Men, Women and Rape Routledge

In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

Claiming Space in a Man-Made World Guilford Press

As *The Giving Tree* turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half*, *Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic!*

"As timely as it is well-written, this clear-eyed collection is just what I need right now." —Jacqueline Woodson, author of *Brown Girl Dreaming* "The intersectional feminist anthology we all need to read" (*Bustle*), edited by a feminist activist and writer who "calls to mind a young Audre Lorde" (*Kirkus*) Why do some women struggle to identify as feminists, despite their commitment to gender equality? How do other aspects of our identities – such as race, religion, sexuality, gender identity, and more – impact how we relate to feminism? Why is intersectionality so important? In challenging, incisive, and fearless essays – all of which appear here for the first time – seventeen writers from diverse backgrounds wrestle with these questions, and more. A groundbreaking book that elevates underrepresented voices, *Can We All Be Feminists?* offers the tools and perspective we need to create a 21st century feminism that is truly for all. Including essays by: Soofiya Andry, Gabrielle Bellot, Caitlin Cruz, Nicole Dennis-Benn, Brit Bennett, Evette Dionne, Aisha Gani, Afua Hirsch, Juliet

Men, Masculinity, and Love Routledge

"When truth teller and careful writer bell hooks offers a book, I like to be standing at the bookshop when it opens." –Maya Angelou Renowned visionary bell hooks explored the meaning of love in American culture with the critically acclaimed bestseller *All About Love: New Visions*. She continued her national dialogue with the bestselling *Salvation: Black People and Love*. Now hooks culminates her triumphant trilogy of love with *Communion: The Female Search for Love*. Intimate, revealing, provocative, *Communion* challenges every woman to courageously claim the search for love as the heroic journey we must all choose to be truly free. In her trademark commanding and lucid language, hooks explores the ways ideas about women and love were changed by the feminist movement, by women's full participation in the workforce, and by the culture of self-help, and reveals how women of all ages can bring love into every aspect of their lives, for all the years of their lives. *Communion* is the heart-to-heart talk every woman -- mother, daughter, friend, and lover -- needs to have.

Sustaining Spirit Routledge

According to the *Washington Post*, no one who cares about contemporary African-American cultures can ignore bell hooks' electrifying feminist explorations. Targeting cultural icons as diverse as Madonna and Spike Lee, *Outlaw Culture* presents a collection of essays that pulls no punches. As hooks herself notes, interrogations of popular culture can be a 'powerful site for intervention, challenge and change'. And intervene, challenge and change is what hooks does best.

Knowledge, Consciousness, and the Politics of Empowerment HarperCollins

A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In *Data Feminism*, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever "speak for themselves." *Data Feminism* offers strategies for data scientists seeking to learn how feminism can help them work

toward justice, and for feminists who want to focus their efforts on the growing field of data science. But *Data Feminism* is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed.

Against Our Will Routledge

With contributions from some of the most important current feminist thinkers, *Transformations* traces both the shifts in thinking that have allowed feminism to arrive at its present point, and the way that feminist agendas have progressed in line with wider social developments. A thorough reassessment of feminism's place in contemporary life, the authors engage in current debates as diverse as globalization, technoscience, embodiment and performativity, taking feminism in fresh directions, mapping new territory and suggesting alternative possibilities.

Thinking Through Feminism Harper Collins

Susan Brownmiller's groundbreaking bestseller uncovers the culture of violence against women with a devastating exploration of the history of rape—now with a new preface by the author exposing the undercurrents of rape still present today. *Rape*, as author Susan Brownmiller proves in her startling and important book, is not about sex but about power, fear, and subjugation. For thousands of years, it has been viewed as an acceptable "spoil of war," used as a weapon by invading armies to crush the will of the conquered. The act of rape against women has long been cloaked in lies and false justifications. It is ignored, tolerated, even encouraged by governments and military leaders, misunderstood by police and security organizations, freely employed by domineering husbands and lovers, downplayed by medical and legal professionals more inclined to "blame the victim," and, perhaps most shockingly, accepted in supposedly civilized societies worldwide, including the United States. *Against Our Will* is a classic work that has been widely credited with changing prevailing attitudes about violence against women by awakening the public to the true and continuing tragedy of rape around the globe and throughout the ages. Selected by the *New York Times Book Review* as an Outstanding Book of the Year and included among the *New York Public Library's Books of the Century*, *Against Our Will* remains an essential work of sociological and historical importance.

