Robotic engineering inspired by biology—biomimetics—has many potential applications: robot snakes can be used for rescue operations in disasters, snake-like endoscopes can be used in medical diagnosis, and artificial muscles can replace damaged muscles to recover the motor functions of human limbs. Conversely, the application of robotics technology to our understanding of biological systems and behaviors—biorobotic modeling and analysis—provides unique research opportunities: robotic manipulation technology with optical tweezers can be used to study the cell mechanics of human red blood cells, a surface electromyography sensing system can help us identify the relation between muscle forces and hand movements, and mathematical models of brain circuitry may help us understand how the cerebellum achieves movement control. *Biologically Inspired Robotics* contains cutting-edge material—considerably expanded and with additional analysis—from the 2009 IEEE International Conference on Robotics and Biomimetics (ROBIO). These 16 chapters cover both biomimetics and biorobotic modeling/analysis, taking readers through an exploration of biologically inspired robot design and control, micro/nano bio-robotic systems, biological measurement and actuation, and applications of robotics technology to biological problems. Contributors examine a wide range of topics, including: A method for controlling the motion of a robotic snake The design of a bionic fitness cycle inspired by the jaguar The use of autonomous robotic fish to detect pollution A noninvasive brain-activity scanning method using a hybrid sensor A rehabilitation system for recovering motor function in human hands after injury Human-like robotic eye and head movements in human-machine interactions A state-of-the-art resource for graduate students and researchers in the fields of control engineering, robotics, and biomedical engineering, this text helps readers understand the technology and principles in this emerging field.

*Your Kingdom Come* combines the burning heart of an evangelist with the burdened heart of an intercessor. This book originated not from a writing desk or a university classroom, but from the front lines of the dusty harvest field where lives and souls hang in the balance; where prayer is not a luxury, but a matter of survival. From cover to cover it is a fast moving, hard-hitting, prophetic, challenge to the people of God to answer the call of intercession in the most urgent hour of history.

Bousquet's landmark book examines the impact of key technologies and scientific ideas on the theory and practice of warfare and the handling of the perennial tension between order and chaos on the battlefield. Spanning the entire modern era, from the Scientific Revolution to the present, it offers a systematic account of modern warfare as the constitution of increasingly complex assemblages of bodies and machines whose integration rests upon a military assimilation of scientific thought. Reflecting the pervasive influence of scientific conceptual frameworks upon warfare, modern armies have been successively organized by reference to the paradigmatic technologies of the clock, engine, computer, and network. Conversely, major scientific developments and technological breakthroughs have become intertwined with the experience of war, especially since the Second World War's unprecedented mobilisation of scientific rationality and technical expertise. This increasingly tight symbiosis between science, technology, and war is at the heart of both the tremendous powers and enduring pathologies displayed by the contemporary military

machine. In this new and revised edition, Bousquet extends the analysis to encompass the latest developments in the scientific way of warfare in the midst of renewed great power competition and a wave of technological innovation in artificial intelligence and robotics.

*Pray Big* Whitaker House

The fall of man resulted in Adam and Eve losing all consciousness of God. They woke up to self and found themselves imprisoned by a completely new nature—the sin nature—which would poison the entire human race for all time. From then until now, the troubles of the world—wars, man's inhumanity to man, his dependency on cruel vices, and the habits of hell—are all caused by the sin nature which rules every person. Of course the death and resurrection of Jesus Christ broke the hold of this deadly yoke and repositioned the believer in Christ. So why do Christians struggle so hard to live for God? In this revelatory book, Evangelist Jimmy Swaggart explains how the sin nature, which remains in Christians, can be reactivated, and how victory over the world, the flesh, and the Devil can only be maintained through faith in the Cross of Christ.

