DALE FINLEY

Platform - Joomla! Documentation Joomla Developer Manual There is always a great deal of Joomla! development activity underway and communicating with other developers in the community is essential. This site is a resource for anyone looking to build or maintain software based on the Joomla! platform. Joomla! Developer Network Developer Eyes on signwork® Manual Preface (2 items) Basic Templating and Site Design (3 items) Advanced Templating (4 items) Modules (4 items) Mambots (8 items) Components (3 items) Language (1 items) Packaging (1 items) Access Control (1 items) Accessibility, Usability and Standards (4 items) Development Standards Developer Manual - JoomlaCode This manual also serves as a lighthouse to the Joomla developer community, to safely guide developers around the pitfalls of becoming lackadaisical with respect to writing clean, beautiful code. The Joomla Coding Standards borrows heavily from the PEAR coding standard for PHP files, augmenting and diverging where it is deemed sensible to do so. Coding Standards Manual - Joomla! Developer Network™ Joomla is a great Content Management System with a lot of flexibility and with an easy-to-use user interface that a lot of people get intimidated about when they realize how many options and configurations are available. THE

COMPLETE BEGINNERS GUIDE TO JOOMLA The developers section will help to answer more technical questions about Joomla! and provides detailed articles in regards to the code and functionality included in Joomla. Read Developer Docs. Designers The designers section pays special attention to the user interface and user experience sections of Joomla. CMS - Documentation - Joomla! Developer Network™ Use HTML according to its purpose. For example, use heading elements for headings, <p> elements for paragraphs, <a> elements for anchors, etc. Using HTML according to its purpose is important for accessibility, reuse, and code efficiency reasons. <!--Coding Standards Manual - Joomla! Developer Network™ An online collaborative community manual for Joomla! users, developers or anyone interested in learning more about Joomla!
