The Filipinos' Fight for Freedom Basic
 Books
 Against the backdrop of the global
 financial crisis and rising food, fuel, and
 commodity prices, addressing poverty and
 inequality in the Philippines remains a
 challenge. The proportion of households
 living below the official poverty line has
 declined slowly and unevenly in the past
 four decades, and poverty reduction has
 been much slower than in neighboring
 countries such as the People's Republic of
 China, Indonesia, Thailand, and Viet Nam.

Economic growth has gone through boom
 and bust cycles, and recent episodes of
 moderate economic expansion have had
 limited impact on the poor. Great
 inequality across income brackets,
 regions, and sectors, as well as
 unmanaged population growth, are
 considered some of the key factors
 constraining poverty reduction efforts. This
 publication analyzes the causes of poverty
 and recommends ways to accelerate
 poverty reduction and achieve more
 inclusive growth. it also provides an
 overview of current government
 responses, strategies, and achievements
 in the fight against poverty and identifies
 and prioritizes future needs and
 interventions. The analysis is based on
 current literature and the latest available
 data, including the 2006 Family Income
 and Expenditure Survey.

In this wide-ranging cultural and political
 history of Filipinos and the Philippines,
 Vicente L. Rafael examines the period
 from the onset of U.S. colonialism in 1898
 to the emergence of a Filipino diaspora in
 the 1990s. Self-consciously adopting the
 essay form as a method with which to
 disrupt epic conceptions of Filipino history,
 Rafael treats in a condensed and concise
 manner clusters of historical detail and
 reflections that do not easily fit into a
 larger whole. *White Love and Other Events
 in Filipino History* is thus a view of
 nationalism as an unstable production, as
 Rafael reveals how, under what
 circumstances, and with what effects the
 concept of the nation has been produced
 and deployed in the Philippines. With a
 focus on the contradictions and ironies
 that suffuse Filipino history, Rafael
 delineates the multiple ways that
 colonialism has both inhabited and

enabled the nationalist discourse of the present. His topics range from the colonial census of 1903-1905, in which a racialized imperial order imposed by the United States came into contact with an emergent revolutionary nationalism, to the pleasures and anxieties of nationalist identification as evinced in the rise of the Marcos regime. Other essays examine aspects of colonial domesticity through the writings of white women during the first decade of U.S. rule; the uses of photography in ethnology, war, and portraiture; the circulation of rumor during the Japanese occupation of Manila; the reproduction of a hierarchy of languages in popular culture; and the spectral presence of diasporic Filipino communities within the nation-state. A critique of both U.S. imperialism and Filipino nationalism, *White Love and Other Events in Filipino History* creates a sense of epistemological vertigo in the face of former attempts to comprehend and master Filipino identity. This volume should become a valuable work for those interested in Southeast Asian studies, Asian-American studies, postcolonial studies, and cultural studies. *Kasaysay Writers & Readers Publishing*
 Preface. A Summary of the Book The history that is about to be written, will be written from the perspective of one who at the time of writing is already 93 years of age and who participated in a big way in the history of the times he lived in, who had a maternal grandfather who was also involved in the history of the previous 70 years, who read one book every day from the age of 10 to the age of 80, who lived the lives and absorbed the thoughts of the authors of 25,500 books he read, and who had a beloved teacher in history, the famous Jesuit Father Horacio de la Costa of Ateneo, who began his lectures with "What I am about to tell you is the chismis (gossip) of a nation aborning." From the perspective of the author, Filipino people from the time they were "discovered" by Ferdinand Magellan in 1521, mercifully fell asleep, two oceans away from Mother Spain, were spared the violence of war, the plagues, and the ferment of change that the whole continent of Europe was blighted with, and lived lives so much better than the peasants of the advanced countries. It was only in the late 19th century after the opening of the Suez Canal, that the Filipinos woke up, awakened by three heroes: Jose Rizal who inspired them to be a nation, Andres Bonifacio who inspired them to fight for their freedom, and Emilio Aguinaldo who took on two great powers -- Spain which he defeated and the United States which defeated him - and in the process, forged

