RAMOS ROACH

The Drowned and the Saved Univ of California Press
 Historians, classicists, and archeologists will welcome Professor Turner's lucid introduction to the field of Greek papyrology. The relatively recent rediscovery of Greek (and Latin) texts on papyrus has made possible greatly improved editions of classic works and has provided a deeper understanding of life in classical times. Professor Turner considers papyrus as a writing material, goes on to the problems of excavating for papyri, editing a papyrus text, determining its author and owners, and so on. He discusses the relation of papyri to Greek literature as well as to various types of non-literary documents, and he assesses various contributions papyri have made to ancient history. A list of the principal editions of papyri is included. Originally published in 1968. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these

important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Gnostic Religion Yen Press LLC

An influential economist challenges popular opinions about the superiority of locally grown and expensive foods, demonstrating how to eat responsibly without submitting to fashion-driven trends. By the author of the best-selling e-book, *The Great Stagnation*. 35,000 first printing.

The Comedies of Carlo Goldoni Simon and Schuster

More than 50 years after independence, *Algerian Chronicles*, with its prescient analysis of the dead end of terrorism, appears here in English for the first time. Published in France in 1958—the year the war caused the collapse of the Fourth French Republic—it is one of Albert Camus' most political works: an exploration of his commitment to Algeria.

Greek Papyri Dark Horse Comics

Drawing on social science perspectives, *Contested Categories* presents a series of empirical studies that engage with the often

shifting and day-to-day realities of life sciences categories. In doing so, it shows how such categories remain contested and dynamic, and that the boundaries they create are subject to negotiation as well as re-configuration and re-stabilization processes. Organized around the themes of biological substances and objects, personhood and the genomic body and the creation and dispersion of knowledge, each of the volume's chapters reveals the elusive nature of fixity with regard to life science categories. With contributions from an international team of scholars, this book will be essential reading for anyone interested in the social, legal, policy and ethical implications of science and technology and the life sciences.

Myth, Faith, and Hermeneutics Simon and Schuster

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Lumen Gentium Createspace Independent Publishing Platform
In the 1990s Svetlana Broz, granddaughter of former Yugoslav head of state Marshal Tito, volunteered her services as a physician in war-torn Bosnia. She discovered that her patients were not only in need of medical care, but that they urgently had a story to tell, a story suppressed by nationalist politicians and the mainstream media. What Broz heard compelled her to devote herself over the next several years to the collection of firsthand testimonies from the war. These testimonies show that ordinary people can and do resist the murderous ideology of genocide even under the most terrible historical circumstances. We are introduced to Mile Plakalovic, a magnificent humanist, who drove his taxi through the streets of Sarajevo, picking the wounded up off the sidewalk and delivering food and clothing to young and old, even when the bombing was at its worst. We meet Velimir Milosevic, poet, who traveled with an actor and entertained children as they hid in basements to avoid the bombing and gunfire, and we hear the stories of countless others who put themselves in grave danger to help others, regardless of ethnic background. Faced with a world in which unspeakable crimes not only went unpunished but were rewarded with glory, profit, and power, the Bosnians of all faiths who testify in this book were starkly confronted with the limits and possibilities of their own ethical choices. Here, in their own words they describe how people helped one another across ethnic lines and refused the myths promoted by the engineers of genocide. This book refutes the stereotype of inevitable natural enmities in the Balkans and reveals the responsibility of individual actions and political manipulations for the genocide; it is a searing portrait of the experience of war as well as a provocative study of the possibilities of resistance and solidarity. The testimonies reverberate far beyond the frontiers of the former Yugoslavia. This compelling book is essential reading for anyone who wants to understand the reality on the ground of the ethnic conflicts of

the late twentieth and the twenty-first centuries.

