The official playscript of the original West End production of Harry Potter and the Cursed Child. It was always difficult being Harry Potter and it isn't much easier now that he is an overworked employee of the Ministry of Magic, a husband, and father of three school-age children. While Harry grapples with a past that refuses to stay where it belongs, his youngest son Albus must struggle with the weight of a family legacy he never wanted. As past and present fuse ominously, both father and son learn the uncomfortable truth: sometimes, darkness comes from unexpected places. The playscript for Harry Potter and the Cursed Child was originally released as a 'special rehearsal edition' alongside the opening of Jack Thorne's play in London's West End in summer 2016. Based on an original story by J.K. Rowling, John Tiffany and Jack Thorne, the play opened to rapturous reviews from theatregoers and critics alike, while the official playscript became an immediate global bestseller. This revised paperback edition updates the 'special rehearsal edition' with the conclusive and final dialogue from the play, which has subtly changed since its rehearsals, as well as a conversation piece between director John Tiffany and writer Jack Thorne, who share stories and insights about reading playscripts. This edition also includes useful background information including the Potter family tree and a timeline of events from the wizarding world prior to the beginning of Harry Potter and the Cursed Child.

The Oxford Handbook of Children's Musical Cultures is a compendium of perspectives on children and their musical engagements as singers, dancers, players, and avid listeners. Over the course of 35 chapters, contributors from around the world provide an interdisciplinary enquiry into the musical lives of children in a variety of cultures, and their role as both preservers and innovators of music. Drawing on a wide array of fields from ethnomusicology and folklore to education and developmental psychology, the chapters presented in this handbook provide windows into the musical enculturation, education, and training of children, and the ways in which they learn, express, invent, and preserve music. Offering an understanding of the nature, structures, and styles of music preferred and used by children from toddlerhood through childhood and into adolescence, The Oxford Handbook of Children's Musical Cultures is an important step forward in the study of children and music.

A Saint in Seattle is the inspiring and unlikely life story of a modern buddha. In 1960, the Tibetan lama Dezhung Rinpoche (1906-87) arrived in Seattle after being forced into exile from his native land by the Communist Chinese. Already a revered master of the teachings of all Tibetan Buddhist schools, he would eventually become a teacher of some Western Buddhism's most noted scholars.

Diverse Spaces of Childhood and Youth focuses on the diverse spaces and discourses of children and youth globally. The chapters explore the influence of gender, age and other socio-cultural differences, such as race, ethnicity and migration trajectories, on the everyday lives of children and youth in a range of international contexts. These include the diverse urban environments of Istanbul, Copenhagen, Helsinki, Toronto, London, and Bratislava and the contrasting rural settings of Ghana and England. The analyses of children's, young people's, parents' and professionals' experiences and discourses provide critical insights into how gender and other socio-cultural differences intersect. The importance of everyday practices and performances in the

formation of children's and young people's identities is revealed, through for example, friendships and everyday sociality, mobilities and movements across space in both rural and urban environments. The volume shows how discourses of childhood, particularly those associated with risk, intersect with difference. The recognition of young people's agency and participation is central to many of the chapters, whilst also raising methodological questions about how discourses of childhood and youth are researched. Overall, the book provides an original contribution to geographies of children, youth and families and research on diversity and difference in global contexts. This book was published as a special issue of Children's Geographies. A History of the World To-day for the Men and Women of Tomorrow e-artnow

Seattle Sports: Play, Identity, and Pursuit in the Emerald City, edited by Terry Anne Scott, explores the vast and varied history of sports in this city where diversity and social progress are reflected in and reinforced by play. The work gathered here covers Seattle's professional sports culture as well as many of the city's lesser-known figures and sports milestones. Fresh, nuanced takes on the Seattle Mariners, Supersonics, and Seahawks are joined by essays on gay softball leagues, city court basketball, athletics in local Japanese American communities during the interwar years, ultimate, the fierce women of roller derby, and much more. Together, these essays create a vivid portrait of Seattle fans, who, in supporting their teams—often in rain, sometimes in the midst of seismic activity—check the country's implicit racial bias by rallying behind outspoken local sporting heroes.

James Daniel Nelson first hit the streets as a teenager in 1992. He joined a clutch of runaways and misfits who camped out together in a squat under a Portland bridge. Within a few months the group—they called themselves a "family"—was arrested for a string of violent murders. While Nelson sat in prison, the society he had helped form grew into a national phenomenon. Street families spread to every city from New York to San Francisco, and to many small towns in between, bringing violence with them. In 2003, almost eleven years after his original murder, Nelson, now called "Thantos", got out of prison, returned to Portland, created a new street family, and killed once more. Twelve family members were arrested along with him. Rene Denfeld spent over a decade following the evolution of street family culture. She discovered that, contrary to popular belief, the majority of these teenagers hail from loving middle-class homes. Yet they have left those homes to form insular communities with cultish hierarchies, codes of behavior, languages, quasireligions, and harsh rules. She reveals the extremes to which desperate teenagers will go in their search for a sense of community, and builds a persuasive and troubling case that street families have grown among us into a dark reversal of the American ideal.

The Testimonies of Slaves Taylor & Francis

Musaicum Books presents to you this meticulously collection of hundreds of life stories, recorded interviews and incredible vivid testimonies of former slaves from the American southern states, including photos of the people being interviewed and their extraordinary narratives. After the end of Civil War in 1865, more than four million slaves were set free. There were several efforts to record the remembrances of the former slaves. The Federal Writers' Project was one such project by the United States federal government to support writers during the Great Depression by asking them to interview and record the myriad stories and experiences of slavery of former slaves. The resulting collection preserved hundreds of life stories from 17 U.S. states that would otherwise have been lost in din of modernity and America's eagerness to deliberately forget the blot on its recent past. Toward a New Critical Paradigm Springer

Studying the case of Latin American cinema, this book analyzes one of the most public - and most exportable- forms of postcolonial national culture to argue that millennial era globalization demands entirely new frameworks for thinking about the relationship between politics, culture, and economic policies. Concerns that globalization would bring the downfall of national culture were common in the 1990s as economies across the globe began implementing neoliberal, free market policies and abolishing state protections for culture industries. Simultaneously, new technologies and the increased mobility of people and information caused others to see globalization as an era of heightened connectivity and progressive contact. Twenty-five years later, we are now able to examine the actual impact of globalization on local and regional cultures, especially those of postcolonial societies. Tracing the full life-cycle of films and studying blockbusters like *City of God*, *Motorcycle Diaries*, and *Children of Men* this book argues that neoliberal globalization has created a highly ambivalent space for cultural expression, one willing to market against itself as long as the stories sell. The result is an innovative and ground-breaking text suited to scholars interested in globalization studies, Latin-American studies and film studies.