a nation for four glorious years from 1898 to 1902, gave it a flag, an anthem and a constitution, and made it the first in all Asia to break the shackles of Western Colonialism and the first democracy in all of Asia, the last of the Hispanic colonies and the first Asian country to be liberated, as the children of the French Revolution. From the perspective of the author, the American occupation of the Philippines, accomplished with much cruelty in the Philippine American War, and so shamefully with the Treaty of Paris, by which the United States paid Spain \$20 million for the Philippines, which Spain no longer owned - was marked by the understanding that the United States would prepare the Filipinos for independence, a pledge that was incorporated in a remarkable document drafted by the US Secretary of War Elihu Root, giving the defeated country, the entire Bill of Rights gratis et amore, something the Anglo-Saxons earned for 647 years at the cost of so much blood and the hangman's knot. The only counterpoint to Elihu Root was the Military Governor General Arthur MacArthur who acted like he was William the Conqueror and dealt with Filipinos as if he was King of the Philippines. Nevertheless, the United States fulfilled its pledge. And the American Occupation was dominated by one leader, Manuel L. Quezon, president of the Philippine Commonwealth, who steered his country to "total, absolute and complete independence" or so he thought. Interrupted by the Japanese attack and occupation during World War II, in a war as cruel and devastating as the Philippine-American War from 1898 to 1902, President Quezon died in exile in the United States. General Douglas MacArthur, the son of General Arthur MacArthur, fulfilled his personal pledge to liberate the Philippines at the cost of 100,000 Filipino lives, despite the fact that his role was unnecessary, that the USA was about to win the War with the Atomic Bomb. -----

The Miseducation of the Filipino BRILL
 This " groundbreaking book . . . is

essential reading not only for the Filipino diaspora but for anyone who cares about the mysteries of racial identity" (Jose Antonio Vargas, Pulitzer Prize-winning journalist). Is race only about the color of your skin? In *The Latinos of Asia*, Anthony Christian Ocampo shows that what "color" you are depends largely on your social context. Filipino Americans, for example, helped establish the Asian American movement and are classified by the US Census as Asian. But the legacy of Spanish colonialism in the Philippines means that they share many cultural characteristics with Latinos, such as last names, religion, and language. Thus, Filipinos' "color" —their sense of connection with other racial groups—changes depending on their social context. The Filipino story demonstrates how immigration is changing the way people negotiate race, particularly in cities like Los Angeles where Latinos and Asians now constitute a collective majority. Amplifying their voices, Ocampo illustrates how second-generation Filipino Americans' racial identities change depending on the communities they grow up in, the schools they attend, and the people they befriend. Ultimately, *The Latinos of Asia* offers a window into both the racial consciousness of everyday people and the changing racial landscape of American society.

A sweeping history of America's long and fateful military relationship with the Philippines amid a century of Pacific warfare Ever since US troops occupied the Philippines in 1898, generations of Filipinos have served in and alongside the US armed forces. In *Bound by War*, historian Christopher Capozzola reveals this forgotten history, showing how war and military service forged an enduring, yet fraught, alliance between Americans and Filipinos. As the US military expanded in Asia, American forces confronted their Pacific rivals from Philippine bases. And from the colonial-era Philippine Scouts to post-9/11 contractors in Iraq and Afghanistan, Filipinos were crucial partners in the exercise of US power. Their service reshaped Philippine society and politics and brought thousands of Filipinos to America. Telling the epic story of a century of conflict and migration, *Bound by War* is a fresh, definitive portrait of this uneven partnership and the two nations it transformed.

For centuries, the Chinese have been intermarrying with inhabitants of the Philippines, resulting in a creolized community of Chinese mestizos under the Spanish colonial regime. In contemporary Philippine society, the "Chinese" are seen as a racialized "Other" while descendants from early Chinese-Filipino intermarriages as "Filipino." Previous scholarship attributes this development to the identification of Chinese mestizos with the equally "Hispanicized" and "Catholic" indios. Building on works in Chinese transnationalism and cultural anthropology, this book examines the everyday practices of Chinese merchant families in Manila from the 1860s to the 1930s. The result is a fascinating study of how families and individuals creatively negotiate their identities in ways that challenge our understanding of the genesis of ethnic identities in the Philippines. "...[This book] helps contribute to the revision of the existing literature on the Chinese and Chinese mestizos with a new perspective that highlights the emerging field of transnational studies." - Prof. Augusto Espiritu, University of Illinois at Urbana-Champaign "...the author does an outstanding job and we recommend that citizens of the Philippine 'nation,' whether they see themselves as 'Chinese' or 'Filipino' would do well to read this work and understand the origins of the racial stereotypes that influence the way they look at particular members of Philippine society, particularly in Manila." - Prof. Ellen Palanca and Prof. Clark Alejandrino, Ateneo de Manila University "...an ambitious study of the Chinese and first-generation Chinese mestizos of Manila...[the author] has added valuable research materials from Philippine and American archival collections and...a wide range of published primary sources...The book is meticulously annotated and rich in descriptive detail..." - Michael Cullinane, University of Wisconsin-Madison

