Genetics and traditional risk factors such as activity, diet, and tobacco use cannot reliably predict whether we stay healthy or become ill. What then are the primary predictors of adult-onset diabetes, heart attacks, stroke, and many other diseases? The social determinants of health provide the answer: these are the socio-economic conditions that shape the health of individuals, communities, and jurisdictions as a whole. Social determinants establish the extent to which Canadians possess the resources to identify and achieve personal aspirations, satisfy needs, and cope with the environment. This perspective is the

key to understanding patterns of health and illness in Canada today. Uniting top academics and high profile experts from across the country, this contributed volume is a unique undertaking that combines analysis of the current state of the social determinants of health, with explication of their effects. The contributions take a public policy approach that sees the mainsprings of health emerging from the social distribution of resources. The collection as a whole integrates insights from the health sciences, the sociology of health, and the political economy of health. Critical areas of investigation: Aboriginal status early life, education, and literacy work and unemployment food security gender health care services housing income and its distribution social safety net social exclusion

Canadian Society in the Twenty-first Century Sociology in Action A Canadian Perspective
The essence of sociology lies in the sociological imagination. Sociology in Action: A Canadian Perspective, Third Edition, articulates the importance of developing a sociological imagination and highlights the tools that are necessary to develop that skill: empirical research methods that create verifiable knowledge, sociological theories that explain that knowledge, and critical thinking that enables us to evaluate and to extrapolate from that knowledge. By the time students have completed this text, they will be better equipped to engage in effective social action in the context of their families, communities, and professions, as well as in the context of larger social problems such as social inequality and environmental degradation. With their signature passion and Sociological Toolkit, Diane Symbaluk and Tami Bereska have created a text that will inspire 21st-

century learners to become active and informed citizens. Exploring Sociology A Canadian Perspective, Now in its fourth edition, Principles of Sociology remains the most concise yet comprehensive introduction to sociological theory and Canadian society. This text offers students an accessible approach to the core concepts and theories of sociology, and brings these principles to life with its discussions of cutting-edge research, historical developments, contemporary movements, and numerous Canadian and international examples.

It's an in-depth, rigorous examination of knowledge of a multitude of physical and biological scientific concepts and principles, as well as critical-thinking and writing skills. MCAT Psychology and Sociology Review includes topic reviews of the biological foundations of behavior, personality, motivation, attitudes, psychological disorders, self- and group identities, social structures, learning and memory, and statistics and research methods. The book also includes access to 3 full-length practice MCAT exams. This revised 3rd edition reflects recent changes made by the test-makers to content coverage on the exam (including a new section on research methods and data interpretation, insertion of additional figures and content examples, adjusting the balance of memorization/critical reasoning questions, and revising some content presentation structures for better exam consistency).

Feminist Perspectives John Wiley & Sons Now in its third edition, this comprehensive text provides an in-depth examination of poverty and its impact on the health and quality of life of Canadians. Considering a broad range of topics, Dennis Raphael covers the central issues of defining and measuring poverty; situational and societal causes of poverty; health and social implications for individuals, communities, and society

as a whole; and the means of reducing poverty's incidence through public policy action. Poverty in Canada will foster greater insight into the repercussions of poverty throughout society, encouraging readers to reflect on provocative questions at the end of each chapter. Well updated to reflect current statistics and recent public policy changes, this new edition explores why specific groups of Canadians are over-represented amongst those living in poverty and provides a more developed analysis of the barriers to reducing poverty, including economic globalization and the increased power and influence of the corporate sector under neo liberalism. Emphasizing the lived experiences of poverty, this interdisciplinary volume is a valuable resource to those studying or working in health studies, social work, sociology, and equity studies.

An Introduction to Sociology SAGE Publications

This Fourth Edition of George Ritzer's *Introduction to Sociology* shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and

stories about “public” sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New “Trending” boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing “Public Sociology” boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and “Digital Living” boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's

proposed Mexican border wall further segmentation of wealthy Americans in the “super rich” transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism Sociology Canadian Scholars’ Press Approximately 550 of the major reference sources in sociology, its subdisciplines, and some related disciplines are identified and described in this new edition of Aaby's critically acclaimed book. Emphasis is on works in English published in the last decade—indexes, bibliographies, handbooks, databases, World Wide Web sites, dictionaries, and other print and electronic reference and information sources—but some classic sources in other languages or that precede this period are included. Virtually all sources in the book have been thoroughly examined and described by the compiler. The addition of approximately 250 new titles and electronic sources, as well as updates and the inclusion of new editions of previously cited titles, makes this a substantial revision of and complement to the first edition. A valuable resource for librarians, faculty, and undergraduate and graduate students, this book will also be useful to researchers.
