Buy Grapevine Breeding Programs for the Wine Industry by Reynolds, Andrew G. online on Amazon.ae at best prices. Fast and free shipping free returns cash on delivery available on eligible purchase. Grapevine Breeding Programs for the Wine Industry by ...evident that grapevine breeding is a huge challenge due to the complexity of traits and long breeding cycles of about 25 years. Despite some major drawbacks, at the onset of the 20th century rootstocks became available solving the phylloxera crisis. New Horizons for Grapevine Breeding The management of germplasm banks is complex, especially when many accessions are involved. Microsatellite markers are an efficient tool for assessing the genetic diversity of germplasm collections, optimizing their use in breeding programs. This study genetically characterizes a large collection of 410 grapevine accessions maintained at the Agronomic Institute of Campinas (IAC) (Brazil). Genetic structure

and molecular diversity of Brazilian ...Grapevine Breeding Programs for the Wine Industry: Traditional and Molecular Techniques summarizes recent trends in grapevine breeding, both in terms of research and practical programs. The first group of chapters covers the challenges faced by breeders and existing and emerging techniques used to combat them.
