Slave Narratives Oberon Books

"Ten days after the war ended, my sister Laura drove a car off a bridge." These words are spoken by Iris Chase Griffen, married at eighteen to a wealthy industrialist but now poor and eighty-two. Iris recalls her far from exemplary life, and the events leading up to her sister's death, gradually revealing the carefully guarded Chase family secrets. Among these is "The Blind Assassin," a novel that earned the dead Laura Chase not only notoriety but also a devoted cult following. Sexually explicit for its time, it was a pulp fantasy improvised by two unnamed lovers who meet secretly in rented rooms and seedy cafés. As this novel-within-a-novel twists and turns through love and jealousy, self-sacrifice and betrayal, so does the real narrative, as both move closer to war and catastrophe. Margaret Atwood's Booker Prize-winning sensation combines elements of gothic drama, romantic suspense, and science fiction fantasy in a spellbinding tale.

Bourbon Bartender BoD - Books on Demand

A beautiful book on the famed Chinati Foundation in Marfa, Texas
The Red Mohawk World Scientific Publishing Company Incorporated

Raise your glass to the bourbon renaissance with this must-have cocktail collection! Whiskey experts Jane Danger and Alla Lapushchik showcase this quintessentially American spirit at its very best, featuring timeless classics and forgotten gems to cutting-edge craft concoctions. They also serve up history, home bartending tips, profiles of the best bourbon-focused bars, and a calendar of bourbon festivals and events--everything a bourbon lover could want.

From the Ground Up Lulu.com

Funny, outrageous, passionate, and unrelenting, Vogue's food writer, Jeffrey Steingarten, will stop at nothing, as he makes clear in these forty delectable pieces. Whether he is in search of a foolproof formula for sourdough bread (made from wild yeast, of course) or the most sublime French fries (the secret: cooking them in horse fat) or the perfect piecrust (Fannie Farmer--that is, Marion Cunningham--comes to the rescue), he will go to any length to find the answer. At the drop of an apron he hops a plane to Japan to taste Wagyu, the hand-massaged beef, or to Palermo to scale Mount Etna to uncover the origins of ice cream. The love of choucroute takes him to Alsace, the scent of truffles to the Piedmont, the sizzle of ribs on the grill to Memphis to judge a barbecue contest, and both the unassuming and the haute cuisines of Paris demand his frequent assessment. Inevitably these pleasurable pursuits take their toll. So we endure with him a week at a fat farm and commiserate over low-fat products and dreary diet cookbooks to bring down the scales. But salvation is at hand when the French Paradox (how can they eat so richly and live so long?) is unearthed, and a "miraculous" new fat substitute, Olestra, is unveiled, allowing a plump gourmand to have his fill of fat without getting fatter. Here is the man who ate everything and lived to tell about it. And we, his readers, are hereby invited to the feast in this delightful book.

A Secret to Die For Createspace Independent Publishing Platform
Published more than three decades after Rachel Carson's Silent Spring warned of the impact of chemicals on the environment, this book offers a critique of current thinking on cancer and its causes. It argues that the evidence has been wilfully ignored, and that the environment is still being poisoned. Throughout her study, the author weaves two stories - of Rachel Carson and her battle to be heard and of her own cancer of the bladder, which she traces back to agricultural and industrial contamination.

A History of Tasmania from Its Discovery in 1642 to the Present Time Columbia University Press

The new book from the anonymous author of the international bestselling Bourbon Kid series. Everything seems peaceful in the small town of B Movie Hell until a mysterious serial killer in a skull mask topped with a red mohawk shows up and starts butchering the locals. Government agents Jack Munson and Milena Fonseca

are sent to track down and eliminate the masked psychopath. But as they soon discover, the residents of B Movie Hell don't want their help. This is a town like no other, and the locals have many dark secrets.... Already a hit in France and Germany and with film rights optioned by Tobey Maguire's Material Pictures and Alexandra Milchan (exec producer - The Wolf of Wall Street), The Red Mohawk is a fun, outrageous and bloody thriller full of cinematic references and homages to many cult movies. An explosive cocktail of delirious humour and suspense - Stephane Loignon, Le Parisien magazine.

