The definition of 'heavy metal' is often a contentious issue and in this lively and accessible text Andrew Cope presents a refreshing re-evaluation of the rules that define heavy metal as a musical genre. Cope begins with an interrogation of why, during the late 1960s and early 1970s, Birmingham provided the ideal location for the evolution and early development of heavy metal and hard rock. The author considers how the influence of the London and Liverpool music scenes merged with the unique cultural climate, industry and often desolated sites of post-war Birmingham to contribute significantly to the development of two unique forms of music: heavy metal and hard rock. The author explores these two forms through an extensive examination of key tracks from the first six albums of both Black Sabbath and Led Zeppelin, in which musical, visual and lyrical aspects of each band are carefully compared and contrasted in order to highlight the distinctive innovations of those early recordings. In conclusion, a number of case studies are presented that illustrate how the unique synthesis of elements established by Black Sabbath have been perpetuated and developed through the work of such bands as Iron Maiden, Metallica, Pantera, Machine Head, Nightwish, Arch Enemy and Cradle of Filth. As a consequence, the importance of heavy metal as a genre of music was firmly established, and its longevity assured.

If you can play a few tunes on the bluegrass banjo but haven't played much with others (or at all), this book will show you what you need to know to sit in on a hot jam session. Geared toward beginner and intermediate players, this book covers playing chords, including which ones to play and when to play them. You'll also discover how jam sessions work and how to act in a session, along with advice on practicing at home. The included CD contains nine tunes performed at a typical jam session. The music is on the left channel with dialog about the tunes such as the name, the key, and the chord progression on the right.

Quintessentially British, Genesis spearheaded progressive rock in the 1970s, evolving into a chart-topping success through the end of the millennium. Influencing rock groups such as Radiohead, Phish, Rush, Marillion and Elbow, the experimental format of Genesis' songs inspired new avenues for music to explore. From the 23-minute masterpiece "Supper's Ready," via the sublime beauty of "Ripples" and the bold experimentation of "Mama", to hits such as "Invisible Touch" and "I Can't Dance," their material was inventive and unique. This book is the chronological history of the band's music, with critical analysis and key details of each of the 204 songs Genesis recorded and released.

Ann Pancake's 2007 novel *Strange As This Weather Has Been* exposed the devastating fallout of mountaintop removal mining on a single West Virginia family. In *Me and My Daddy Listen to Bob Marley*, a follow-up collection of eleven astonishing novellas and short stories, Pancake again features characters who are intensely connected to their land--sometimes through love, sometimes through hate--and who experience brokenness and loss, redemption and revelation, often through their relationships to places under siege. Retired strip miners find themselves victimized by the industry that supported them; a family breaks down along generation lines over a fracking lease; children transcend addict parents and adult suicide; an urban woman must confront her skepticism about worlds behind this one when she finds bones through a mysterious force she can't name. *Me and My Daddy Listen to Bob Marley* explores poverty, class, environmental breakdown and social collapse while also affirming the world's sacredness. Ann Pancake's ear for the Appalachian dialect is both pitch-perfect and respectful, that of one who writes from the heart of this world. Her firsthand knowledge of her rural place and her exquisite depictions of the intricacies of families may remind one of Alice Munro.

When it was first published in 1989, *The Mambo Kings Play Songs of Love* became an international bestselling sensation, winning rave reviews and the Pulitzer Prize for Fiction. To celebrate its 20th anniversary, the Pulitzer Prize-winning novel that changed the landscape of American literature returns with a new afterword by Oscar Hijuelos. Here is the story of the memorable Castillo brothers, from Havana to New York's Upper West Side. The lovelorn songwriter Nestor and his macho brother Cesar find success in the city's dance halls and beyond playing the rhythms that earn them their band's name, as they struggle with elusive fame and lost love in a richly sensual tale that has become a cultural touchstone and an enduring favorite.

Ian Johnson's evaluation of Alwyn's film music places his achievement in the context of wider movements within the film industry. William Alwyn was a leading composer of British film music in the 1940s and '50s, a time when the British film industry was at its peak. His scores ranged from documentaries to almost 80 full-length feature films, including classics such as *Fires were Started*, *Desert Victory*, *Odd Man Out*, *The Fallen Idol*, and *The History of Mr Polly*; he was adept at any musical genre, from classical to cartoon slapstick, and in the process worked with legendary directors, including Carol Reed, David Lean, Humphrey Jennings, and Anthony Asquith. Alone with Vaughan Williams he was granted the distinction of a separate title credit; columnists mentioned him alongside Bliss, Bax and Walton. However, as the reputation of the British film industry declined in the 1950s, so musical snobbery against those who were its leading lights became unpleasantly raw. In recent years, however, with sensitive performances of his film and concert music available on CD, this most appealing of composers has enjoyed something of a renaissance. In this long overdue reassessment, Alwyn's films are analysed and put into the context of his biography, the film industry, and of society at large: the author shows in particular this remarkably versatile composer developed a hitherto unrecognised grammar of film music which enhanced every film on which he worked. He also examines his work for war propaganda, radio, and the concert hall. The volume is enhanced by the most complete filmography, discography, and bibliography of the composer's works yet published, as well as listings of his concert and radio music.

