on voice communications, increased coverage of Wide
