HICKS BUCK

Made in Korea Routledge

From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that's part memoir/part inspiration/part DIY. Rob Kenney's father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

Annual Report Jones & Bartlett Learning

Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become

a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For *The White Coat Investor* "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of *How a Second Grader Beats Wall Street* "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." - William J. Bernstein, MD, Author of *The Investor's Manifesto* and seven other investing books "This book should be in every career counselor's office and delivered with every medical degree." - Rick Van Ness, Author of *Common Sense Investing* "The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk." - Joe Jones, DO "Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis." - Dennis Bethel, MD "An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust." - Greg E Wilde, M.D Scroll up, click the buy button, and get started today!

A Comparative History of Commerce and Industry, Volume II Arte Publico Press

A Comparative History of Commerce and Industry, Volume II offers a subjective review of how the cultural, social and economic institutions of commerce and industry evolved in industrialized nations to produce the institution we now know as business enterprise.

Bosnia & Herzegovina 5 Dundurn

From an expert author who has lived and worked in the region for over two decades, Bradt's *Bosnia and Herzegovina* is the most comprehensive English-language guidebook available to the mountainous heart of the Western Balkans. It covers the country's diverse Mediterranean landscapes, from the southern Herzegovina cities of Mostar and Trebinje to the lush and green Alpine regions of Sarajevo and Banja Luka, plus second-to-none coverage of the capital city Sarajevo. Now in its fifth edition, not only does the guide feature smaller towns and villages off the beaten track, but it also goes into greater depth than its competitors, with more detail on the history, culture and sights, and more opinionated and entertaining reviews of hotels and

restaurants. For this new updated edition, the Sarajevo chapter has been fully overhauled with brand new mapping, and a complete run-down of all of the Herzegovina wineries has been included. There is also new coverage on the Via Dinarica regional mega trail that carves its way through the heart of Bosnia and Herzegovina's Dinaric Alps and is chock full of activities and adventure for families and pros alike. New maps for the country's national parks Sutjeska and Una national parks are included, plus walking routes that you'll find in no other book new town plans of Visegrad and Trebinje. All the regional maps have been completely overhauled. Also included are details of rural accommodation and farm stays within reach of some of the major hubs, plus an expanded chapter on Mostar and Trebinje. Two decades after the conflict that ravaged the region, Bosnia and Herzegovina has emerged as a unique, dynamic tourism destination. Whether you go in search of bears in the primeval Sutjeska National Park, wander the winding streets of Sarajevo's Turkish quarter or put your feet up in Mostar with a glass of chilled ilavka, you are guaranteed to be charmed by the country's rich natural and cultural heritage.

When a Texas school puts on an original play about the Alamo, the students and teachers confront modern conflicts about

history, identity, and the meaning of courage.

Cleveland, Metropolitan Area, Alphabetical Telephone Directory Watkins Media Limited

American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide—400,000 copies sold—now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on

maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Repair Reporter John Wiley & Sons

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

TOP Bulletin White Coat Investor LLC the

The Muncie 4-speeds, M20, M21, and M22 are some of the most popular manual transmissions ever made and continue to be incredibly popular. The Muncie was the top high-performance manual transmission GM offered in its muscle cars of the 60s and early 70s. It was installed in the Camaro, Chevelle, Buick GS, Pontiac GTO, Olds Cutlass, and many other classic cars. Many owners want to retain the original transmission in their classic cars to maintain its value. Transmission expert and veteran author Paul Cangialosi has created an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process. Comprehensive ID information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. It also explains how to choose the ideal gear ratio for a particular application. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Muncie 4-speeds need rebuilding after many miles of service and extreme use. In addition, when a muscle car owner builds a high-performance engine that far exceeds stock horsepower, a stronger high-performance transmission must be built to accommodate this torque and horsepower increase. No other book goes into this much detail on the identification of the Muncie 4-speed, available parts, selection of gear ratios, and the rebuild

process.

This book is designed to present, in one convenient source, comments published in periodicals about 325 automobile models manufactured since 1987 on a model-by-model basis. These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models.

New Serial Titles Dundurn

An eye-opening response to Aldous Huxley's widely influential work on psychedelics, physical reality, and consciousness What exactly are hallucinations? Are they actually doors to another reality? Anthony Peake thinks so. In this stunning book, he takes Aldous Huxley's The Doors of Perception and updates it using the latest information from quantum mechanics, neurochemistry, and consciousness studies. Most human beings perceive the doors of perception as being securely closed. But here, Peake analyzes the concept of 'the scale of transcendence' and suggests there is a scale of perceptions whereby the doors are slowly opened, bit by bit, to reveal the true nature of reality. For 'normal' people, glimpses of this reality—what the Gnostics called 'The Pleroma'—are experienced during 'noetic' experiences. However, for others, the doors are prized open by certain neurological processes starting with migraine and progressing through various altered states such as temporal lobe epilepsy, bipolar syndrome, autism, and schizophrenia. A pioneering work on the relationship between physical reality and consciousness, Opening the Doors of Perception suggests that man can, indeed, perceive reality in its true glory.
