Upon its publication more than a decade ago, Dr. James Duke's *The Green*

Pharmacy quickly set the standard for consumer herb references. A favorite of laypeople and professionals alike, the book sold more than a million copies and solidified the author's reputation as one of the world's foremost authorities on medicinal plants. In *The Green Pharmacy Guide to Healing Foods*, Dr. Duke turns to the broader and even more popular subject of food as medicine, drawing on more than thirty years of research to identify the most powerful healing foods on earth. Whether he is revealing how to beat high cholesterol with blueberries, combat hot flashes with black beans, bash blood sugar spikes with almonds, or help relieve agonizing back pain with pineapple, Dr. Duke's food remedies help treat and prevent the whole gamut of health concerns, from minor (such as sunburn and the common cold) to more serious (like arthritis and diabetes). Dr. Duke has assigned a rating to each remedy, according to his evaluation of the available scientific studies and anecdotal reports. Many of the healing foods recommended here are proving so effective that

they may outperform popular pharmaceuticals—minus the risk (and cost).

An intimate look at the full spectrum of shame—often masked by addiction, promiscuity, perfectionism, self-loathing, or narcissism—that offers a new, positive route forward Encounters with embarrassment, guilt, self-consciousness, remorse, etc. are an unavoidable part of everyday life, and they sometimes have lessons to teach us—about our goals and values, about the person we expect ourselves to be. In contrast to the prevailing cultural view of shame as a uniformly toxic influence, *Shame* is a book that approaches the subject of shame as an entire family of emotions which share a “painful awareness of self.” Challenging widely-accepted views within the self-esteem movement, author Joseph Burgo argues that self-esteem does NOT thrive in the soil of non-stop praise and encouragement, but rather depends upon setting and meeting goals, living up to the expectations we hold for ourselves, and finally sharing our joy in achievement with the

people who matter most to us. Along the way, listening to and learning from our encounters with shame will go further than affirmations and positive self-talk in helping us to build authentic self-esteem. Richly illustrated with clinical stories from Burgo's 35 years in private practice, *Shame* also describes the myriad ways that unacknowledged shame often hides behind a broad spectrum of mental disorders including social anxiety, narcissism, addiction, and masochism.
