Vander's Renal Physiology, 7th Edition McGraw-Hill Education / Medical

Understand the role of epidemiology in clinical medicine for the best patient outcomes possible For nearly a quarter of a century, Medical Epidemiology has been the go-to text for understanding the principles and concepts of epidemiology and the relationship between population-based science and efficient patient care. It delivers the most current information on patterns of disease occurrence and risk factors - all clearly linked to clinical practice through the use of Health Scenarios in every chapter. This edition of Medical Epidemiology has been completely rewritten to reflect the transformative changes in the manner in which epidemiologic methods are being utilized in today's healthcare as well as the major shifts that have occurred at the policy level. New chapters have been added on many timely topics, including global health, social determinants of health, health inequalities, comparative effectiveness, quality of care, variations in care, and implementation science. Increased information about evaluating, summarizing, and using evidence for improved patient care and outcomes gives this edition an even greater clinical focus.

"Every Doctor spoke to me deeply and personally ... as we face the challenges of 21st Century medical practice, I felt cared for, much like I do when visiting my personal family doctor. Every Doctor will speak to you as well." Associate Professor Sandy Buchman, Family Physician Practising in Palliative Care, President-Elect of the Canadian Medical Association "As implicit in the title, the book reaches out to every doctor from recent graduates to the experienced - general practitioner and specialist. The message is universal, timeless and challenging." Emeritus Professor John Murtagh, Department of General Practice, School of Primary Health Care, Faculty of Medicine Nursing and Health Sciences, Monash University, Australia "Michael and Leanne are indeed the best family doctors to author Every Doctor because they have demonstrated in this book how much they understand about us as medical practitioners, as leaders and advocates, and about our journeys and our future. They share precious experience and offer precious advice." Dr Donald Li (Hong Kong, China), President, World Organisation of Family Doctors (WONCA), 2018-2020 "If you ever feel like giving up medicine - and all of us have those sorts of days - then this remarkable, courageous and joyful book is the one for you." Dr Iona Heath CBE, President, Royal College of General Practitioners (2009-2012) 'Every Doctor' is about thriving in medicine at a time of massive advances and changes in global health systems and medical services. The book is a must-read for doctors of all specialties at all stages of their careers wherever they practise in the world, because exemplary care of patients, peers, profession and self is a lifelong journey.