Evangelist Todd White hears those words often. But the truth is that what Todd shares is not just a story - it's a testimony. It is evidence not only of what God has done but of what He wants to do again. It is evidence of what God can and will do for you, of what God wants to do for you. Fully addicted to drugs and pornography as a child, Todd lived in darkness. But his testimony is about a journey from that utter darkness into marvelous light. It is about a man who hungers for the Word of God and has been radically saved, changed by it. It is about a man learning to be exactly who God created him to be. It is about a child of God walking in the light of Jesus and wanting others to walk in the light too. With refreshing honesty, Todd White challenges readers to make Jesus their everything, to renew their minds, to be bold as lions, and to make an impact for the kingdom of God. *Life Is Short-Leave a Legacy*. TODD WHITE was a drug addict and atheist for 22 years until 2004 when he was radically set free! Todd believes that redemption and righteousness are the foundational keys for living life as a new creation in Christ. Todd's foremost desire is to see the Holy Spirit flowing through believers everywhere that they go-at work, school, grocery stores, malls, gas stations, and more. Todd's true joy is being able to reproduce a 24/7 kingdom lifestyle in every believer. His heart is to activate people in the simplicity of who they really are and confront the barriers that hold them back from being who God created them to be. No one is excluded!

In 2001, as Reinhard Bonnke debated whether or not to move his ministry to America, he did something he had never done before: he prayed for a sign to confirm that God truly was calling him to go to America. God was about to answer that prayer. A few days later, a woman brought her husband to the Nigerian church where Bonnke was preaching, in hopes that his partially embalmed body would be raised from the dead after three days in a coffin. Although Bonnke was unaware of this and never even prayed for the man, the woman’s husband, lying in the church basement, began to breathe again during the sermon. In front of thousands of witnesses, this man, who still couldn’t move because of rigor mortis, was raised back to life. After his message, Bonnke was besieged by a crowd yelling, “He’s breathing! He’s breathing!” This incredible miracle, now detailed for the first time, is part of a movement of God, birthed in a small African church and stretching around the world to America. It is the beginning of a work of God that will confirm His word to Bonnke: “America shall be saved.”

**The Mystery of the Magi** Oxford University Press

As many as 96% of Christians are not leading anyone to Jesus. Which means that the vast majority of the wider church is, at best, simply sowing. The kingdom of God, however, requires both sowing and reaping. If we neglect reaping, we will not have a healthy harvest. Jesus at the Door offers a unique tool—an Equipping Card to use with anyone you know, anywhere—and practical, step-by-step instructions, helping readers witness to friends, family, even strangers on the street. This tried-and-tested method is framed around nine points and a picture, and takes about two minutes from introduction to salvation.

Inspiration from the Apostle Paul on how to pray bold, exciting prayers. Inspiration from the Apostle Paul on how to pray bold, exciting prayers. So many of us struggle with prayer. Many books have been written on the subject and there’s a reason for that. Prayer comes hard to most of us, in most seasons. And when we do pray, we often don’t know what to say. What is it that my Father loves to hear about? What are the best things I could pray for my family, my church, and myself? This short book by renowned Bible teacher Alistair Begg combines warmth, clarity, humour, and practicality as he examines Paul’s prayers for his friends in the church in Ephesus. Paul clearly enjoyed prayer, and was excited about it. He expected his Father in heaven to hear what he said, and to act in other

people’s lives accordingly. The truths that underpin and shape his prayers will motivate us to pray and set us an example. So be inspired by the Apostle Paul to pray bigger and better prayers as we look to our heavenly Father to do more than all we ask or imagine!

If your influence only lasts as long as you do, you failed. This book will help you reach your full potential, inspire greatness in your spouse, children, and friends, and leave a legacy that lasts beyond your lifetime. True influence should increase through the lives of those you have poured into, even after you pass away. Our greatest example of this is Jesus. His followers did greater works after He left them. Jesus never wrote a book or traveled outside of Israel, but He was able to use a band of eleven followers to create the largest, most influential movement the world has ever seen. Jesus had no servants, yet they called Him Master. He had no degree, yet they called Him Teacher. He had no medicines, yet they called Him Healer. He had no army, yet kings feared Him. He won no military battles, yet He conquered the world. He committed no crime, yet they crucified Him. He was buried in a tomb, yet He lives today. In *The Jesus Principles*, Joseph Mattera helps you unleash greatness in yourself, but even more importantly, in your circle of influence—your spouse, children, friends, and family. Following Jesus’ example, you will be empowered to leave a legacy of helping others fulfill their own potential so that after you have passed, you are still speaking! Become part of a great cloud of witnesses who help to unleash human potential in one another. The four Gospels are not only compilations of important moral and spiritual sayings, but they also contain principles that can enable us to move from potential to fulfillment of purpose.

It’s a true holiday story for the whole family!