ABA Standards for Criminal Justice Auzou

this part is supported by two useful appendices on some of the mathematical tools used and the physical units of plasma physics. State-space models, state observers, H control, and process simulations are some of the familiar techniques used by the authors to meet the demanding spatial control specifications for these processes; however, the research reported in the monograph is more than just simulation studies and proposals for possible future hypothetical controllers, for the authors have worked with some of the world's leading existing tokamak facilities. Chapter 5, 8, and 9 respectively, give practical results of implementations of their control schemes on the FTU Tokamak (Italy), the TCV Tokamak (Switzerland), and the JET Tokamak (United Kingdom). Additionally, the authors present simulation results of their ideas for the control of the new tokamak proposed for the ITER project. In conclusion, being very aware that most control engineers will not be conversant with the complexities of tokamak nuclear fusion reactor control, the authors have taken special care to give a useful introduction to the background of nuclear fusion, the science of plasma physics and appropriate models in the first part of the monograph (Chapters 1 to 3). This introduction is followed by six chapters (4 to 9) of control studies. In Chapter 4, the generic control problem is established and then five case study chapters follow.

Chinati Sterling Epicure

Surrounded by lies and deceit how do you work out who is telling the truth? When highly decorated war hero, Colonel Tariq joins the intelligence agency, his rise to the top seems assured. But in his first case he discovers a CIA agent has killed a young

prostitute and a diplomatic crisis erupts. As the two nations negotiate, angry mobs take to the streets and he is caught up in a national scandal. Tariq is instructed to eliminate the only witness and instigate a cover up, trapping him in a terrible moral dilemma. As his professional ambition and private life collide, he must make a life changing decision that will have far reaching consequences for the future of his family and his country.

Theory of Fusion Plasmas Michael O'Mara Books

The Joint Varenna-Lausanne International Workshop on Theory of Fusion Plasmas takes place every other year in a place particularly favorable for informal and in depth discussions. Invited and contributed papers present state-of-the art researches in theoretical plasma physics, covering all domains relevant to fusion plasmas. This workshop always allows a fruitful mix of experienced researchers and students, to allow for a better understanding of the key theoretical physics models and applications, such as: Theoretical issues related to burning plasmas; Anomalous Transport (Turbulence, Coherent Structures, Microinstabilities) RF Heating and Current Drive; Macroinstabilities; Plasma-Edge Physics and Divertors; Fast particles instabilities.

Georgia Slave Narratives Native American Book Publishers

From 1936 to 1938, the Works Projects Administration (WPA) commissioned writers to collect the life histories of former slaves.

This work was compiled under the Franklin Roosevelt administration during the New Deal and economic relief and recovery program. Each entry represents an oral history of a former slave or a descendant of a former slave and his or her personal account of life during slavery and emancipation. These interviews were published as type written records that were difficult to read. This new edition has been enlarged and enhanced for greater legibility. No library collection in Georgia would be complete without a copy of Georgia Slave Narratives.

Problem-based Learning for Administrators Simon and Schuster

Learn how to buy, style, and present seasonal flower arrangements for every occasion. With sections on tools, flower care, and design techniques, Floret Farm's A Year in Flowers presents all the secrets to arranging garden-fresh bouquets.

Featuring expert advice from Erin Benzakein, world-renowned flower farmer, floral designer, and bestselling author of Floret Farm: Cut Flower Garden, this book is a gorgeous and comprehensive guide to everything you need to make your own incredible arrangements all year long, whether harvesting flowers from the backyard or shopping for blooms at the market. • Includes an A-Z flower guide with photos and care tips for more than 200 varieties. • Simple-to-follow advice on flower care, material selection, and essential design techniques • More than 25 how-to projects, including magnificent centerpieces, infinitely giftable posies, festive wreaths, and breathtaking bridal bouquets Floret Farm's A Year in Flowers offers advice on every phase of working with cut flowers—including gardening, buying, caring for, and arranging fresh flowers. Brimming with indispensable tips and hundreds of vibrant photographs, this book is an invitation to live a flower-filled life and perfect for anyone who loves flowers. • The definitive guide to flower arranging from the biggest star in the farm-to-centerpiece movement • Perfect for flower lovers, avid and novice gardeners, floral designers, wedding planners, florists, small farmers, stylists, designers, crafters, and those passionate about the local floral movement • For those who loved Floret Farm's Cut Flower Garden by Erin Benzakein, The Flower Recipe Book by Alethea Harampolis, Seasonal Flower Arranging by Ariella Chezar, and The Flower Chef by Carly Cylinder Making Space Gibbes Street

