 It possible to see
 across space and time
 Even those who accept
 that humans can reach
 beyond the
 conventional five
 senses typically think
 of psychics as special
 or gifted with unusual
 abilities. But David
 Morehouse teaches
 other wise all human
 beings, including you,
 have the innate
 capacity for Remote
 Viewing. David
 Morehouse was trained
 by the U.S.
 government in Remote
 Viewing an exact
 scientific protocol for
 tapping the human
 power to gather
 information across
 space and time. In this
 comprehensive
 manual, he has taken
 his military training as

an operational Remote Viewer and turned it into a step-by-step training system one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows. You have the ability to do this, Morehouse says. Something extraordinary is absolutely possible in your life. Remote Viewing is more than simply a method for gathering information. It is a transformational tool instilling within you the absolute and irrefutable evidence that you are more than human that you are extraordinarily human. As you gain experience and confidence as a Viewer, you will tap into the collective unconscious that connects you to

everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought. [A Wrinkle in Time](#) Simon and Schuster "When I finished Witness to Roswell, I said to myself, 'Case closed!' for the very wealth and sheer weight of eyewitness testimony."—George Noory, host, Coast to Coast AM This classic in the field of UFOology is filled with hard-hitting eyewitness testimony of one of the most important events of all time: the actual recovery of a UFO outside of Roswell, New Mexico, in 1947. For more than 70

years, government authorities have led us to believe the wreckage was merely a very conventional weather balloon—but the witnesses who were there continue to tell a different story. Witness to Roswell once again provides a "can't put down" written account of what really transpired in Roswell decades ago. It pries loose the truth the government doesn't want us to know including the revelations of Walter Haut. This edition includes: A growing litany of deathbed confessions describing the "little people" recovered at the crash site. The most comprehensive time line of events ever published on this seminal event. The identity of the Boeing

engineer called in to examine the exotic wreckage from the crash. What really took place at the Roswell base hospital and what nurse actually ordered the children's caskets. The story of the soldier who wore gloves at the dinner table after guarding the "bodies." Clearly, the implications of this information are foreboding. One need only look at the fact that officials now have four explanations for this historic event—but to which one do all the witnesses testify on their deathbeds? Witness to Roswell once again demonstrates to the world that no statute of limitation applies to the truth: We are not alone. This anniversary edition includes a new introduction by the

authors and additional material.

The Flying Saucers are Real

ReadHowYouWant.com Wendy McMurdo is one of the UK's leading lens-based artists who has evolved a singular photographic practice and iconography that explores the role digital technologies play in the construction of identity, particularly in relation to the psychological world of children and young people. The artist's

new body of work, *The Skater*, draws inspiration from Sir Henry Raeburn's painting *Reverend Walker Skating on Duddingston Loch*, widely regarded as an image characteristic of the Scottish enlightenment. McMurdo's image of the skater presents a similarly evocative motif. However, her work reflects a less utopian view, examining the impact of virtual technology on the lives of the young. The series is completed by striking portraits of young 'gamers', capturing a generation immersed in computer-mediated experiences. In collaboration with filmmaker Paul Holmes, she explores a circuitous world in which fantasy slides

into reality and back again in her first film work, premiered at Ffotogallery, entitled *The Loop*. Published by Ffotogallery to mark its 30th anniversary commission.

Even before she reached the rink, Cammie knew something wasn't right. 'What's wrong? Why are the police here?' Coach Ferguson's pale blue eyes narrowed. 'Cammie, didn't you hear the announcement? A skater is missing.' Every skater in Skateland is excited about the upcoming show devoted to the history of figure skating. Except Cammie. She hates practicing boring figures and participating in an old-fashioned group

number. But when Cammie's roommate—the show's star performer—goes missing during the dress rehearsal, Cammie is ignited with passion to rescue her friend at all cost. She learns of a magical skating history book that can transport people back in time. Cammie suspects foul play by the evil skating witches and, with the help of her best friend Alex, travels back into time to rescue the missing skater before it's too late. Readers will love learning ice-skating history as Cammie and Alex travel to sixteenth-century Holland and nineteenth-century England, meeting famous skaters such as Jackson Haines, Sonja Henie, and Ulrich Salchow. Will this be

the end of Cammie, Alex and their friend? You will find the answer in Cammie and Alex's Adventures in Skating History, Olga Jaffae's third book in the Skateland series. *UFO Secrets Inside Wright-Patterson Red Wheel/Weiser* Fifty years ago, L'Engle introduced the world to "A Wrinkle in Time." Noura Books Profiles the figure skater, from the mystery surrounding his birth to the long string of faraway rinks and coaches that led him to four consecutive world championships and to Olympic gold *Inside the Real Area 51* DigiCat The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra top-secret Air Force base in Dayton, Ohio. The physical evidence of

extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world...pieces of history, now quickly dwindling into oblivion as the last of the secret-keepers passes on. In spite of its rich history of military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. But be prepared...the real Area 51--Wright-Patterson's vault--is about to be opened.

Keyhoe, printed in 1950, is one of the first books investigating numerous encounters between the United States Air Force fighters, personnel, and other aircraft and UFOs between 1947 and 1950. The author contended that the Air Force was investigating these cases of close encounters, with a policy of concealing. Keyhoe also said that Earth had been visited by extraterrestrials for two centuries, with the frequency of these visits increasing sharply after the first atomic weapon test in 1945.

—Andrew Liptak in Kirkus "A coming of age fantasy story that sympathizes with typical teen girl awkwardness and insecurity, highlighting courage, resourcefulness and the importance of family ties as key to overcoming them."

—Carol Platt Liebau, author, in the New York Post "An exhilarating experience." —Kirkus Reviews "This imaginative book will be read for a long time into the future."

—Children's Literature "A Wrinkle in Time is one of my favorite books of all time. I've read it so often, I know

it by heart. Meg Murry was my hero growing up. I wanted glasses and braces and my parents to stick me in an attic bedroom. And I so wanted to save Charles Wallace from IT.” —Meg Cabot “A book that every young person should read, a book that provides a road map for seeking knowledge and compassion even at the worst of times, a book to make the world a better place.”

—Cory Doctorow “[L'Engle's] work is one of the things that made me a writer, a science fiction and fantasy fan, an avid reader. Hers were the first books I read that mixed math and magic, the quest and the quantum.”

—Scott Westerfeld “A Wrinkle in Time taught me that you can tackle even the deepest and

most slippery concepts of physics and philosophy in fiction for young readers. It's a great lesson for all writers, and a tough tesseract to follow.”

“What if the UFO cover-up is real and what if it ended? After

Disclosure poses this fascinating question and looks at the societal consequences of such a revelation.

Richard Dolan and Bryce Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life.”

—Nick Pope, Former Chief of UK Ministry of Defence UFO Desk
What if UFO secrecy

ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn't afraid to make mind-blowing, specific predictions, such as:

Congress will hold Watergate-style hearings and ask secret-keepers, "What did you know and when did you know it?" The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth--from history to science--will need an immediate review. Whether disclosure leads to social panic or ushers in a new era of unity and peace, it will undoubtedly be a game-changing event. *A Wrinkle in time* "Extraordinary Encounters: An Encyclopedia of Extraterrestrials and

Otherworldly Beings" is the first ever illustrated A-Z encyclopedia to explore these fascinating modern day beliefs, personalities, beings, and events. Among the beings you'll meet in its pages are Abraham, a collection of highly evolved entities that

speak in one voice; Metranon, the divine interface between God and the Outer Worlds (and sometime Old Testament angel); and The Planetary Council, whose members include Jove, Merlin, Quetzalcoatl, and Lao-Tzu.