Good People in an Evil Time Harvard University Press

A new translation and analysis of the gospel that records the actual words of Jesus • Explores the gnostic significance of Jesus's teachings recorded in this gospel • Explains the true nature of the new man whose coming Jesus envisioned • Translated and interpreted by the author of the bestselling *The Gospel of Mary Magdalene* and *The Gospel of Philip* One of the cache of codices and manuscripts discovered in Nag Hammadi, the Gospel of Thomas, unlike the canonical gospels, does not contain a narrative recording Christ's life and prophecies. Instead it is a collection of his teachings--what he actually said. These 114 logia, or sayings, were collected by Judas Didymus Thomas, whom some claim to be Jesus's closest disciple. No sooner was this gospel uncovered from the sands of Upper Egypt than scholars and theologians began to bury it anew in a host of conflicting interpretations and polemics. While some say it is a hodgepodge from the canonical gospels, for others it is the source text from which all the gospel writers drew their material and inspiration. In this new translation of the Gospel of Thomas, Jean-Yves Leloup shows that the Jesus recorded by the "infinitely skeptical and infinitely believing" Thomas has much in common with gnostics of non-dualistic schools. Like them, Jesus preaches the coming of a new man, the genesis of the man of knowledge. In this gospel, Jesus describes a journey from limited to unlimited consciousness. The Jesus of Thomas invites us to drink deeply from the well of knowledge that lies within, not so that we may become good Christians but so we may attain the self-knowledge that will make each of us, too, a Christ.

Contested Categories Beacon Press

We live in a world where the one-time opposition between things and humans has been transformed, where the center of contemporary sensibility is the encounter between philosophy and sexuality, where sex extends well beyond both the act and the body. We live in a world where to be sexy is to ignore the distinctions between animate and inanimate objects of desire, where the aesthetics of sex are being revolutionized. An organic sexuality, based on sex difference and driven by desire and pleasure, is being replaced by a neutral, inorganic and artificial sexuality, a sexuality always available but indifferent to beauty, age or form, a sexuality freed by thought from nature. *The Sex Appeal of the Inorganic* takes the reader on a radical, new tour of Western philosophy—from Descartes, Kant and Hegel to Heidegger, Wittgenstein and Sartre—to reframe our understanding of personal experience and the aesthetic, to examine how, if we are to remember how to feel, we must become a thing who feels, we must think ourselves closer to the inorganic world and move further from our bodies.

As an associate of C. G. Jung for many years, Jolande Jacobi is in a unique position to provide an interpretation of his work. In this volume, Dr. Jacobi presents a study of three central, interrelated concepts in analytical psychology: the individual complex, the universal archetype, and the dynamic symbol.

Democracy Stares into the Abyss Rajneesh Foundation International

This book gives a remarkably fine account of the influences mathematics has exerted on the development of philosophy, the physical sciences, religion, and the arts in Western life.

Maternita Simon and Schuster

"The early settlers dubbed California The Golden State, and The Land of Milk and Honey. Today there are the obvious ironies -- sprawl, spaghetti junctions and skid row--but the place is not so easily distilled or visualized, either as a clichéd paradise or as its demise. There's a strange kind of harmony when it's all seen

together--the sublime, the psychedelic, the self-destructive. Like all places, it's unpredictable and contradictory, but to greater extremes. Cultures and histories coexist, the beautiful sits next to the ugly, the redemptive next to the despairing, and all under a strange and singular light, as transcendent as it is harsh. The pictures in this book begin in the desert east of Los Angeles and move west through the city, ending at the Pacific. This general westward movement alludes to a thirst for water, as well as the original expansion of America, which was born in the East and which hungrily drove itself West until reaching the Pacific, thereby fulfilling its "manifest" destiny." -- Publisher's description
Technology and Culture in Greek and Roman Antiquity Penguin
 Is love in the air between lowly servant Issei and his mistress, the bewitching Rias?! Reincarnated as a demon by Rias, the school beauty, Issei finds himself in servitude to his devilish mistress. But when Issei befriends Sister Asia, a nun from the Church, which is widely known to be hostile to demonkind, he's practically asking for a target on his back-as Rias is quick to inform him! Worse yet, when the good sister is kidnapped by a fallen angel, Issei rushes to her aid! But little does he know that Heaven plays dirty...!