In the Prospective Principals' Program at Stanford University, students are engaged in problem-based learning (PBL), a cooperative, small-group approach providing opportunities to resolve problems likely to confront real-world professionals. To illustrate PBL's background and rationale, chapter 1 briefly describes how the topic of teacher selection might be introduced using traditional, case-method, and PBL approaches. Chapter 2 focuses on the students' role and how instructors can minimize the frustration and difficulties students experience in Stanford's PBL curriculum. Chapter 3 describes a field test of the teacher selection project, focusing on valuable lessons for student and instructor. Chapter 4 explains the instructor's role in PBL and how to deal with potential challenges arising while implementing a PBL project. The fifth chapter contains six student essays to illustrate what students report learning about leadership and various administrative skills. Chapter 6 describes possible obstacles

hindering PBL implementation and outlines a strategy for overcoming these impediments. The last chapter focuses on future challenges, including explicating student-centered learning, facilitating administrators' lifelong learning, conducting research on PBL effectiveness, and exploring other PBL contexts for educating administrators. Appendices provide a description of Stanford's PBL program, samples of problem-stimulated learning projects, and a project checklist. (50 references) (MLH)

The Devil's Graveyard Michael O'Mara Books

Inspiration, planting ideas and expert advice for a beautiful garden all-year round Colour and scent are the hallmarks of Sarah Raven's style – and they are simple luxuries that everyone can bring into their garden. A Year Full of Flowers reveals the hundreds of hardworking varieties that make the garden sing each month, together with the practical tasks that ensure everything is planted, staked and pruned at just the right time. Tracing the year from January to December at her home, Perch Hill, Sarah offers a complete and transporting account of a garden crafted over decades. Sharing the lessons learned from years of plant trials, she explains the methods that have worked for her, and shows you how to achieve a space that's full of life and colour. Discover long-lasting, divinely scented tulips, roses that keep flowering through winter, the most magnificent dahlias and show-stopping alliums, as well as how to grow sweet peas up a teepee, take cuttings from chrysanthemums and stop mildew in its tracks. This is passionate, life-enriching gardening; it's also simple, adaptable and can work for you. Sarah has made the garden central to her life – this book shows you how you can too.

Walls Have Mouths - A Record of Ten Years' Penal Servitude

Springer Science & Business Media

Dr. Henry Cloud, bestselling author of the Boundaries series, offers a life-changing book that provides ten strategies for overcoming self-defeating life patterns that will help you redirect your mistakes and make way for success—physically, personally, and spiritually. Everyone makes mistakes, big and small. Sometimes our mistakes take us down the wrong path and send us spiraling into destructive life patterns, and sometimes we learn our lesson and never make the same mistake again. But how? How do we recognize destructive patterns, make new choices, and then follow through? In Never Go Back, bestselling author Dr. Henry Cloud shares ten doorways to success—and once we walk

through these new pathways, we never go back again. His proven method—based on grace, not guilt—outlines ten common life patterns that sabotage success and lays out clear, concrete steps you can take to overcome them. You'll see your relationships flourish, your personal life enhanced, and your faith strengthened. Dr. Cloud's powerful message reveals doorways to understanding—once you enter them, you will get from where you were to where you want to be. With a winning combination of eternal principles, spiritual wisdom, and modern scientific data, *Never Go Back* will put your heart in the right place with yourself and with God.

The Man Who Ate Everything Arte Publico Press
 For many centuries the library of lawless hell hole Santa
 Mondega, in South America, has held a gruesome secret. There is
 on its shelves a nameless book, by an anonymous author, and
 everyone who has ever read it ... is dead.
Georgia Narratives Chronicle Books
 An examination of how the media is under fire and how to
 safeguard journalists and the information they seek to share with
 the public. Journalists are being imprisoned and killed in record
 numbers. Online surveillance is annihilating privacy, and the
 Internet can be brought under government control at any time.
 Joel Simon, the executive director of the Committee to Protect
 Journalists, warns that we can no longer assume that our global
 information ecosystem is stable, protected, and robust. Journalists
 are increasingly vulnerable to attack by authoritarian

governments, militants, criminals, and terrorists, who all seek to
 use technology, political pressure, and violence to set the global
 information agenda. Reporting from Pakistan, Russia, Turkey,
 Egypt, and Mexico, among other hotspots, Simon finds journalists
 under threat from all sides. The result is a growing crisis in
 information—a shortage of the news we need to make sense of
 our globalized world and fight human rights abuses, manage
 conflict, and promote accountability. Drawing on his experience
 defending journalists on the front lines, he calls on “global
 citizens,” U.S. policy makers, international law advocates, and
 human rights groups to create a global freedom-of-expression
 agenda tied to trade, climate, and other major negotiations. He
 proposes ten key priorities, including combating the murder of
 journalists, ending censorship, and developing a global free-
 expression charter to challenge the criminal and corrupt forces
 that seek to manipulate the world's news. “Wise and insightful.
 [Simon] offers hope to all who care about maintaining the free
 flow of information in a world full of would-be censors.”—Ann
 Cooper, Columbia Journalism School
