This work magnificently reproduces the text figures and full color plates of H.B. Brady's famous 1884 Challenger report, long unavailable except in the original, rare volumes. The book reproduces in beautiful color the plates from the original report, which is considered the standard reference on the foraminifera. Robert Wynn Jones has updated the taxonomy with new annotations to the original Challenger plates, providing identifications to nearly 1,000 species, locality details, and comments of the status of certain specimens. The introduction highlights the scientific importance of the expedition and details Brady's unique contribution to foraminiferology. Appendices include a suggested suprageneric classification of the foraminifera as well as ecological and stratigraphic ranges of selected species. A complete reference list and taxonomic index round off the book. This beautifully rendered work will interest micropalaeontologists, marine biologists, oceanographers, science historians, as well as oil industry professionals.

La instalación presentada recurre al hierro y al cristal para crear volúmenes de alta tecnología; un líquido de color rojo fluye goteando desde lo alto con ritmos distintos para caer y explotar dentro de unas jaulas, desde las cuales, por medio de una bomba y a través de un circuito, se irá llenando lentamente la superficie casi plana de las mesas para luego volver a subir y empezar de nuevo. Las gotas son el sonido de la exposición, un tintineo que de suave y placentero llega a ser casi violento, hasta hacerse silencio en el momento mismo en que la superficie de las mesas se convierte en pintura, en un gran monocromo color púrpura. Barclay pretende mostrar el contraste entre belleza y comfort, encerrándonos en un gran corazón que late, donde la calma se entremezcla temporalmente con la angustia.

This volume of twenty-three essays appears in recognition of the emergence of peace history as a relatively new and coherent field of learning. ... these essays were presented at an international conference "The Pacifist Impulse in Historical Perspective". ... A new comprehensive monograph on the work of an enduring icon of contemporary art. Compiled in close collaboration with the artist and unprecedented in its scope, this definitive book collects ten years of Tracey Emin's drawings, paintings, sculptures, appliqués and embroideries, neons, video stills, and installations. A multimedia artist whose intensely personal work blurs the boundaries between art and life, Emin remains one of the most highly publicized contemporary British artists and continues to stir as much controversy as she has acclaim. Moving chronologically through a prolific decade of work—from major public installations to recent reflective paintings and sculptures—this book shows a coherent vision that defies the idiosyncrasies of Emin's evolution as an artist. The same mixture of anger, hope, curiosity, and vulnerability that informs her delicate drawings and handwritten neon works can be felt in the darker tones of recent monoprints and the weight of later bronze pieces. Written by Jonathan Jones, whose text places Emin's work in a broad art-historical context and sees this recent decade of her artwork as an entry point to examining her full career, this is a beautiful monograph on one of the world's most influential living artists.

During a sweltering East Texas summer, 13-year-old Stanley Mitchel Jr. begins a journey of awakening. His family runs the town's drive-in movie theater, where Stanley spends his time helping out, reading ten-cent comics, playing with his dog Nub and generally living a boy's life, circa 1958. When Stanley discovers a cache of old love-letters and starts to unravel a local mystery, however, he finds himself confronting secrets of ghosts, women, sex, race and his own courage. As he tells it, "I felt as if something living inside of me had been stolen, taken away and mistreated, then returned without all of its legs." Ultimately, it's a story about taking a clear-eyed look behind the veil and acknowledging the truth of things, without succumbing to them.

This celebrated masterpiece is Oscar Wilde's only novel. A mesmerizing tale of horror and suspense, it has endured due to its artful prose and the philosophical questions it raises, as well as the scandal it caused upon its initial publication in 1890. Written in his distinctively dazzling manner and combining aspects of a Gothic horror novel and decadent French fiction, Wilde forges a devastating account of the effects of evil and depravity on a fashionable young man in late 19th century England who sells his soul in exchange for eternal youth and beauty. A concept that Wilde derived from the German legend of Faust, Gray is the subject of a portrait by painter Basil Hallward who deems his subject's beauty to be inconceivably great. Rather than having to age himself, an egotistical Dorian wishes for the painting to age instead of him so that he can retain his youthful good looks. Gray plunges into a life of vice and debauchery with its sole aim being pleasure. His body retains perfect youth and vigor while the portrait changes day by day into a ghastly chronicle of evil, documenting each of his sins with its appearance, which he must keep hidden from the world. This spellbinding novel tale that warns its readers of the dangers that come with narcissism, self-indulgence, and ignorance still ranks as one of Wilde's most important works. Of Gray's relationship to him, Wilde noted "Basil Hallward is what I think I am: Lord Henry what the world thinks me: Dorian what I would like to be—in other ages, perhaps."

The painting of Michelangelo Merisi called Caravaggio (1571-1610) had such a vast influence that, according to modern scholars, it constituted an "epochal turning point" not only in Italian but also European art. This volume recounts the master's life through lights and shadows, masterpieces and scandals, presenting the paintings that scholars have unanimously acknowledged to be autograph works on the basis of documentary evidence that has emerged in recent years. It analyzes his revolutionary painting skills at a technical and creative level, and depicts a remarkably alive and realistic picture of Caravaggio the "man" and his journey: the move from Lombardy to Rome, followed by his dramatic flight to Naples, Malta, Sicily, and back to Naples again, ending with his tragic death. -- From publisher's description.

In the mold of his acclaimed *History of Beauty*, renowned cultural critic Umberto Eco's *On Ugliness* is an exploration of the monstrous and the repellant in visual culture and the arts. What is the voyeuristic impulse behind our attraction to the gruesome and the horrible? Where does the magnetic appeal of the sordid and the scandalous come from? Is ugliness also in the eye of the beholder? Eco's encyclopedic knowledge and captivating storytelling skills combine in this ingenious study of the Ugly, revealing that what we often shield ourselves from and shun in everyday life is what we're most attracted to subliminally. Topics range from Milton's Satan to Goethe's Mephistopheles; from witchcraft and medieval torture tactics to martyrs, hermits, and penitents; from lunar births and disemboweled corpses to mythic monsters and sideshow freaks; and from Decadentism and picturesque ugliness to the tacky, kitsch, and camp, and the aesthetics of excess and vice. With abundant examples of painting and sculpture ranging from ancient Greek amphorae to Bosch, Brueghel, and Goya among others, and with quotations from the most celebrated writers and philosophers of each age, this provocative discussion explores in-depth the concepts of evil, depravity, and darkness in art and literature.
