*Transitional Justice, Culture, and Society* American Government 2e American Government 2e is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. *Just Help!* How to Build a Better World  
 Civic life today is mediated. Communities small and large are now using connective platforms to share information, engage in local issues, facilitate vibrant debate, and advocate for social causes. In this timely book, Paul Mihailidis explores the texture of daily engagement in civic life, and the resources--human, technological, and practical--that citizens employ when engaging in civic actions for positive social impact. In addition to examining the daily civic actions that are embedded in media and digital literacies and human connectedness, Mihailidis outlines a model for empowering young citizens to use media to meaningfully engage in daily life.

"Hollywood films are perhaps the most powerful storytellers in American history, and their depiction of race and culture has helped to shape the way people around the world respond to race and prejudice. Over the past one hundred years, films have moved from the radically-prejudiced views of people of color to the depiction of people of color by writers and filmmakers from within those cultures. In the process, we begin to see how films have depicted negative versions of people outside the white mainstream, and how film might become a vehicle for racial reconciliation. Religious traditions offer powerful correctives to our cultural narratives, and this work incorporates both narrative truth-telling and religious truth-telling as we consider race and film and work toward reconciliation. By exploring the hundred-year period from *The Birth of a Nation* to *Get Out*, this work acknowledges the racist history of America, and offers the possibility of hope for the future"--

THE WORDS WE LIVE BY takes an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, gun control, and affirmative action. In THE WORDS WE LIVE BY, Linda Monk probes the idea that the Constitution may seem to offer cut-and-dried answers to questions regarding personal rights, but the interpretations of this hallowed document are nearly infinite. For example, in the debate over gun control, does "the right of the people to bear arms" as stated in the Second Amendment pertain to individual citizens or regulated militias? What do scholars say? Should the Internet be regulated and censored, or does this impinge on the freedom of speech as defined in the First Amendment? These and other issues vary depending on the interpretation of the Constitution. Through entertaining and informative annotations, THE WORDS WE LIVE BY offers a new way of looking at the Constitution. Its pages reflect a critical, respectful and appreciative look at one of history's greatest documents. THE WORDS WE LIVE BY is filled with a rich and engaging historical

perspective along with enough surprises and fascinating facts and illustrations to prove that your Constitution is a living--and entertaining--document. Updated now for the first time, THE WORDS WE LIVE BY continues to take an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, and affirmative action.

From the author of the #1 New York Times bestseller *Just Ask!* comes a fun and meaningful story about making the world--and your community--better, one action at a time, that asks the question: Who will you help today? Every night when Sonia goes to bed, Mami asks her the same question: How did you help today? And since Sonia wants to help her community, just like her Mami does, she always makes sure she has a good answer to Mami's question. In a story inspired by her own family's desire to help others, Supreme Court Justice Sonia Sotomayor takes young readers on a journey through a neighborhood where kids and adults, activists and bus drivers, friends and strangers all help one another to build a better world for themselves and their community. With art by award-winning illustrator Angela Dominguez, this book shows how we can all help make the world a better place each and every day. Praise for *Just Help!*: "Generosity proves contagious in this personal portrait of community service by Supreme Court Justice Sotomayor." --Publishers Weekly  
 "For use in civics units or in lessons on being a good neighbor, this provides wonderful encouragement to show that children can help in big and small ways." --School Library Journal

Transitional justice processes have a fundamental public dimension. Their impact depends in part on

the social support they receive. For this reason, transitional justice bodies have increasingly implemented outreach programs. Beyond the role of outreach, however, other initiatives -- such as media and cultural interventions -- can strengthen, but also in some cases undermine, the public resonance of transitional justice. How can media and art be used to engage society in discussions about accountability and redress? How do media influence social perceptions and attitudes toward the legacy of the past? To what extent is social engagement in the public sphere necessary to advance the political transformation that transitional justice measures try to promote? Examining the roles that society and culture play in transitional justice contexts, the essays in this volume focus on the ways in which communicative practices can raise public awareness of and reflection on the legacies of mass abuse.

The death of Georgia governor-elect Eugene Talmadge in late 1946 launched a constitutional crisis that ranks as one of the most unusual political events in U.S. history: the state had three active governors at once, each claiming that he was the true elected official. This is the first full-length examination of that episode, which wasn't just a crazy quirk of Georgia politics (though it was that) but the decisive battle in a struggle between the state's progressive and rustic forces that had continued since the onset of the Great Depression. In 1946, rural forces aided by the county unit system, Jim Crow intimidation of black voters, and the Talmadge machine's "loyal 100,000" voters united to claim the governorship. In the aftermath, progressive political forces in Georgia would shrink into obscurity for the better part of a generation. In this volume is the story of how the political, governmental, and Jim Crow social institutions not only defeated Georgia's progressive forces but forestalled their effectiveness for a decade and a half.

A comprehensive guide to civic participation and the best opportunities for volunteering. We are proud residents of the land of the free and the home of the brave, but how often do we actually get involved and do anything to make a difference? The lifeblood of democracy is volunteering, and *Make a Difference* teaches readers how to get in the game and help! Volunteers are needed in record numbers. People are in trouble, and they are turning to volunteer organizations in their communities and faiths for help. Millions of Americans—middle class, working class, professionals, and business executives—have experienced the loss of a job, a home, or a business, small farm failure, a personal bankruptcy, or a loss of pension or retirement income. And millions more are only a layoff, illness, divorce, or accident away from falling into poverty. But YOU can help! *Make a Difference* is a comprehensive collection of more than two hundred community service opportunities and experiences. More than a simple resource guide, this unique handbook includes interviews, anecdotes, and commentary from the top people in nonprofit and service fields. The book ties together the strands of volunteering, community service, and civic engagement. Blaustein focuses on two critical questions: "How did we get into this mess?" and "What can be done to turn things around?" His answer to these interconnected questions is volunteering, community service, civic engagement, and citizen participation. They are good for you, vital to those being served, and healthy for your community and our country. Here's what YOU can do to help!

The life and times of C. S. Lewis's modern spiritual classic *Mere Christianity*, C. S. Lewis's eloquent defense of the Christian faith, originated as a series of BBC radio talks broadcast during the dark days of World War Two. Here is the story of the extraordinary life and afterlife of this influential and inspiring book. George Marsden describes how Lewis gradually went from being an atheist to a committed Anglican—famously converting to Christianity in 1931 after conversing into the night with his friends J. R. R. Tolkien and Hugh Dyson—and how his plainspoken case for Christianity went on to become one of the most beloved spiritual books of all time.

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Exploring the concept of individual and collective transformation as the underlying driver for media pedagogy, this book offers valuable insights and practical strategies for implementing transformative media pedagogies across learning environments and civic ecosystems. Each chapter takes the form of critical and reflective writing on specific processes and practices that emerged from contributors' experiences of participating in the Salzburg Academy on Media and Global Change, an experimental and immersive transformational media pedagogy project born in 2007, and continuing to this day. Together, contributors examine media pedagogies that prioritize value constructions like human connection, care, imagination, and agency, all of which collectively support a transformative approach to learning. While this book takes into account media pedagogies that focus on competencies and skills, its priority is to reveal and offer learning pathways that develop media makers and storytellers focused on positive social impact in the world. This book will be of interest to any media educators, researchers, practitioners, and entrepreneurs seeking to implement transformative media pedagogies that support equitable and just civic futures.