Ovid and Augustan Discourse Wentworth Press

Coinciding with the 200th anniversary of the publication of Frankenstein in 1818, a prize-winning poet delivers a major new biography of Mary Shelley—as she has never been seen before. We know the facts of Mary Shelley's life in some detail—the death of her mother, Mary Wollstonecraft, within days of her birth; the upbringing in the house of her father, William Godwin, in a house full of radical thinkers, poets, philosophers, and writers; her elopement, at the age of seventeen, with Percy Shelley; the years of peripatetic travel across Europe that followed. But there has been no literary biography written this century, and previous books have ignored the real person—what she actually thought and felt and why she did what she did—despite the fact that Mary and her group of second-generation Romantics were extremely interested in the psychological aspect of life. In this probing narrative, Fiona Sampson pursues Mary Shelley through her turbulent life, much as Victor Frankenstein tracked his monster across the arctic wastes. Sampson has written a book that finally answers the question of how it was that a nineteen-year-old came to write a novel so dark, mysterious, anguished, and psychologically astute that it continues to resonate two centuries later. No previous biographer has ever truly considered this question, let alone answered it.

An Introduction Wentworth Press

Generato, non procreato. La sfida dell'adozione Survival In Auschwitz Simon and Schuster

Complex/Archetype/Symbol in the Psychology of C.G. Jung Routledge

"In Levi's writing, nothing is superfluous and everything is essential." —Saul Bellow A Penguin Classic In the final days of World War II, a courageous band of Jewish partisans makes its way from Russia to Italy, moving toward the ultimate goal of Palestine. Based on a true story, *If Not Now, When?* chronicles their adventures as they wage a personal war of revenge against the Nazis: blowing up trains, rescuing the last victims of concentration camps, scoring victories in the face of unspeakable devastation. Primo Levi captures the landscape and the people of Eastern Europe in vivid detail, depicting as well the terrible bleakness of war-ridden Europe. But finally, what he gives us is a tribute to the strength and ingenuity of the human spirit. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,800 titles, Penguin Classics represents a global bookshelf of the

best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Digital Business Models Cambridge University Press

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?"

The Rajneesh Bible Generato, non procreato. La sfida dell'adozione Survival In Auschwitz

This collection of literature attempts to compile many of the classic works that have stood the test of time and offer them at a reduced, affordable price, in an attractive volume so that everyone can enjoy them.

Envy and Gratitude, and Other Works, 1946-1963 Other Press, LLC

This book uses five case-studies to set ancient technical knowledge in its political, social and intellectual context.

Life Sciences in Society Mack

In his final book before his death, Primo Levi returns once more to his time at Auschwitz in a moving meditation on memory, resiliency, and the struggle to comprehend unimaginable tragedy. Drawing on history, philosophy, and his own personal experiences, Levi asks if we have already begun to forget about the Holocaust. His last book before his death, Levi returns to the subject that would define his reputation as a writer and a witness. Levi breaks his book into eight essays, ranging from topics like the unreliability of memory to how violence twists both the victim and the victimizer. He shares how difficult it is for him to tell his experiences with his children and friends. He also debunks the myth that most of the Germans were in the dark about the Final Solution or that Jews never attempted to escape the camps. As the Holocaust recedes into the past and fewer and fewer survivors are left to tell their stories, *The Drowned and the Saved* is a vital first-person testament. Along with Elie Wiesel and Hannah Arendt, Primo Levi is remembered as one of the most powerful and perceptive writers on the Holocaust and the Jewish experience during World War II. This is an essential book both for students and literary readers. Reading Primo Levi is a lesson in the resiliency of the human spirit.

The Message of the Alien God and the Beginnings of Christianity Princeton University Press

A crisp and trenchant dissection of populism today The word 'populism' has come to cover all manner of sins. Yet despite the prevalence of its use, it is often difficult to understand what connects its various supposed expressions. From Syriza to Trump and from Podemos to Brexit, the electoral earthquakes of recent years have often been grouped under this term. But what actually defines 'populism'? Is it an ideology, a form of organisation, or a mentality? Marco Revelli seeks to answer this question by getting to grips with the historical dynamics of so-called 'populist' movements. While in the early days of democracy, populism sought to represent classes and social layers who asserted their political role for the first time, in today's post-democratic climate, it instead expresses the grievances of those who had until recently felt that they were included. Having lost their power, the disinherited embrace not a political alternative to -isms like liberalism or socialism, but a populist mood of discontent. The new populism is the 'formless form' that protest and grievance assume in the era of financialisation, in the era where the atomised masses lack voice or organisation. For

Revelli, this new populism the child of an age in which the Left has been hollowed out and lost its capacity to offer an alternative.
