His main beekeeping interest is queen rearing based on our native bee *Apis mellifera mellifera*. He started up the Belfast Minnowburn queen rearing group in 2012 and is currently involved with a new queen rearing group in Co. Tyrone, which started up in 2020. *Webinars - BIBBA* A beehive is an enclosed structure in which some honey bee species of the subgenus *Apis* live and raise their young. Though the word beehive is commonly used to describe the nest of any bee colony, scientific and professional literature distinguishes nest from hive. Nest is used to discuss colonies that house themselves in natural or artificial cavities or are hanging and exposed.
