Foundations of Maternal-Newborn and Women's Health Nursing Saunders
 Specially designed to parallel the material in Maternal-Child Nursing, 4th Edition, this user-friendly study guide provides valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include multiple-choice, matching, true/false, and review questions, as well as case studies, critical thinking activities, clinical learning exercises, and key concepts. Active learning approach helps you understand complex processes, improve skills performance, and develop critical-thinking and clinical decision-making skills. Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills. *Kotch's Maternal and Child Health: Problems, Programs, and Policy in Public Health* F.A. Davis
 Assure your mastery of maternal and newborn nursing knowledge while honing your critical-thinking and test-taking skills. An easy-to-follow format parallels the content of your course, topic by topic, resulting in maternal and newborn content made manageable. The 3rd Edition of this popular resource features multiple-choice and alternate-format questions that reflect the latest advances in maternal-newborn nursing and the latest NCLEX-RN® test plan. Rationales for both correct and incorrect answers as well as test-taking tips help you critically analyze the question types. You'll also find a wealth of alternate-format questions, including fill in the blank and select all that apply (SATA).

Maternal-Child Nursing - E-Book LWW

This money saving package includes the McKinney: Maternal-Child Nursing, 3rd edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for McKinney's Maternal-Child Nursing, 3rd edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your combined maternity and pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to McKinney: Maternal-Child Nursing, 3rd edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Maternal-Child Nursing - Text and Simulation Learning System Package Elsevier
 This paediatric nursing text discusses the disorders most commonly encountered in both hospital and community care settings. It discusses anatomy, physiology, paediatric differences and common diagnostic tests and medications, enabling readers to associate systems and diseases with appropriate tests and medications. It provides nursing care plans for key disorders, a unit on growth and development, a summary of growth and development, and special considerations for caring for children.

Principles and Practice Lippincott Williams & Wilkins

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Essentials of Pediatric Nursing Prentice Hall

Leading and Managing in Nursing, 5th Edition -- Revised Reprint by Patricia Yoder-Wise successfully blends evidence-based guidelines with practical application. This revised reprint has been updated

to prepare you for the nursing leadership issues of today and tomorrow, providing just the right amount of information to equip you with the tools you need to succeed on the NCLEX and in practice. Content is organized around the issues that are central to the success of professional nurses in today's constantly changing healthcare environment, including patient safety, workplace violence, consumer relationships, cultural diversity, resource management, and many more. "... apt for all nursing students and nurses who are working towards being in charge and management roles." Reviewed by Jane Brown on behalf of Nursing Times, October 2015 Merges theory, research, and practical application for an innovative approach to nursing leadership and management. Practical, evidence-based approach to today's key issues includes patient safety, workplace violence, team collaboration, delegation, managing quality and risk, staff education, supervision, and managing costs and budgets. Easy-to-find boxes, a full-color design, and new photos highlight key information for quick reference and effective study. Research and Literature Perspective boxes summarize timely articles of interest, helping you apply current research to evidence-based practice. Critical thinking questions in every chapter challenge you to think critically about chapter concepts and apply them to real-life situations. Chapter Checklists provide a quick review and study guide to the key ideas in each chapter, theory boxes with pertinent theoretical concepts, a glossary of key terms and definitions, and bulleted lists for applying key content to practice. NEW! Three new chapters - Safe Care: The Core of Leading and Managing, Leading Change, and Thriving for the Future - emphasize QSEN competencies and patient safety, and provide new information on strategies for leading change and what the future holds for leaders and managers in the nursing profession. UPDATED! Fresh content and updated references are incorporated into many chapters, including Leading, Managing and Following; Selecting, Developing and Evaluating Staff; Strategic Planning, Goal Setting, and Marketing; Building Teams Through Communication and Partnerships; and Conflict: The Cutting Edge of Change. Need to Know Now bulleted lists of critical points help you focus on essential research-based information in your transition to the workforce. Current research examples in The Evidence boxes at the end of each chapter illustrate how to apply research to practice. Revised Challenge and Solutions case scenarios present real-life leadership and management issues you'll likely face in today's health care environment.

A Case-Based Approach W B Saunders Company

This is an essential book for the shorter courses in maternity nursing, e.g., 4-8 weeks long or as a refresher for professionals. Features in this book include: Women's Health and Reproductive Issues; Conception and Development; Pregnancy--Normal and High Risk; Labor--Normal and High Risk; Birth--Normal and High Risk; Postpartum Care--Normal and High Risk; Newborn Care--Normal and High Risk. Nursing students and professionals.