Black Women and Feminism MIT Press

What does it mean to call a place home? Who is allowed to become a member of a community? When can we say that we truly belong? These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book, *Belonging: A Culture of Place*. Traversing past and present, *Belonging* charts a cyclical journey in which hooks moves from place to place, from country to city and back again, only to end where she began—her old Kentucky home. hooks has written provocatively about race, gender, and class; and in this book she turns her attention to focus on issues of land and land ownership. Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s, she writes about black farmers, about black folks who have been committed both in the past and in the present to local food production, to being organic, and to finding solace in nature. Naturally, it would be impossible to contemplate these issues without thinking about the politics of race and class. Reflecting on the racism that continues to find expression in the world of real estate, she writes about segregation in housing and economic racialized zoning. In these critical essays, hooks finds surprising connections that link of the environment and sustainability to the politics of race and class

that reach far beyond Kentucky. With characteristic insight and honesty, *Belonging* offers a remarkable vision of a world where all people—wherever they may call home—can live fully and well, where everyone can belong.

The Female Search for Love Routledge

What is feminism? In this short, accessible primer, bell hooks explores the nature of feminism and its positive promise to eliminate sexism, sexist exploitation, and oppression. With her characteristic clarity and directness, hooks encourages readers to see how feminism can touch and change their lives—to see that feminism is for everybody.

Ain't I a Woman Verso Books

Discusses what black males fear most, their longing for intimacy, the pitfalls of patriarchy, and the destruction of oppression through redemption and love.

Feminism Is for Everybody Routledge

The #1 international best seller *Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Engaged Cultural Criticism Open Road Media

In *Homegrown*, cultural critics bell hooks and Amalia Mesa-Bains reflect on the innate solidarity between Black and Latino culture. Riffing on everything from home and family to multiculturalism and the mass media, hooks and Mesa-Bains invite readers to re-examine and confront the polarizing mainstream discourse about Black-Latino relationships that is too often negative in its emphasis on political splits between people of color. A work of activism through dialogue, *Homegrown* is a declaration of solidarity that rings true even ten years after its first publication. This new edition includes a new afterword, in which Mesa-Bains reflects on the changes, conflicts, and criticisms of the last decade.

Poetry and Place Knopf

When *Feminist Theory: From Margin to Center* was first published in 1984, it was welcomed and praised by feminist thinkers who wanted a new vision. Even so, individual readers frequently found the theory "unsettling" or "provocative." Today, the blueprint for feminist movement presented in the book remains as provocative and relevant as ever. Written in hooks's characteristic direct style, *Feminist Theory* embodies the hope that feminists can find a common language to spread the word and create a mass, global feminist movement.

Evagrius Of Pontus: Talking Back Routledge

First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

Teaching Critical Thinking Routledge

In the past decade the central principles of western feminist theory have been dramatically challenged. many feminists have endorsed post-structuralism's rejection of essentialist theoretical categories, and have added a powerful gender dimension to contemporary critiques of modernity. Earlier 'women' have been radically undermined, and newer concerns with 'difference', 'identity', and 'power' have emerged. Destabilizing Theory explores these developments in a set of specially commissioned essays by feminist theorists. Does this change amount to a real shift within feminist theory, or will feminism's links with an emancipatory modernism reinstate an older political agenda? Can we transcend the common counterposition of equality and difference, or is feminism condemned to argue within the terms of this binary opposition?

Self-Care for Social Justice Routledge

Everyone needs to love and be loved—even men. But to know love, men must be able to look at the ways that patriarchal culture keeps them from knowing themselves, from being in touch with their feelings, from loving. In *The Will to Change*, bell hooks gets to the heart of the matter and shows men how to express the emotions that are a fundamental part of who they are—whatever their age, marital status, ethnicity, or sexual orientation. But toxic masculinity punishes those fundamental

emotions, and it's so deeply ingrained in our society that it's hard for men to not comply—but hooks wants to help change that. With trademark candor and fierce intelligence, hooks addresses the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society, in new and challenging ways. She believes men can find the way to spiritual unity by getting back in touch with the emotionally open part of themselves—and lay claim to the rich and rewarding inner lives that have historically been the exclusive province of women. A brave and astonishing work, *The Will to Change* is designed to help men reclaim the best part of themselves.

Black Women and Self-Recovery Routledge

Author Naomi Ortiz shares stories from people caring for their communities, all working to balance activism and life. Realizing too often activism creates stress and exhaustion, Ortiz turns to the Sonoran Desert and self-care practices to share how to build a nourishing and joyful life.

Where We Stand Routledge

In childhood, bell hooks was taught that "talking back" meant speaking as an equal to an authority figure and daring to disagree and/or have an opinion. In this collection of personal and theoretical essays, hooks reflects on her signature issues of racism and feminism, politics and pedagogy. Among her discoveries is that moving from silence into speech is for the oppressed, the colonized, the exploited, and those who stand and struggle side by side, a gesture of defiance that heals, making new life and new growth possible.