One of Carson's most distinct features is its diversity. The city is roughly one-quarter each Hispanic, African American, white, and Asian/ Pacific Islander. This last group's vast majority are Filipinos who settled as early as the 1920s as farmworkers, U.S. military recruits, entrepreneurs, medical professionals, and other laborers, filling the economic needs of the Los Angeles region. This vibrant

community hosts fiestas like the Festival of Philippine Arts and Culture and has produced local community heroes, including "Uncle Roy" Morales and "Auntie Helen" Summers Brown. Filipino students of the 1970s organized to gain college admissions, establish ethnic studies, and foster civic leadership, while Filipino businesses have flourished in Carson, San Pedro, Wilmington, Long Beach, and the surrounding communities. Carson is recognized nationally as a Filipino American destination for families and businesses, very much connected to the island homeland.

Beginning with a definition of who the people of The Philippines are, this fully illustrated history then tracks back to describe the prehistory of the country through to 1500 AD. The next two chapters chart the colonial experiences under Spain (1500-1896), then the first republic and the subsequent defeat by the United States (1860-1910). Following this are chapters on the Japanese occupation and the third republic (1910-1972). Next comes a description of the Marcos dictatorship and its consequences (1970-1986) and the book ends with a look at the fifth republic and the future of the country. Ray Canoy's authoritative text describes the history of The Philippines from pre-history to the present day.

"Adam Burns explores the American imperial venture in the Philippines through the lens of a single individual: William Howard Taft. Taft held a number of positions (head of the second Philippine Commission, first US civil governor of the islands, US Secretary of War, and US president) which mark him out from others in the period as an individual of unparalleled influence over US-Philippine policy during its formative years. Although initially a skeptic of imperialism, Taft came to believe that the best course for US-Philippine relations was a permanent imperial bond much like the relationship between Great Britain and Canada or Australia at the time. Based largely on personal correspondence and other primary documentation, this book researches in great depth Taft and his views on empire-building from 1900 to 1921, when Taft was appointed to the Supreme Court"--

On the eve of a new century, an up-and-coming Theodore Roosevelt set out to transform the U.S. into a major world power. The Spanish-American War would forever change America's standing in global affairs, and drive the young nation into its own imperial showdown in the Philippines. From Admiral George Dewey's legendary naval victory in Manila Bay to the Rough Riders' heroic charge up San Juan Hill, from Roosevelt's rise to the presidency to charges of U.S. military misconduct in the Philippines, *Honor in the Dust* brilliantly captures an era brimming with American optimism and confidence as the nation expanded its influence abroad.

Written with high school and undergraduate students as the target

audience, this volume is ideal for anyone interested in Philippine history. It pieces together evidence from the precolonial era, illustrating the country's relationship with its neighboring Asian countries, its functioning social system, its widespread literacy, and developed system of writing. Its discussion of the precolonial era acknowledges the significant role women played in Philippine society, one that changed significantly with the coming of the friars. Its summary of over 350 years of colonial rule by Spain and almost 50 years by the United States helps the reader to understand why the Philippines is uniquely different from its Asian neighbors. It illustrates how Filipinos responded to colonialization, their active participation in the making of the nation and the shaping of Philippine society, and most importantly, the courage and resiliency of the Filipino people.

Bound by War

Unlike other conventional histories, the unifying thread of *A History of the Philippines* is the struggle of the peoples themselves against various forms of oppression, from Spanish conquest and colonization to U.S. imperialism. Constantino provides a penetrating analysis of the productive relations and class structure in the Philippines, and how these have shaped—and been shaped by—the role of the Filipino people in the making of their own history. Additionally, he challenges the dominant views of Spanish and U.S. historians by exposing the myths and prejudices propagated in their work, and, in doing so, makes a

major breakthrough toward intellectual decolonization. This book is an indispensable key to the history of conquest and resistance in the Philippine. [History of the Philippines](#)
The story of this nation of over seven thousand islands, from ancient Malay settlements to Spanish colonization, the American occupation, and beyond. *A History of the Philippines* recasts various Philippine narratives with an eye for the layers of colonial and post-colonial history that have created this diverse and fascinating population. It begins with the pre-Westernized Philippines in the sixteenth century and continues through the 1899 Philippine-American War and the nation's relationship with the United States' controlling presence, culminating with its independence in 1946 and two ongoing insurgencies, one Islamic and one Communist. Award-winning author Luis H. Francia creates an illuminating portrait that offers valuable insights into the heart and soul of the modern Filipino, laying bare the multicultural, multiracial society of contemporary times.