Olds' Maternal-Newborn Nursing & Women's Health Across the Lifespan: Pearson New International Edition PDF eBook Elsevier Health Sciences

This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you

should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

Care of the Childbearing and Childrearing Family Elsevier Health Sciences

Finally! A new OB/peds textbook that focuses on what LPNs must know. You'll find just the right depth and breadth of coverage with a focus on the knowledge and skills that LPNs need to know to practice safely.

Introduction to Maternity & Pediatric Nursing F.A. Davis

Too much information? Too little time? Here's everything you need to succeed in your maternal-newborn nursing course and prepare for course exams and the NCLEX®. Succinct content reviews in outline format focus on must-know information, while case studies and NCLEX-style questions develop your ability to apply your knowledge in simulated clinical situations. A 100-question final exam at the end of the book. You'll also find proven techniques and tips to help you study more effectively, learn how to approach different types of questions, and improve your critical-thinking skills.

Study Guide to Accompany Maternal and Child Health Nursing Elsevier Health Sciences

This book provides introductory coverage of growth and development throughout the lifespan. The content emphasizes normal aspects as well as the unique problems and health promotion needs of each age and stage of development. It features a strong health promotion theme structured around Healthy People 2020 objectives. Lifespan coverage from prenatal development to death helps students integrate concepts related to normal changes in each stage of the life cycle. Coverage of current research and trends in health care provide readers with the most up-to-date, accurate information. Health promotion and disease prevention, including Healthy People 2020 objectives, are highlighted throughout the book. Cultural content is highlighted throughout the book and in new Chapter 3: Cultural Considerations in Health Care to encourage students to consider cultural implications at every stage of development. Separate chapter on advanced old age and geriatrics (Chapter 14) discuss the theories, physiological changes, and psychological aspects of aging; health promotion and maintenance; and the role of health care providers in caring for the geriatric patient. All of this helps students understand how to maintain quality of life and promote health in advanced old age. Teaching techniques for every developmental stage are part of a consistent chapter format and provide age-appropriate patient education tips. Consistent chapter organization for each stage of growth and development makes information easy to access. Critical Thinking scenarios and questions appear at the end of each chapter to help students consider all variables when planning care across the lifespan. Student learning features include Objectives, Key Terms, Key Points, and Review Questions. Appendix A includes the FDA's Recommended Child and Adult Immunization Schedules, providing essential health promotion information. NEW Appendix B provides a Multilingual Glossary of Symptoms to enhance students' awareness of culturally sensitive care. Glossary includes definitions of Key Terms and additional terms help students review concepts and terminology at a glance. Bibliography is organized by chapter at the end of the book to facilitate additional research and study.

Contemporary Maternal-newborn Nursing Care Elsevier Health Sciences

Designed to meet the needs of today's students, Lowdermilk's Maternity Nursing, 8th Edition - Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. Maternity Nursing focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and

management of common women's health problems. Critical thinking exercises present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. NEW! A helpful appendix identifies text content that reflects the QSEN competencies - patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics - to assist you in developing competencies to provide safe and effective nursing care. NEW! Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. NEW! Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. NEW! Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. NEW! Improved readability helps you learn more efficiently with shorter, more focused content discussions. NEW! 21st Century Maternity Nursing: Culturally Competent, Community Focused chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts. NEW! Streamlined content highlights the most essential, need-to-know information.

Canadian Maternity and Pediatric Nursing Saunders

This is a Pageburst digital textbook; Engaging and easy to read, this concise textbook offers just the right level of maternity and pediatric nursing coverage. It provides a solid foundation in normal body function, then builds on that knowledge to help you understand how to modify nursing care when the unexpected arises. Clear writing and interactive learning tools (including video and animation) reinforce key concepts and encourage you to think critically and apply what you've learned. Critical to Remember boxes highlight "need to know" information for quick and easy access. Critical Thinking Exercises challenge you to apply critical thinking and problem-solving skills to realistic clinical scenarios. Illustrated Procedure boxes provide clear, step-by-step instructions for performing key clinical nursing tasks. Nursing Care Plans in every clinical chapter help you learn to use the nursing process to develop individualized care for maternity and pediatric patients. Communications Cues provide practical verbal and nonverbal tips for communicating effectively with patients and families. Want to Know boxes offer helpful patient teaching guidelines. Photo Stories use engaging pictures to demonstrate the types of care nurses provide in a variety of clinical settings. Pathophysiology boxes in pediatric chapters provide illustrated overviews of common disorders. Companion CD-ROM contains video clips, 3-D animations, illustrated skills, case studies with critical thinking questions, NCLEX® examination-style review questions, and an audio glossary complete with Spanish pronunciations. Evolve Student Resources Website offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

Maternity Nursing - Revised Reprint Jones & Bartlett Learning

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Maternity, Newborn, and Women's Health Nursing Lippincott Williams & Wilkins

Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes.