Blues Book of the Year —26th Annual Living Blues Awards Contributions by Luther Allison, John Broven, Daniel Droixhe, David Evans, William Ferris, Jim O'Neal, Mike Rowe, Robert Sacré, Arnold Shaw, and Dick Shurman Fifty years after Charley Patton's death in 1934, a team of blues experts gathered five thousand miles from Dockery Farms at the University of Liege in Belgium to honor the

life and music of the most influential artist of the Mississippi Delta blues. This volume brings together essays from that international symposium on Charley Patton and Mississippi blues traditions, influences, and comparisons. Originally published by Presses Universitaires de Liège in Belgium, this collection has been revised and updated with a new foreword by William Ferris, new images added, and some essays translated into English for the first time. Patton's personal life and his recorded music bear witness to how he endured and prevailed in his struggle as a black man during the early twentieth century. Within this volume, that story offers hope and wonder. Organized in two parts—"Origins and Traditions" and "Comparison with Other Regional Styles and Mutual Influence"—the essays create an invaluable resource on the life and music of this early master. Written by a distinguished group of scholars, these pieces secure the legacy of Charley Patton as the fountainhead of Mississippi Delta blues.

Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine combining music, art, poetry, literature, architecture and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. Imagination and mathematics, imagination and culture, culture and mathematics. This sixth volume in the series begins with a homage to the architect Zaha Hadid, who died on March 31st, 2016, a few weeks before the opening of a large exhibition of her works in Palazzo Franchetti in Venice, where all the Mathematics and Culture conferences have taken place in the last years. A large section of the book is dedicated to literature, narrative and mathematics including a contribution from Simon Singh. It discusses the role of media in mathematics, including museums of science, journals and movies. Mathematics and applications, including blood circulation and preventing crimes using earthquakes, is also addressed, while a section on mathematics and art examines the role of math in design. A large selection presents photos of mathematicians and mathematical objects by Vincent Moncorge. Discussing all topics in a way that is rigorous but captivating, detailed but full of evocations, it offers an all-embracing look at the world of mathematics and culture.

Giacomo Puccini, composer of some of the world's most popular operas, including *La Bohème*, *Tosca*, and *Madama Butterfly*, was also a highly literary person who based his librettos on existing works of literature. This work explores that literary inheritance in an effort to enhance the listener's

appreciation of the operatic experience. The author argues that the majority of Puccini's operas compose a grand cycle that finds its roots in the romance genre of 12th century France, serving to celebrate the strong, independent heroine. Via a close examination of the source works, the librettos, and the scores, this book offers fresh perspective on Puccini's legacy.

Robert Schumann was a unique personality in 19th century music: a celebrated music critic and champion of new composers as well as a talented performer and composer himself, he did much to modernize the literature and performance style for the piano. This book covers the key period of c. 1815-55, exploring how the generation that came after Beethoven was central in reshaping and refining the conception of the concerto style, and particularly the piano concerto. It relates Schumann's own compositional development to his musical environment, recreating the exciting milieu in which Schumann and his contemporaries lived and worked. Written in scholarly, but non-technical language, *Robert Schumann and the Development of the Piano Concerto* will appeal to college and conservatory teachers and students, as well as music connoisseurs. Also includes 60 musical examples.

Fresh and innovative takes on the dissemination of music in manuscript, print, and, now, electronic formats, revealing how the world has experienced music from the sixteenth century to the present. This collection of essays examines the diverse ways in which music and ideas about music have been disseminated in print and other media from the sixteenth century onward. Contributors look afresh at unfamiliar facets of the sixteenth-century book trade and the circulation of manuscript and printed music in the seventeenth to nineteenth centuries. They also analyze and critique new media forms, showing how a dizzying array of changing technologies has influenced what we hear, whom we hear, and how we hear. The repertoires considered include Western art music -- from medieval to contemporary -- as well as popular music and jazz. Assembling contributions from experts in a wide range of fields, such as musicology, music theory, music history, and jazz and popular music studies, *Music in Print and Beyond: Hildegard von Bingen to The Beatles* sets new standards for the discussion of music's place in Western cultural life. Contributors: Joseph Auner, Bonnie J. Blackburn, Gabriela Cruz, Bonnie Gordon, Ellen T. Harris, Lewis Lockwood, Paul S. Machlin, Roberta Montemorra Marvin, Honey Meconi, Craig A. Monson, Kate van Orden, Sousan L. Youens. Roberta Montemorra Marvin teaches at the University of Iowa and is the author of *Verdi the Student -- Verdi the Teacher* (Istituto Nazionale di Studi Verdiani, 2010) and editor of *The Cambridge Verdi Encyclopedia* (Cambridge University Press, 2013). Craig A. Monson is Professor of Musicology at Washington University (St Louis, Missouri) and is the author of *Divas in the Convent: Nuns, Music, and Defiance in Seventeenth-Century Italy* (University of Chicago Press, 2012).
